### EDITORIAL.

Mt. Washington is reported to have been snow capped on Sunday morning.

Dr. Oliver Wendell Holmes, the poet, passed his 84th anniversary of his birth Tuesday, Aug. 29, at his summer house at Beverly Farms, Mass.

The wagging of the silver tongues at Washington still goes on, and the dear people at home have confidence to believe that the "dollar of the daddies" will pull through in the end.

The steamship City of Savannah, Capt. Savage, of the Boston line, is a total wreck, she having gone to pieces while ashore on Hunting Island, S. C. Her passengers were rescued by the City of Birmingham of the New York line and taken to Savannah.

An exchange says: If the losses sustained by timid ones who have withdrawn their funds from savings banks and tried to take care of them themselves could be compiled they would probably be found to run into the hundreds of thousands of dollars.

Late reports state so far as is known thirteen persons were killed and nearly thirty injured in the railroad disaster near Springfield, Mass., Thursday last, when the Chicago limited express train from Boston, broke through a frail iron bridge.

Hon. D. H. Goodell was present with a number of other distinguished sons of the Granite state, at the celebration of the ninety-seventh birthday of ex-Gov. N. S. Berry of Bristol, the oldest ex-governor in this country. Mr. Berry was elected governor of this state in 1861.

A farmer of Berwick, Me., thought his coat was safer than his bank, and therefore drew \$1700 out of the latter and put it in the former. But while he milked his cow a thief stole his coat and his money. The farmer probably felt as well to have the money taken from his coat pocket as from some other place!

Conditions more favorable to the industrial classes in all sections are among the pleasant indications of the last few days. It will be a source of great gratification in our own vicinity. It would indeed be more cheerful to hear the mill bell ring out its accustomed tones six mornings of the week instead of three.

William G. Billings, grand master of the grand lodge, I. O. O. F., of New Hampshire, died at his home in Plymouth, Friday morning last. Heart failure was the cause of his death. Mr. Billings was elected grand master in October last. He was also prominent in Masonry, being a 32 degree Mason.

Dr. T. Thatcher Graves, who was awaiting his second trial for the alleged murder of Mrs. Josephine Barnaby of Providence, R. I., committed suicide in his cell in the county jail at Denver, Col., Saturday night last. It is probable Dr. Graves took morphine. Thus ends the Graves case, and a strange end it is.

The subject of a new location for the County-farm buildings is still being agitated. The committee to whom was assigned the duties of selecting a judicious locality have visited several places and among them have examined several pieces of property at Nashua. There is a slight prospect that the committee may decide upon the latter place.

According to the tables furnished over \$8,000,000, the assets of defunct endowment orders, are locked up in the hands of receivers. A little more promptitude on their part in settling affairs would seem desirable. Such a settlement would help the financial situation a little especially those who are out of work and need the dividends to come to them.

County Commissioner Herrick reports that the county institution at Wilton is receiving accessions to its inmates much earlier than usual this year. Thus far they seem to be from the criminal class, caused by the shutting down of mills in the large places. The commissioner says that it is a problem with the board to decide what they will do to accommodate the number who will in all probability wend their way "over the hills, etc.," as the cold weather approaches.

### Obituary.

#### SUMNER MORSE.

The death of Sumner Morse occurred last week, of which brief mention has already been made. Mr. Morse followed the seas for several years in his early life, later resided for some time at Nashua, and for the past twenty-four years has been a resident of this town. For some time previous to his death, his health gradually failed, till death relieved him of his sufferings. He died of consumption of the blood, Tuesday, Aug. 29, aged 66 years, 2 months, 19 days.

The funeral services were held from his late home Thursday p. m., Rev. C. E. Eaton officiating. The singing was by a quartette, consisting of Mrs. C. O. Kimball, Mrs. Roach, Walter Atwood and Morris Burnham.

Part of the issue of the next Sunday Globe will be printed on this new press. When the Globe moved into its new building only six years ago the daily had an average circulation of 121,945. The Sunday Globe 127,747. During the first eight months of this year the daily Globe average 183,994, and the Sunday Globe 167,572. Six years ago the Globe press cost \$18,000, cost an hour. Six years ago the Globe used 10 tons of paper per day, now it uses 21 tons per day. Such indications of progress do not need any comment.

### BENNINGTON.

The ladies' sewing circle gave an entertainment at the Town hall on Tuesday evening, Aug. 29, which was quite a success. A drill which represented sixteen young ladies, dressed in white, was very fine and must have taken considerable practice. A large doll handsomely dressed was to be given to the person guessing her name, but as two different ladies guessed correctly the doll was disposed of by auction with their consent. A handsome quilt was given to the lady receiving the most votes, and Mrs. Minnie Marsh was the fortunate one. Lemonade, ice cream and cake were served to all who were hungry, and the whole affair netted seventy-one dollars. The ladies wish to thank all persons who helped in any way to make the affair a success, and also those who patronized the entertainment so liberally.

### PETERBORO VS. BENNINGTON.

About two hundred spectators witnessed a very interesting game between these two nines, on Holt's grounds, Friday afternoon. The features of the contest were the fine battery work of Muzzey and Ross, only three hits being made off the latter. Owing to sudden illness, Eaton was taken from the box at the end of the second inning, and another put in his place, and the way he made the visiting team look for holes in their bats was a caution. Bellows covered himself with glory by catching two difficult flies knocked to right field. Eaton, Burt, and Dickey did very good work, while Dutton did the heavy hitting. The Peterboro team was very strong, a little too strong in fact for the Bennington lads. Their battery work was very good, only a few hits being made off Shea. Their heavy hitters were Shattuck, Beers and Shea. There will be a return match between these two nines, when the Bennington boys hope with a little more practice, and a few changes, to redeem their lost laurels. The following is the score by innings:

Innings. 1 2 3 4 5 6 7 8 9 total  
Peterboro. 3 4 0 0 0 1 0 0 2 -10  
Bennington. 1 0 0 1 2 0 0 2 0 - 6

Umpire, Alex. McGinnis.

Scorer, F. Randall.

2,228,672.

These figures represent the number of bottles of Dr. King's New Discovery for Consumption, Coughs and Colds, which were sold in the United States from March, '91 to March, '92, two Million, Two Hundred and Twenty-Eight Thousand, Six Hundred and Seventy-two bottles sold and each and every bottle was sold on a positive guarantee that money would be refunded if satisfactory results did not follow its use. The secret of its success is plain. It never disappoints and can always be depended on as the very best remedy for Coughs, Colds, etc. Price 50c. and \$1.00. At Harrington & Kibbey's Drug store.

Application is now to be made to the proper authorities for permission to lay out a boulevard whereon the owners of choice and speedy animals may find room for exercise.

A recent brush on the road has inspired our poet.

The youth did ride and soon, close by, Came the deacon at his heels; Their horses ran, for miles were heard The lumbering of wheels.

The wind did blow, the dust did fly, On comes both horse and gig; They little thought when they set out, Of running such a rig.

Away went Gilpin neck or naught; On flew the deacon's horse; With step so fine, 't would put to shame, The Tilton trotting course.
