## The School Entertainment.

The entertainment given in the Town hall on Friday evening by the village schools was largely attended, nearly every seat in the hall being occupied.

It was one of the best, if not the best school exhibition ever given in this place. The hall was appropriately draped with the national colors and a large picture of Washington was given a prominent position. The program, which was published last week, was an elaborate and well arranged one and carried out in a most pleasing and acceptable manner; those who participated and those who had the matter in charge deserve much credit for their conscientious and painstaking work. The life of Washington as shown by pantomime was interesting to a degree and well executed; at the close of the entertainment, ice cream and cake were served. They cleared \$65 by their effort.

We, the undersigned, teachers of Antrim village, desire to express our thanks to the parents, pupils, citizens, and others who so generously assisted in making our entertainment a success. Special thanks are due the Antrim Orchestra who kindly donated their services for the occasion.

VILLAGE TEACHERS.

## The Peak Sisters.

On Friday evening, Feb. 14, the Ladies' Auxiliary of the Y. M. C. A. presented the Peak Sisters at the town hall to a large and appreciative audience. The actors were acknowledged artists in their respective roles, and performed their parts in a most happy manner. Miss Gilman, from Lowell, Mass., recited a few pleasing selections, and the Antrim orchestra furnished music. On the whole, the affair was a success and added a good sum to the treasury.

## Meetings of Supervisors of Check-Lists.

The Supervisors met in executive session Monday and revised and posted the check-lists. Their next meetings are Saturday, Feb. 23, from two to four o'clock in the afternoon, and Monday afternoon, Feb. 10, from one to five o'clock. At these times all those who desire to have their names added to the list will please appear before the Supervisors and present their claims.

## Officers Elected.

At the February meeting of the Hook and Ladder Company, No. 1, the following officers were elected and are as follows:  
Capt.—John Thornton  
1st Asst.—Miran Cooper  
2d Asst.—James Ashford  
Sec. and Treas.—G. E. Whitney  
Standing Committee—John Mundy, Ed. Heath and George Waldron.

## In the Village Schools.

Public examination in the First and Second Primary Thursday, and in the Intermediate and Grammar Friday. The grades close on March 7. The High and Ninth Grade will close March 28.

## Spring Humors

Come to most people and cause many troubles—colds, boils and other eruptions, besides loss of appetite, that tired feeling, fits of biliousness, indigestion and headache.

The sooner one gets rid of them the better, and the way to get rid of them and to build up the system that has suffered from them is to take

## Carpets for 1902....

We are pleased to announce to our many customers that we have this year added a

CUT ORDER DEPARTMENT to our CARPET LINE, embracing all the most desirable and best selling patterns in

Fine Stinson and Roxbury Tapestries, Extra Brussels and Wilton Velvets.

There are twenty patterns of these goods, which have been selected from the stock of J. H. PRAY & SONS Co., the largest carpet house in New England, and by a fortunate arrangement with them, we are able to sell them at the same price per yard that you would pay in their retail department. Everyone of these patterns are of the NEW SPRING STOCK, and will run any year. By this arrangement we can sell you right here at home as good a CARPET and FOR THE SAME MONEY as you can buy at any store in New England. You want to be sure and see this line before you buy. In addition to these we shall carry our usual complete stock of INCRANS ready for immediate delivery. We want to estimate on your carpet work for 1902, and will guarantee to save you time, money and trouble. Carpets Made and Lined.

## A Card.

We, the undersigned do hereby agree to refund the money on a 50 cent bottle of Greene's Warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25 cent bottle to prove satisfactory or money refunded.

Antrim Pharmacy, Antrim,  
G. O. Joslin, Bennington,  
Eaton Bros., Hancock.

Foley's Honey and Tar is best for croup and whooping cough, contains no opiates, and cures quickly. Careful mothers keep it in the house. Sold by W. F. Dickey, Antrim, W. G. Fogg, Hancock.

The greatest danger from colds and la grippe is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. It cures a cold or an attack of la grippe in less time than any other treatment. It is pleasant and safe to take.

For sale by W. F. Dickey.

## Mrs. Barrett is slowly improving from a severe illness.

The Town, School and Precinct Warrants will be found on the fourth page of this issue.

The boys' club, connected with the Y. M. C. A., will enjoy a sleigh ride on Friday afternoon at 4.15 o'clock. On their return the Ladies' Auxiliary will give them a supper.

The annual supper given on Monday evening, by the gentlemen of the Presbyterian church, was a success in every way. It was largely attended and at the close of the supper a very pleasing program was rendered.

## Mrs. Helene Franklin Jones Fined.

The causes leading up to the arrest of Mrs. Helene Franklin Jones for fraudulent use of the U. S. mail are being her counsel Gen. Charles H. Burns, J. J. Doyle of Nashua and Mr. Parker of New York City.

When she was arraigned before Judge Aldrich, her counsel Mr. Doyle, waived the reading of the indictments and stated that his client desired to plead nolo. Mrs. Jones stated that she did not desire to contest the prosecution. She was then sentenced to do two months' time in the Hillsboro county jail and fined \$200. The jail sentence was suspended during good behavior and at the suggestion of Mr. Hammett the second indictment was held in abeyance so long as the respondent observed the laws of the United States.

## The Last Heard of It.

"My little boy" took the croup one night and soon grew so bad you could hear him breathe all over the house," says F. D. Reynolds, Mansfield, O. "We feared he would die, but a few doses of One Minute Cough Cure quickly relieved him and he went to sleep. That's the last we heard of the croup. Now isn't a cough cure like that valuable?"

One Minute Cough Cure is absolutely safe and acts immediately. For coughs, colds, croup, grip, bronchitis and all other throat and lung troubles it is a certain cure. Very pleasant to take. The little one likes it.

W. F. Dickey, Antrim, Eaton Bros., Hancock, G. O. Joslin, Bennington.

Mothers can safely give Foley's Honey and Tar to the children for coughs and colds, for it contains no opiates or other poisons. Sold by W. F. Dickey, Antrim, W. G. Fogg, Hancock.

Mrs. Ann M. Hutchinson.

On Saturday morning occurred the death of Mrs. Ann M. Hutchinson at the home of her son, George E., with whom she had made her home for some time past.

She was born Miss Ann M. Boutelle, April 14, 1819, and was consequently at time of her death 82 years, 10 months and 8 days. She was a native of Antrim and with the exception of a short time had always made this town her home. She married on July 4, 1844, John Hutchinson of this town, to whom were born seven children, three died in childhood, and a daughter, died in 1867, aged twenty; three sons survive, George E., John M., and Frank H., all of whom now reside in town. Mr. Hutchinson died in 1877. The cause of death was a general breaking down incident to old age.

Funeral services were held at her late home Monday afternoon at 1 o'clock Rev. B. H. Lane of the Baptist church officiating. Interment was in the family lot at the Branch cemetery.

## Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one cure, and that is by the constitutional remedies. Deafness is caused either by inflammation of the mucous membrane of the Eustachian Tube. When this tube gets inflamed you have a running sound or discharge from the ear. It is only by the use of our constitutional remedies that the inflammation can be taken out and the tube restored to its normal condition, hearing will then be restored. We give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Sent by mail.

Sold by Druggists, 75c.  
Hall's Family Pills are the best.

Sunday last the services at the churches were in a measure given over to Rev. W. E. Noyes, missionary agent of the Little Wanderer's Home, Boston. In the forenoon the speaker addressed the congregations at the Presbyterian and Methodist churches and in the evening a union meeting at the Baptist church. At each gathering he explained the work and purposes of the "Home" and of the great need of aiding orphaned and destitute children. He was accompanied by four children who sang several selections at each service.

## A Night Alarm.

Worse than an alarm of fire at night is the brassy cough of croup, which sounds like the children's death knell and it means death unless something is done quickly. Foley's Honey and Tar never fails to give instant relief and quickly cures the worst forms of croup. Mrs. P. L. Cordier of Mannington, Ky., writes: "My three year old girl had a severe case of croup. The doctor said she could not live. I got a bottle of Foley's Honey and Tar, the first dose gave quick relief and saved her life." Refuse substitutes. Sold by W. F. Dickey, Antrim, W. G. Fogg, Hancock.

## First Annual Meeting of District No. 12, I. O. O. F.

It is especially desired that every Odd Fellow in this District make a determined effort to attend this meeting, and brothers from other Districts are cordially invited.

## Saved His Child's Life.

"In three weeks our chubby little boy was changed by Pneumonia little to a skeleton," writes Mrs. W. A. Watkins, of Pleasant City, O. "A terrible cough set in, that, in spite of a good doctor's treatment for several weeks, grew worse every day. We then used Dr. King's New Discovery for Consumption, and our darling was soon sound and well. We are sure this grand medicine saved his life." Millions know it is the only sure cure for Coughs, Colds and all Lung diseases. W. F. Dickey guarantees satisfaction, 50c, \$1.00. Trial bottles free.

## Capt. Silas Chapman.

Capt. Silas Chapman died at the home of his daughter, Mrs. George A. Cochran, on Sunday afternoon, the 23d inst., aged 95 years, 7 months, 3 days.

He was the son of Joseph and Sally (Monroe) Chapman of Windsor. He was born in that town July 20, 1806; in his boyhood days he worked upon his father's farm but at an early age learned the brick masons and plasterers trade, before coming of age he went to Boston where he remained several years working at his trade.

He was married in Boston Nov. 13, 1831, to Miss Betsey Damon of Wiscasset, Me. After his marriage he remained a few years in Boston, then returned to the old homestead in Windsor, where he resided, farming and working at his trade of masonry until declining years compelled him to give up manual labor.

He twice represented the town of Windsor in the legislature, was several years a member of the board of selectmen, tax collector, treasurer, etc. He was an Andrew Jackson democrat. In the days of the old state militia he received a captain's commission and commanded a military company. Being one of the last officers if not the last one, that did military duty in the 26th Regt., at the famous Cork musters.

His wife died January 26, 1895, aged 84 years, to them six children were born:

Mary E., Helen M., John H., George D., Joseph C., Etta A.

Those living are: Mrs. Helen M. Blanchard of Bennington; Joseph C. Chapman of Deering; Mrs. Etta A. Cochran of Antrim; he is also survived by thirteen grand-children and six great-grand-children. He was an honest and conscientious man.

Funeral services were held at the place of his death on Wednesday, the 26th, at 11 o'clock a. m., Rev. Dr. Cochran officiating; interment was in Windsor cemetery.

The claim of other cough remedies to be as good as Chamberlain's can be easily set at rest in the following testimonial of Mrs. C. D. Glass, an employe of Bartlett & Dennis Co., Gardner, Me. He says: "I had kept adding to a cold and cough in the winter of 1897, trying every cough medicine I heard of without permanent help, until one day I was in the drug store of Mr. Houlehan and he advised me to try Chamberlain's Cough Remedy and offered to pay back my money if I was not cured. My lungs and bronchial tubes were very sore at this time, but I was completely cured by this remedy, and have since always turned to it when I get a cold, and soon find relief. I also recommended it to my friends and am glad to say it is the best of all cough medicines."

## PEOPLE'S DEPARTMENT.

A Letter from C. O. Pratt, Who is Sojourning in Florida.

OAK HILL, FLA., FEB. 1902.

MR. EDITOR:—

Perhaps some of your readers may be interested to hear from this section of the country. It is situated 244 miles from Savannah and 100 miles from St. Augustine on the Florida East Coast R. R. There is nothing especially attractive in the scenery, the country being level and the trees, pines, of a small growth, the larger ones being cut off near the rail road.

The soil is a white sand which is capable of producing good crops when fertilized. It has been opened up since the Civil war; and mostly by Northern men, those from this section being mostly from Maine and largely ex-soldiers. Large tracts were cleared and planted with orange trees, and some were successful until the great freeze of 1894 and 1895, that winter the cold was so severe as to destroy the fruit and kill the trees, this not only ruined many financially but obliged them to go elsewhere to make a living; consequently these holdings can be bought at most any price. Those who have been here twenty and more years tell me that this has been the coldest winter that they have experienced. Though the mercury has not registered as low as some, there have been but few warm sunny days.

The week ending the 25th of January was very warm from 58 to 82 in the shade, the following week so cold as to require a fire every day. It may be for the interests of the steam ship and rail road lines to call this the land of perpetual summer, but there is another side to it.

Spring is opening here and farmers are putting in their seed and the peach trees are in bloom. Those who had oranges this year were fortunate enough to gather them just before the severe weather. I have never seen a prettier sight than an orange tree in fruit, a good one will bear a dozen or more and fill seven or eight boxes. As they grow on the outside of the tree and the leaves are green and glossy you can imagine that an orchard of them is something gorgeous. Many in this section have as many as an hundred or more swarms of bees, and get as much as fifteen hundred dollars some years for honey.

The woods here are largely Palmetto, Live Oak, Magnolia, Cedar and some others, all hung with a gray moss which has a pretty effect as it sways with the wind. There are many birds, some of beautiful plumage, but most of them have been killed to adorn hats and bonnets; bird and animal life is held cheap, especially by Northern tourists many of whom shoot everything that runs or flies. Razor backs (or half wild hogs) may be seen everywhere and the farmers are obliged to go to great expense in fencing their crops as the hogs have the right of way and will go over an ordinary fence like a cat and often squeeze through a barbed wire to get at the crops.

As regards liquor selling the county is dry and I doubt whether it could be gotten without going many miles. Sugar cane is raised in a small way and made into syrup. Pine-apples and coconuts can be raised fifteen miles farther south. Moccasins and rattlesnakes are often seen, some of five feet or more in length. Alligators are quite plenty yet, though many are killed for their skins. Water is procured from driven wells and is hard and brackish.

One misses many of the comforts and conveniences of a northern home; yet most of the residents seem fairly well contented, as they escape the severity of the northern winter.

News From Our Neighbors.

BENNINGTON.

Three or four residents of this town appeared in the police court at Potosi Friday morning as a result of excitement in the local bar shop and pool room on the day previous. The charges against them were drunkenness, creating disturbance and damaging property. One of the fellows was cut quite badly, and narrowly escaped bleeding to death. They were ordered to pay fine and costs of \$13.05 each. The contributing causes of the melee are said to have been Uno beer and Jamaica ginger.—Union.

Sunday School Institute.

The Sunday School Institute of the 6th District of Hillsboro County, held at Hancock on Friday of last week surpassed the expectations of all those who were interested in it, both in point of numbers and of interest. The addresses of the several speakers were of an high order and held the attention of the large audience present. The address of Rev. B. H. Lane was in his accustomed earnest and energetic order and was highly esteemed by his listeners. Rev. I. C. Brown of Hillsboro, Rev. F. J. Marsh of Boston, Rev. C. S. Haynes of Peterboro and State Secretary J. N. Dummer of Concord, contributed deep thought and spiritual power to the uplifting forces of the day. Every Sunday school in the district was represented but three, and there were 12 ministers present.

Seasons were held all day and in the evening. The people of Hancock heartily welcomed all the guests and abundantly provided for all of their needs.

An invitation was received to hold a like Institute in M. E. church of Peterboro May 21 next. This was conceded by all to have been one of the most helpful and stimulating Institutes that has ever been held in this district.

Mr. Arthur Pierce of Bennington was elected secretary and treasurer, and a generous offering was made for the work.

Vegetable Hedgehogs. Cactuses are the hedgehogs of the vegetable world. Their motto is, "Nemo me impune lacessit." Many a time in the West Indies I have pushed my hand for a second into a bit of tangled bush, as the negroes call it, to seize some rare flower or some beautiful insect and been punished for twenty-four hours afterward by the stings of the almost invisible and glasslike little cactus needles. The reason for this bellicose disposition on the part of the cactuses is a tolerably easy one to guess. Fodder is rare in the desert.

The starving herbivores that find themselves taken from time to time belated on the confines of such thirsty regions would seize with avidity upon any succulent plant which offered them food and drink at once in their last extremity.

In the caseless war between herbivore and plant, which is waged every day and all day long the whole world over with far greater persistence than the war between carnivore and prey, only those species of plant can survive in such exposed situations which happen to develop spines, thorns or prickles as a means of defense against the mouths of hungry and desperate assailants.—Exchange.

The Color of the Eye. The color of the iris is not uniform in any eye. Some eyes have spots, others stripes, still others blotches of white, green, blue, yellow and black, and the eye takes its color from the predominance of one hue. An eye that is considered gray will often be composed of black and yellow. An eye that is thought to be brown will be very dark red, with spots of yellow or blue.

It Would Be Seaside. Mr. Frank—No, I won't take that horrible stuff.

Mrs. Frank—But the doctor ordered it.

Mr. Frank—I don't care. Why, that stuff would kill a mule.

Mrs. Frank—If you really think so, John, don't take it.—Philadelphia Press.

Stop the Blight. It is a sad thing to see fine fruit trees spoiled by the blight. You can always tell them from the rest. They never do well afterwards but stay small and sickly.

It is worse to see a blight strike children. Good health is the natural right of children. But some of them don't get their rights. While the rest grow big and strong one stays small and weak.

Scott's Emulsion can stop that blight. There is no reason why such a child should stay small. Scott's Emulsion is a medicine with lots of strength in it—the kind of strength that makes things grow.

Scott's Emulsion makes children grow, makes them cat, makes them sleep, makes them play. Give the weak child a chance. Scott's Emulsion will make it catch up with the rest.

This picture represents the Trade Mark of Scott's Emulsion and is on the wrapper of every bottle. Send for free sample.

Baby Walker

To use with a child six months to two years old. Set the baby in the saddle inside the ring, which keeps the child upright and prevents a fall. Adjust the height of saddle so the feet just touch the floor with the weight of the saddle. The child will jump up and down and soon learn to use its feet and train its legs to walk. Baby is kept off the cold floor and amuses itself for hours at a time, all the while getting the proper amount of healthful exercise.

Baby Jumper

The back can be let down to make a bed for the child's naps and the chair can be removed from the frame for separate use. Nothing in the world so easy to care for a child in.

**HUMAN HEAD HUNTERS.**

The Savages of Polynesia still ply this Horrible Trade.

In the scarce known islands of the Pacific sea—New Guinea, Borneo, Ceram, Gilolo and others too numerous to mention—man still exists in the primeval state, and that most horrible of practices, head hunting, is still indulged in in spite of all efforts of various governments and missions as well as philanthropic societies who have come in contact with the people.

Just as the scarp lock on the belt of the young buck Indian was a token of manhood, so the gory head impaled on a tall pole over the hut of the would-be young warrior, Papuan or Dayak, proclaims to all the prowess of the youth, henceforth a man and eligible for the council and the wooing of the maidens. It is immaterial how the trophy be obtained, whether by ambush or in fair battle. Generally it is the former. The candidate for martial honors simply waits his chance by night in some neighboring village as craftily and patiently as a leopard on the prowl, the kris or a poisoned arrow does the work swiftly and silently, and the severed head has ample time to cool before the deed is discovered and calls for retribution.

Thus an incessant vendetta and carnage go on, and only by living in inaccessible forests and strongly stocked with arms, as it is possible at all for the tribes to save themselves from annihilation. Of the vast island continent of New Guinea the western or Dutch part is the worst looked after, and it often happens that numerous head-hunting parties in the great war canoes come swooping down the coast before the northwest monsoon and carry death and desolation into the comparatively quiet British portion around the mighty Fly river, opposite Torres Strait. By the time the news is carried to Thursday Island and the gunboat starts away in pursuit it is generally too late, and the marauders have vanished.

The writer was present once at the capture of a war party, and forty-eight heads were taken from the canoes. Hanging and deportation to penal servitude seem to be but a slight deterrent, for the former recovers almost as regularly as a plague of locusts. These Papuans are a hardy, warlike people and expert bowmen, and they rely on their skill with this potent weapon solely, using their clubs for the dispatch of wounded foes.

The Papuans of Borneo and their neighbors, on the other hand, are in favor of the "sumpitan" or blowpipe, shooting little darts with very cunningly poisoned arrows. The "sumpitan" has often a spear head attached to the outer end, like a bayonet on a rifle. For close fighting they rely on the "d-d-d-d" "parang," a heavy, hollow-sheathed broadsword about two feet long, with the handle often carved of ivory and ornamented with gold and pearls; the wooden scabbard covered with human skin and hair.

They count him a poor warrior who cannot sever a head clean with one blow delivered backhanded. Even in a mountainous part of the Malay peninsula, north of Malacca, in the Dindings and Heng Sembilan, there is to this day a remnant tribe of head hunters called the Sa Kl.

**Origins of the Sabbath.**

The Sabbath as a religious institution is far older than the Pentateuchal legislation. It, too, can be traced back to a Babylonian prototype, not, however, as a day of rest from labor, but as a kind of atonement day, when by various rites and observances certain restricted regulations the anger of the gods could be appeased. On this old institution the Hebrews ingrafted their religious ideas and produced the unique institution of a day observed as a respite from the week's toil and which, as being a "sacred" or "holy" occasion, is viewed as a "delight."—Professor Jastrow in Independent.

**The Rosemary at a Wedding.**

In the island of Crete, it is said, a bride, dressed for the wedding, still carries, last of all, for a sprig of rosemary to bring her luck. Thus we come to find rosemary in close association with both marriage and death, just as the hyacinth was, and perhaps still is, among the Greeks. It is interesting to trace the connection by which the same plant came to have two such different uses. All the Year Round.

**But the Taleman Hunged His Excuse For Evading Jury Duty.**

A young man whose features and flashing eyes betokened great earnestness was summoned before a judge of the city court the other day for jury duty. He immediately asked to be excused. When the judge asked him what excuse he had for not serving, he replied:

"I believe it is a rule of the court that the jury is the sole judge of the facts and the court of the law—that the juror should only weigh the facts as presented by the evidence, not taking into consideration any of the rules of law governing the case, wherefore all lawyers are exempt from jury duty."

"But are you a lawyer?" asked the judge.

"No, but I have been a close student of the law for many years."

"I am afraid that I cannot excuse you if you are not a lawyer," said the court, smiling.

The court continued the young man, with great earnestness, the color mounting to his temples, "I am sure if your honor know as much law as I do your conscience would not allow you to serve on a jury."

After the bench and bar had recovered from this naive outburst the judge told the young man that if it was a matter which affected his conscience so deeply he would excuse him, and a very much abashed youth left the courtroom. —New York Times.

**The Scorpion's Wonderful Ear.**

It is well known that the habits of the scorpion for many years and have often noticed how very sensitive scorpions are to the most delicate sound, musical or otherwise. Under the thorax the scorpion has two comblike appendages, which are the antennae (pectines). It is pretty well settled by physiologists and entomologists that in insects the antennae represent the organs of hearing. These delicate structures are easily affected by the vibrations of sound, and there can be no doubt whatever that they are also affected by sounds quite inaudible to the human ear.

The slightest vibration of the atmosphere from any cause whatever at once puts in motion the delicate structures which compose the antennae, to which as regularly as the power of pressure is applied, the antennae are so sensitive that they are almost as well as the means of recognizing the approach of one another.—London Spectator.

**Railways in Argentina.**

"The railway system of Argentina," says a correspondent of the London Post, "is second to none in the world. Trains run at frequent intervals and punctually, especially the long distance trains. The rolling stock is excellent, and a long distance journey by rail is a luxury. The sleeping cars are sumptuously appointed, and the most comfortable well laid, and there is consequently very little jolting. It is possible to breakfast or dine in the train as comfortably as in a hotel. The dining cars are well fitted up and beautifully decorated with flowers and pot plants. The food is prepared on board and tastefully served at a table at the end of the car, and, above all, the charges are extraordinary low. Fares, too, are very low, so that traveling is an easy and a cheap matter."

**Horseshoe Nail Rings.**

Flings a ring made of horseshoe nail. They are certainly not pretty or graceful, but they are said to bring good luck to the wearer on certain conditions.

To be a genuine charm the ring must be made from a nail taken from a horseshoe found by the owner himself and nobody else. This is taken to a jeweler, who bends it to fit her little finger, and cuts off the superfluous length.

The ring is not welded together, and the head of the nail stands for the setting. There's no need of proving it, but those who have adopted these ornaments say that they bring just as much luck as a horseshoe itself hung over the door with nails up. —New York Herald.
