CONVEYANCING AND PROBATE BUSINESS A SPECIALTY.

"Blow for blow" is the cry of the Canadian Tories. Their organs demand that if Canadian vessels are closed out of the Sault Canal American vessels be closed out of the Welland. And according to a Montreal dispatch it is reported on good authority that the Dominion Government will by order in council put as much tax on American vessels passing through the Welland as the President may put on Canadian vessels passing through the Sault. This is to be expected. The discrimination against American vessels passing through the Welland under existing Dominion regulations is in plain violation of the treaty of Washington, which expressly stipulates for equal rights to American vessels in Canadian canals. The Dominion authorities have refused to listen to the representations of our government on the subject. They have weighed in violating the treaty, knowing that by so doing they would make all retail stipulations in favor of Canada voidable. They must have expected retaliatory measures on our part, and therefore, they must have contemplated counter-retaliation on their own part. The proposed action in regard to the Welland, it is claimed, will not be any more an evasion of the treaty of Washington than the threatened American decree. "Probably not. It is not claimed on our part that we could rightfully have discriminated against Canadian vessels at the Sault if the Dominion government had not first violated the treaty and thus made voidable all Canadian rights under the same article of the treaty. The Dominion struck the first blow and invited the return blow. If it chooses to strike another it may strike, but it must expect more blows in return, and so on until one party or the other has enough of it. This is a deplorable kind of warfare, but the responsibility for it lies with the aggressor. The party attacked cannot be blamed for striking back. Our government is in the right and is sustained by the people, without distinction of party. Retaliation has been authorized, not only by a Republican Senate but by an overwhelming Democratic House. The 'Tory' government would do well to recognize that fact and think twice before going any further in its commercial war on the United American. It would do well to take counsel of discretion.

After having been convinced that her drinking water is not with sewage and must be boiled before it is drunk, Chicago is now trying to find a safe way of disposing of her garbage. These evidences of a desire to improve the sanitary condition of the World's Fair city ought to be gratifying to the thousands of persons who contemplate a visit to the place next summer.

If France proposes to indulge in the luxury of a great war, she should lose no time in getting about it. The deaths exceeded the births by 40,000 in 1890. At that rate France will be a howling wilderness in the time without the devastation of war.

The demolition of Heligoland is going on apace. Five military watch towers are being erected on the island, which is slowly but surely crumbling away. One of them, a corresponded status, is just beginning to appear at the South Point, the rock which rises sheer and red above the clear, green water. Only two short years ago that point was the loneliest, loveliest spot on the sunny, silent island, and served the superannuated, weather-beaten fishermen as a station, whence they looked out when a storm was brewing, or when the fishing fleet was overdue. Now bricks and mortar cover the deep grass; the primitive seats have disappeared, and the German blue coat reigns supreme. Close to the Government House, in the fields, a powder warehouse is being built, and over the graves of the old Frisian Kings the walls of big barracks are rising.

Among the very foremost agitators for the building of better country roads is ex-Governor James A. Besor, of Pennsylvania, who made this the subject of an executive message during his term of office. Governor Besor has written for the Forum an explanation why most communities find it so difficult to get good roads. The school tax, he says, we have become accustomed to; so we have become accustomed to be taxed for charitable institutions and for the relief of the poor; but in most States the habit of generations, so far as concerns the improvement of roads, has been the ineffective system of "working the roads," so that most men have not only had it firmly fixed in their minds that roads are not proper subjects for direct taxation, but that the highways might be made by a small contribution of personal labor. It is this long and deep-rooted habit and unwillingness to pay a direct sufficient tax that is the primary cause of our National disgrace in having so few good highways; and the remedy lies in such an agitation as is happily now going on in most States for a keener public appreciation of the direct commercial benefits of well-built roads.

The disappearance of the Jim Fisk restaurant recalls to an old New Yorker that there were as cheap restaurants in New York forty years ago as now. In the fifties there was a famous cheap restaurant on Chatham Square. Here one could buy for 6¢ a good slice of beef with potatoes and trippin. For 6¢ cents more one could have plum pudding with rich sauce. Thus one obtained for 12¢ cents, the old York shilling, a wholesome and satisfying meal, and not always in bad company.

PHILOSOPHY.
Remember, O remember, while years are floating by,
While springtime scenes of joyous youth are measuring the sky,
To garner in for later years, when life may lose its zest,
That treasure which of treasures all is ever, ever best—
A brave Philosophy!

Remember, O remember, while manhood's summer grows,
While striving 'mid the piercing thorns to pluck ambition's rose,
Though failure, pain and sacrifice may mar thy daily path,
That these do sweat thy keener pang for him who always hath
A wise Philosophy!

Remember, O remember, when youth is far behind,
With only memory's cloak to shield from autumn's chilling wind,
That thou may'st purchase refuge with the treasure thou hast won,
And fairer, warmer reliance than shed by summer sun,
With thy Philosophy!

Remember, O remember, when winter's icy hand
Draws tighter and yet tighter life's slender, golden land,
That there is hope and peace and joy and happiness indeed,
And confidence beyond despair, whatever be thy trial,
In this Philosophy!
—Carlyle's Truth, in New York World.

THE SNAKE BROOCH.

I HAD settled myself in my corner and the train was already swinging at a good pace down the "Golden Valley" before I noticed, first, that I was not alone, and second, that I was in a smoking compartment.

My fellow traveler was a lady, clothed from head to foot in a traveling sister with a deep cape, and closely veiled. I wanted to smoke very badly, and so I ventured to ask her if she had any objection.

Imagine my astonishment when, instead of replying to my question, she sobbed out something utterly incoherent and burst into tears. This was startling enough, but when I saw that she made no attempt to take out a handkerchief to dry her eyes, but simply sat still with her hands clasped under her chin, I was very quickly given up to bewilderment.

In such a situation a man does not reason; he simply acts on instinct. In a moment I was at the other end of the carriage, begging her in a clumsy, dry way to tell me what was the matter with her. For an answer she suddenly parted her cape and held up two tiny clasped and daintily gloved hands. As she did so I heard the click of steel, and something bright shown in the lamplight.

My companion was handcuffed! Before she attempted any explanation she opened her right hand and showed me one of the regulation screw keys which alone will open the steel bracelets that restrain the exuberance of the unruly or dangerous criminal.

I took the key, and after a little fumbling about I managed to get the handcuffs off her wrists. She was a strikingly nice woman, with a face of the most angelic beauty, and she was dressed in a very becoming and tasteful manner. I was very much interested in her, and I was very much surprised to find that she was a very young woman.

It was a pitiful tale and to a great extent which the newspapers have of late years made too commonplace. Forged by social and pecuniary considerations into a marriage with a man old enough to be her father, and possessing a single half acre of land, she had had, under sore temptation, broken her forced troth and fled from his house.

To proceed to follow her himself, and yet mean enough to punish her by submitting her to an unheard-of indignity, he had put private detective upon her, and she was taken to the police station, where she was kept in a cell, and given him strict orders to bring her back to London when caught, handcuffed like a felon.

the carriage, and with a few murmured words of repeated thanks she was gone. When I got back into the carriage I lit a cigar and lay back on the cushions to think over my adventure. By the time the train drew into Paddington I had recalled my beautiful unknown lady, a heroine of romance, and, I regret to say, myself into something like a knight errant of the days of chivalry.

"This is it, twelve-muley. Are you there, Fred?" The train had stopped, and a flash flashing into the carriage woke me up from my day dream to be these strange words, and to see a couple of men in police uniform and a railway inspector peering into the compartment.

"Hullo! this must be wrong. They aren't here, and yet this is the right number. Excuse me, sir, how far have you come to this carriage?"

A minute later, and a cab, a bit dazed by drowsiness and my strange reception, "Have you come all the way alone?"

"Good Heaven! what's that?" My eyes followed the glare of the lamp, and I saw the toe of a man's boot on the floor of the carriage a few inches back from the front of the seat.

"Not only was I charged with the most terrible of all crimes, but the charge was supported by prima facie evidence that looked practically conclusive. The handcuffs had been found in my pocket, and I was accused of procuring the same for the purpose of the robbery of Maria S., the wife of a member of the Nihilist Inner Circle, then serving a life sentence in Siberia.

No fewer than four murders had been traced to her, and now I was charged with complicity in a fifth, that of a woman who had been detected by her own thought to make a brilliant coup by taking her alone.

She seemed to have the power of fascinating men with her beauty till they became her slaves, and then striking them dead by some terrible and mysterious means that left no trace save death behind it.

There is no need to dwell on the horrors of the time that followed my arrest. Everything that money and skill could do for me was done, but I was committed to the cell on the circumstantial evidence to answer the charge of murder.

While I lay in jail awaiting my trial the search for Maria S. became an absolute hunt to death. Despite all this, so perfect was her skill in disguise, and so unlimited her fertility of resource, that she might have evaded pursuit after all, had it not been for one of those slips that the cleverest of criminals seem to make sooner or later.

would be little or no danger, provided she held her breath for a couple of minutes and moved quickly away, as the gas mixes very rapidly with the air and is soon lost. In a confined space like the cab the atmosphere would soon be so saturated that it would be death to breathe it.

All this was, of course, told to me after my release, which was effected immediately after the mystery was cleared up.—Sheffield Telegraph.

When Lord Thurlow opened a lawyer's office in London, he took a basement room which had previously been occupied by a cobbler. He was somewhat annoyed by the previous occupant's callous, and irritated by the fact that he had few clients. One day an Irishman entered. "The cobbler's gone, I see," he said.

"I should think he had," tartly responded the lawyer.
"And what do you sell?" inquired the Irishman, looking at the solitary table and a few law books.

"Begorra," said Pat, "we must be doing a mighty fine business; you ain't got but one left." —Once a Week.

SHE WAS SHOPPING.
She had been shopping—plain, unadorned shopping for an hour, and had all the goods from the shelves on the counter. The clerk's patience was gone.

"Have you anything else besides these?" she inquired, with a wave of her hand across the rejected stuff.
"No," he replied curtly.
"Have you any dark blue ribbon with a faint red line in it?"
"No."
She began to get warm.

"Have you any politeness?" she asked unexpectedly.
"Yes," he responded coolly.
"Yes," he said to see some of it," she said sarcastically.
"I can't show it to you, miss," he said finally, "unless you agree to take enough of it to justify me in showing it."
Then she walked out, but she never reported the clerk. —Detroit Free Press.

None but those who are pledged to the support of the Peoples' platform adopted at Omaha, and the candidates nominated will be permitted to take part in the convention.

We have received from the publishers, "True Blue" Republican Campaign Songs, and "Red Hot" Democratic Campaign Songs—two books each containing a collection of new songs arranged for male quartet clubs, with music and words complete, and just what is wanted for the Presidential campaign of 1892. Nothing is more effective than stirring and appropriate songs for campaign purposes, and they are furnished in great variety in "True Blue" and "Red Hot." Sold by mail and news dealers generally, or upon receipt of ten cents each, copies will be mailed to any address by The S. Brainard's Sons Co., Chicago, Ill.

A caucus of the Republican voters was held at the Carter House hall on Monday night for the election of delegates to the several conventions. Gen. S. Little was chosen president and A. H. Ingram secretary. The choice of delegates was as follows: State: S. S. Sawyer, W. A. C. Oaks. Congressional: Geo. A. Cochran, E. W. Baker. Conventioneer: John A. Bryer, B. S. Hockmister. Senatorial: W. W. Crosby, Frank W. Palmer. County: Geo. H. Little, Isaac Barrett. A committee consisting of E. W. Baker, Geo. A. Cochran, and E. T. Adams were appointed to take into consideration the merits of a campaign flag.

Soon the familiar sound of the school bell will be heard again. A fireman's muster will be held at Wilton Sep. 17th.

Albert Clement was taken ill last Friday, with a bilious attack, and has been unable to attend to any labor since.

Miss Grace Shoultz is visiting with her uncle, A. O. Cutter at North Branch.

George Wilson and family went to Gloucester on Monday, and will attend the exercises in that city consequent upon its 250th anniversary.

Samuel Robinson and family with the exception of his son Fred started on Tuesday morning for Brant Rock, Mass., on a two weeks' visit.

You had ought to try Goodwin's 50 cent uncolored and 60 cent black tea.

There was a very good attendance at the ball game last Saturday afternoon at 4 o'clock, on the home ground between the Benningtons and Antrims. The latter proved themselves of good metal, and won the game by a score of 14 to 4. The visitors made some good plays, but couldn't seem to hold their end up.

At the Baptist church last Sabbath, the pastor preached a most excellent sermon from the 1st. vers. of the 121st psalm. "I will lift up mine eyes unto the hills, from whence cometh my help."

Misses Grace and Carrie Trask of Lynn are visiting with their uncle, C. W. Thompson.

Mrs. Jane McClure and daughter of Revere are visiting Mr. and Mrs. Fred L. Nay.

A right jolly party of boarders from John Bass' popular resort at Clinton, enjoyed a "hay ride" last Saturday evening. John handled the reins in a masterly manner over a four-in-hand.

Mrs. Mary A. Parker of Goffstown, accompanied by her son and daughter, David and Olive, are stopping at her brother's, J. N. P. Woodbury.

Fred Thompson fell off his bicycle last Thursday, and cut a bad gash on his left elbow, which will necessitate his being very careful for some time to come about catching cold in the wound.

Good green tea, 25 cents at Goodwin's.

Miss Edna Cram of Marlow, who has been visiting friends and relatives in Antrim, returned home last Saturday accompanied by her brother, William Cram, our Ass't. P. M.

W. L. Winslow of Milford has been engaged to do the brick work on the new Presbyterian church. Last week he and his workmen were busy putting up the brick columns in the basement, nineteen in number, preparatory to the laying of the floors by the carpenters.

Jerry Driscoll of Wilton, the managing builder of the Presbyterian church, has entered upon his labors with quite a gang of workmen. The sills of the edifice were laid last week, and very soon the echo of the carpenter's hammer will be heard around the village, at least ten hours in the day. In the southwest corner of the foundation may be seen the corner stone with a square place cut in the centre, intended no doubt for whatever may be deposited therein at the dedication.

The new dwelling now being erected by C. O. Kimball on Main street, has so far advanced that the outline of the structure is quite apparent. The work is being vigorously pushed forward by Frank Downes.

The underpinning for the new Presbyterian church was quarried at Wilton, and furnished by Mr. Haselton of that town.

The old gentleman who has taken his place in the doorway at Harrington & Kibbey's store will for the present greet customers who desire anything in the line of goods which he represents, in his blindest style. His arguments may not interest you much on a sunny day, but they are sure to prove convincing in rainy weather.

Ice cold soda at Goodwin's.

Last Monday the electric light poles were distributed from the Goodwin saw-mill up the street as far as the above office. The dynamo will be placed at the mill and storage batteries in the upper part of the city's works. It is possible that the post-office will be lighted with electricity, also the store of John Balch.

The 250th anniversary of the settlement of Gloucester, Mass., takes place this week. C. B. Gardner and Geo. Wilson and wife intend to be present.

To those who have ordered pictures of Mr. Nay, and left their orders at this office, we would say that he would like to have them called for at once. The orders have been filled pictures finished, and they have been waiting at this office for delivery for some time.

A good second hand safety very cheap at Goodwin's.

Among the pleasant places for a day's outing round about this region may be mentioned Gregg's Pond. The trip is easily and quickly made through a pleasant and picturesque section. At the Peterwagh House may be found accommodations for picnic parties.

There is a good grove near by, and at the pond good boats at a convenient landing may be found. It should be remembered also that bass and other fish are plentiful in the waters of the lake, and to our summer visitors who have not been there we would recommend an early visit.

Last Friday evening witnessed another of the pleasant occasions of the season, at the residence of our fellow citizen, C. Freeman Holt. The festivities took the form of a "Piazza Frolie," including what. The winners in this part of the entertainment were rewarded with elegant prizes, but the less fortunate ones will remember the evening by the dainty souvenirs, which for the players served as score cards.

After awarding the prizes a sumptuous banquet was served in the dining hall. Toasts and speeches concluded the joyous occasion and the company dispersed at an early hour delighted with the pleasing way in which the departing guests, E. C. Regestein and party of Jamaica Plain, Mass., had chosen to show their esteem for the place, and regrets at leaving.

N. G. Jameson and wife left town on Monday, Mr. Jameson to make a trip to Foxboro', Mass., on business; Mrs. Jameson to Milford, to spend the day with her uncle, D. S. Burnham, who is in feeble health.

An overcoat has been lost. Read advertisement.

Machines without limit of designation have been invented and constructed by Yankee ingenuity for lightening the labors of man, and now and then some enterprising mechanic thinks out some device to lessen the drudgery of the housewife. The last production in this line that we have seen in practical operation, is the "Acme Dish Washer," at the Antrim House. It does the work effectively and quickly when properly operated, of half a dozen persons or more, and to Landlady Tenney and her assistants will no doubt prove a boon of no little consideration. Landlady Tenney invites any of our citizens who may desire, to call and inspect the machine when in operation.

A new lot of Vermont cheese and dairy butter at Goodwin's.

At the annual meeting it was voted by the town to inaugurate a higher grade of school in connection with our well established system of education, and in pursuance of the action of the town, and the provision made to carry out the project, the board of education have fitted up Waverly hall adequately in every respect for the purpose of a high school. The room is pleasantly situated, well lighted and ventilated and is replete with all modern fixtures and furniture for school work. A liberal provision has been made for blackboard service. It seems as though the citizens of the town should be well satisfied with the efforts of the school board in their endeavors to carry out their wishes, so far as the provisions of the school room are concerned. The board have secured the services of Mr. Harry J. Hall, of Brown's University of Providence, as Principal. Mr. Hall comes among us as a young man well recommended, of pleasing address, and in every respect competent to fill the position. We bespeak for him a large measure of success as the first to be called to preside over the most important branch of our school system.

7 bars good soap for 25 cents at Goodwin's.

Among the pleasant events of the season was the reception given by Mr. and Mrs. J. M. Ducaan at the grove near their residence, on Wednesday evening last. A large number of invitations were issued to the town's people which included many summer guests who are stopping in our midst. Mr. and Mrs. Ducaan assisted by Mrs. Mary Hart Ducaan, received the guests as they arrived and welcomed them to the pavilion and to the festivities of the evening. The walk from the road down the ravine to the grove had been nicely covered with a thick coat of shavings which rendered it soft and pliable to the tread of pedestrians, and this avenue was also radiant with bright lights from torches hung upon the trees. The pavilion, which is large, was liberally decorated with chinese lanterns of unique designs. The stage in rear of the platform, which was occupied by the Mechanics Band and orchestra, was tastefully decorated with lanterns and blooming flowers. The program of exercises of sixteen numbers including promenades, waltzes, quadrilles, etc., were participated in by the guests to the full capacity of the pavilion, under the direction of E. P. Campbell. The host and hostess, anticipating the comforts and enjoyment of their guests in every particular, did not omit to serve cool lemonade during the evening. The Mechanics Military Band and Orchestra spared no efforts to please the party with stirring and pleasing music. It was estimated that there were in the vicinity of four hundred people present, every one of whom attested to the fact of a very enjoyable affair.

Fine confectionery at Goodwin's.

Few towns of this size in the State can boast of as fine a church edifice, as will be that of our Presbyterian people, now being erected in Antrim. It will be a model of beauty in every particular.

Rev. M. T. Cilley's discourse on Sunday was full of serious and important thoughts which must have gone straight to the hearts of his hearers. His text was taken from Mark xii, 29, 30: "The first of all the commandments is, hear, O Israel; The Lord our God is one Lord. And thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy mind, and with all thy strength. This is the first commandment."

The sympathies of our community are with Mr. and Mrs. Walter H. Murdo, in the sad death of their youngest child, Arthur W., who died on Monday last, aged 1 year, 7 months and 25 days. The little one was ill only eight days, but during that time suffered greatly. The mother has been slowly recovering from a very serious illness, and this great sorrow which has come into the home has well nigh prostrated her again. She attended the funeral services which were held at the Baptist church on Tuesday last at 2 p. m., Rev. S. G. Hastings officiating. The remains were interred at Maplewood. An older boy, Harold A., is the only remaining child.

The schools in nearly every division will begin Monday, Sept. 5th. An opportunity will be given to any one wishing to pass an examination for the high school to do so by applying to the school board in season. A list of teachers will be given later.

The Antrim Brass Band gave another of their out-of-door concerts near the soldiers' monument on Monday evening. The program was a liberal one and well rendered, and often applauded by the appreciative listeners assembled in the vicinity, not a few of whom were in carriages.

The advent of the drummer with his trunks and packages of samples among our merchants indicates that the season of trade is approaching and very soon the advertising columns of this paper will bristle with announcements of bargains in fall and winter goods.

Born, in Hillsboro Bridge, Aug. 14 to Mr. and Mrs. Edward F. Heath, a son.

Married in Antrim, Aug. 16, by Rev. W. R. Cochrane, D. D., Mr. Levi M. Curtis, and Mrs. Mary E. Barker, both of Antrim.

Married in Antrim, Aug. 18, by Rev. W. R. Cochrane, D. D., Mr. Willie E. Staples, and Miss Hattie A. Shaw, both of Antrim.

A large attendance greeted the entertainment at Duncan's Grove on Saturday evening last. The special feature in addition to the well rendered program by the Mechanics Military Band was a cornet solo by John H. Simonds entitled "Rocked in the cradle of the deep" and variations. Mr. Simonds deserves much credit for his efforts, this being his first appearance in public as a soloist. He received the favorable opinion of his hearers, and responded to an encore. B. E. Newman, tenor soloist, fully met the expectation of those who listened to hear his rich and cultured voice. It is the pleasure of the management to realize that their seventh in the series of festivities at this popular resort was a success in all respects.

D. P. Bryer of North Branch with family and friends, have enjoyed a week's camping two miles up Long Pond, Stoddard. By invitation, other friends spent Thursday, Aug. 18th, with them and a glorious day it was. They enjoyed a fish dinner cooked by Mr. Bryer, also good fresh water from a spring near by. They hope to meet all in a similar manner at some future time.

Misses Bertha Lippincott and Ida Rugby of Cambridge spent the Sabbath with Mr. and Mrs. Geo. E. Ball.

The tenement of Hon. D. H. Goodell's house, formerly occupied by the publisher of this paper and family, is just now in a state of great confusion, owing to all the chimneys having been pulled down and the extensive repairs taking place in the building. Although Henry Simonds and family, who occupy the south tenement are being put to considerable inconvenience, they can look forward to a great improvement in their home and surroundings when repairs are finished. C. C. Phillips will remove his family from Scytoville and occupy the vacant tenement when it is ready for occupancy. We are glad to know that Mr. Phillips is to become a permanent resident of Antrim, as we believe him to be a man of sterling worth to any community.

"The Rocky Mountain Limited," and
"The Big Five."

Two Grand Trains Daily Between the
World's Fair City and the Mountains.
One Night Out, or One Day Out. Take
Your Choice. Business Demands It,
and the People Must Have It.

The popularity of "The Great Long
Island Route" as a Colorado line—
having long since taken first place
as the people's favorite between the
Lakes and the Mountains—has com-
pelled the management to increase its
presently excellent service by the addition
of a train that is one night on the road
from Chicago to Denver, Colorado
Springs or Pueblo. This train will be
known as the "ROCKY MOUNTAIN LIM-
ITED," and will be put in service May
1st. Arriving at above cities in the
afternoon of the next day, earlier than
any of its competitors. Special equip-
ment has been built for this train, with
the view of making it a LIMITED in
every sense of the word, and best of all,
there will be no extra charge. The
route of this exceedingly fast train is
by the Rock Island Shore Line, and a
few days later through which it passes
are: Emporium, DuPonts, Council
Bluffs, Omaha, Lincoln, Beatrice,
Fremont, Belleville, Phillipsburg,
Scottsbluff, Colby and Goodland.
This makes it a most desirable route,
and particularly interesting to the trav-
eler. Another point: The popularity
of our dining-car service is still on the
increase, and no money spared to make
this service what our patrons always
say, "the best."

"The Big Five" will continue as usual,
leaving Chicago at 10 P. M., and ar-
riving at Denver, Colorado, Springs
and Pueblo, Colorado, in the morning.

Mr. and Mrs. Loren Trescott are
keepers of the Gov. Lighthouse at
Sand Beach, Mich., and are blessed
with a daughter, four years old. Last
April she was taken down with the
Measles, followed with a dreadful
Cough and turning into a Fever. Doc-
tors at home and at Detroit treated her,
but in vain, she grew worse rapidly,
until she was a mere "handful of
bones."—Then she tried Dr. King's
New Discovery and after the use of two
and a half bottles, was completely
cured. They say Dr. King's New
Discovery is worth its weight in gold,
yet you may get a trial bottle free at

BENNINGTON.
The summer season, this year at the
Holt Farm, has been signally success-
ful. Here, those fatigued by the busy
routine of city life, and weary of the
constant buzz of business activity, find
rest and amusement during the hot
summer months. Those seeking
amusement have found ample opportu-
nities to gratify their desires, for this
season has been especially replete with
entertainment. No one who has
seen the jovial face of "Uncle" Jean or
the kind countenance of "Aunt" Lizzie,
can doubt that the popularity of Holt
Farm is due to a great extent to the
genial host and hostess. No one, who
has spent the few short weeks of sum-
mer at the farm-house on the hill-side,
ever regrets their choice, and they
hardly ever fail to come again. The
proximity to the post office and Mt.
Crochet, the drives and walks, the
beautiful scenery and sunsets worthy
of an artist's brush, all tend toward
making Holt Farm one of the most at-
tractive summer resorts in the country.
The summer guests at Holt Farm re-
cently presented Mr. Holt with a whip
and Mrs. Holt with a silver cake bas-
ket in token of their esteem and grati-
tude.

This Wednesday evening there will
be a concert, promenade, and dance
at town hall, with music by Mechanics
Military Band and orchestra. Re-
member, that a genuine oil painting
and frame will be presented to the lady
receiving the largest number of votes.
Admission to entire entertainment 25
cents, a 1d the price includes dancing.
The Bennington Band will give a
sacred concert on the band stand in
Bennington, next Sunday afternoon at
5.30 o'clock. At the conclusion of
the concert, Rev. Mr. Lawrence will
deliver a short sermon.

by a party from Dunbarton.

Clinton Village.
John Hastings of Lowell has been
in town the past week.
Mr. McKay of Lynn, a friend of
Robert Cochrane made the trip to this
town on his wheel in 12 1-2 hours
time on the road.
Mrs. Will Carr of Malden, is visit-
ing with her sister, Mrs. Geo. Bu-
chanaa.
Mrs. Brownell and sister, have been
on a flying trip to the Capitol.
Miss Lillian Wright of Maplewood,
Mass., is staying a few days with her
aunt, A. T. Carr.
Will Hildreth and bride of Gard-
ner, Mass., are spending their vaca-
tion with his father.
A tidal wave of matrimony is sweep-
ing over town.
Clark B. Cochrane captured a
black bass Saturday, at Gregg Pond
that weighed four and one half pounds.
Misses Mary and Lizzie Clannet of
Plinston, are tarrying with Mrs. John
Abbott.

The "Albany" and the "New York,"
the steamers of the Day Line, are two
of the most elegant steamers in the
world. They are large and commo-
dious; there is an abundance of com-
fortable seats, and a good restaurant is
located on the main deck, where you
can enjoy a good dinner, and at the
same time look out upon the beautiful
scenery of the river. When the boat
leaves the dock you leave the bustle
and hum behind you, and enter, as it
were upon a new existence. Now
you can stop hurrying, for a time, at
least, and at your leisure can take in
the marvellous beauties of the river
as they unfold before your eyes. To
float upon the bosom of the majestic
Hudson, to gaze upon the mighty hills
that fringe its banks, to view those
quaint but familiar collections of river
craft being towed along, scarcely seem-
ing to move; all these, and a myriad
of other experiences, are familiar to
those who have had the good fortune to
make the trip between New York
and Albany by the day boat. From
the time the boat pushes majestically
out into the river till it touches the dock
at the end of the route, a succession
of magnificent panoramas are spread
before the tourist. Too much cannot
be said regarding the arrangements
which have been made for the comfort
and pleasure of those who adopt this
method of travel. A correspondent of
the Boston Courier writes: "The jour-
ney up the famous Hudson is undoubt-
edly the most interesting and pictur-
esque inland voyage in the United
States. It has been described, and re-
described, however, until the task of
investing an account of its varied and
beautiful scenery with any flavor of
novelty has become utterly hopeless.
But its attractions, though stale in
narrative, are perennially charming to
the actual sense, and the point of view
afforded by the palatial steamers 'New
York' and 'Albany,' of the Day Line,
is an ideal one."

A Card.
We desire to express our unfeigned gra-
titude to our many friends for their gen-
erous donation of money, together with the
various degrees of kindness exhibited to
us in Mr. Ireland's sickness.

Dodds' Catarrh Cure.
Local and Internal Treatment.
In order to cure catarrh it is neces-
sary to allay the inflammation of the ir-
ritated membranes with a soothing ap-
plication, cleanse the head of the plug-
ging mucous secretions, and heal the
discharging ulcer. For sale in the
head and nasal catarrh Dodds' local
treatment does this without the aid of
snuff, douches or fumes. If the dis-
ease has extended downwards, affect-
ing the bronchial tubes or lungs, diges-
tion and blood, the internal treatment
both removes from the system the
scattered poison, and by its build-
ing-up properties assists nature in restor-
ing the impaired parts. Send for our
book treating on catarrh. FOSTER,

The Man Without a Stomach
May exist as a mere freak, but most of
us recognize the stomach as necessary to
life and comfort. Most of us experience a
little trouble from this source occasionally,
wrong action of the stomach causing dys-
pepsia, etc., and often the trouble extends,
involving the liver and bowels, whence we
find biliousness and constipation. We find
also that the bowels and kidneys (nature's
sewerage system) becomes clogged with ef-
fect matter, from which comes impure
blood, boils, blotches, pimples, scrofula,
scrofulous swellings and cancerous com-
plaints. The Burdock Blood Bitters taken
at the beginning, or at any later stage, ar-
rests the trouble, restores the disordered organ
to activity, thereby removing every vestige
of disease. B. B. B. is an absolutely pure
extract of roots and herbs, which cannot
injure even the most delicate constitution,
and as a cure for Dyspepsia, Biliousness,
Constipation, Bad Blood, etc., succeeds in
99 cases out of 100.

The First Step.
Perhaps you are run down, can't
eat, can't sleep, can't think, can't do
anything to your satisfaction, and you
wonder what ails you. You should
heed the warning, you are taking the
first step into Nervous Prostration.
You need Nerve Tonic and in Elec-
tric Bitters you will find the exact rem-
edy for restoring your nervous system
to its normal, healthy condition. Sur-
prising results follow the use of this
great Nerve Tonic and Alterative.
Your appetite returns, good digestion
is restored, and the Liver and Kidneys
resume healthy action. Try a bottle.
