The Library.

It is possible that this spring we may have the James A. Tuttle Library fund to consider and it would seem that we should begin to discuss the best way to handle same and work the best good for the town. As one who has been always interested in the Town Library and sustained it to the best of my ability, I take the liberty to express my view, hoping others will freely consider and discuss theirs as it would seem it should have a good deal of thought.

It is said the fund will amount to twenty thousand dollars or more, with a very simple and generous will—no remarkable restriction as with many wills, it trusts the town to use it for its good. As I understand, we are not required to place a large amount into a building to make a display as some parties seem to have in mind; any one knowing Mr. Tuttle would expect him to say, place it where it will do the most good, and it would seem as if we should have this first in mind.

With this amount of money we will be able to procure many books which the pupils in our schools could search for information and reference, and therefore be a large help to the schools, and if we consider their part as a benefit would say the Library Building should be near the school-house so as to be of easy access to the scholars.

How would it do to buy the Old Methodist Church Building, place in steam heat, water, lights, etc., making a good library and reading room? Three thousand dollars ought to do it and then with five or six thousand for books and furnishings it would leave quite a good sum, the income of which would help meet the running expenses and buy the new books required; and by appropriating three hundred dollars a year which we ought to expect to and arranging with the school board so the Janitor of the School House and Library be same, and also Assistant Librarian, there would be income to keep the Library open each afternoon and evening—a place for information and general reading. It would seem as if we might try this plan a few years without sinking but little money, and then if not satisfactory we can do otherwise without much loss. I believe a library run on a plan similar to this would be a great help to the education, temperance and morals of the place.

Of course it would be nice to see a \$10,000 or \$12,000 building on a \$1000 lot in the very centre of the business part of the village, but would it be for the most good?

CHARLES R. JAMESON.

Letter to Reporter Readers

W. F. Dickey Guarantees Hyomei to Cure Catarrh or it Costs Nothing.

Editor of Reporter:

In view of the prevalence of catarrhal troubles at this season of the year, I want to tell your readers that I have never sold anything that gave more satisfaction than Hyomei, when used in catarrhal troubles. You get immediate relief from the treatment, and consistent use will prove to every sufferer, as it has to many of our customers, the virtue of this preparation.

The complete outfit consists of a pocket inhaler, a medicine dropper, and a bottle of Hyomei, and the price is only \$1, while additional bottles can be obtained for 50 cents.

I positively guarantee a cure when Hyomei is used in accordance with directions, or I will refund your money. This certainly shows our faith and belief in the virtues of Hyomei.

Yours very truly,
W. F. Dickey.

PEPSOIDS Cure Dyspepsia.

Dr. Oldman's Prescription is a guaranteed cure for Dyspepsia, Indigestion and all Stomach trouble. Price 25 Cents.

The Cost of Living.

Doubtless many have thought much as we have, that appearances would seem to indicate that the cost of living is constantly, tho' slowly, on the increase, but in looking over an exchange we find an article touching on this subject; the newspaper being a reliable one and the source from which it gleans its information also being reliable, we give it place in our columns:

From a careful compilation of figures by Dun & Company, it is shown that the cost of living was decreased in the past year and that the increase in wages has made it the most prosperous year for wage-earners since 1882. This showing, however, comes in part from the mildness of the weather during the past three months, which has made the demand for fuel less in the northern states. But not alone fuel; other household necessities show a slight falling off, which in the aggregate materially affects the ratio when compared with previous years. It should be said that the prices of meats and provisions show a high and steady market and that the outlook is not encouraging in the matter of relief from the grip which the Chicago trusts have upon it. The fish market also continues steady at prices in excess of former years.

The conditions rather favor the laboring man than otherwise, for, whereas in 1895, the price of the necessities of life were somewhat less than now, many industries were closed down and employment was not to be had. At the present time but few men who are willing to work need be out of employment. The cotton and shoe factories are running full time and employing more operatives than ever before, while other industries show that the volume of output is larger than ever before and all of them, so far as known to the public, have paid substantial dividends during the past year and have business enough in sight to warrant the belief that 1906 is to be a prosperous year with them. At all events, there is no occasion for resigning.

More Weather Observations.

- In our grandfather's day, the twelve days of Christmas were supposed to govern the twelve months of the year. It may be interesting to the present generations to see if the old adage holds true. The following is a weather record of Christmas just passed:
- 1st—Clear in morning, cloudy middle of day, clear in evening; thermometer 18 degrees above.
 - 2nd—Cloudy in morning, clear middle of day; thermometer 18 degrees above.
 - 3rd—Cloudy in morning, clear most of day; thermometer 20 degrees above.
 - 4th—Clear all day; thermometer 28 degrees above.
 - 5th—Rainy all day, thunder in the evening; thermometer 40 degrees above.
 - 6th—Cloudy, squally and windy all day; thermometer 25 degrees above.
 - 7th—Fair all day; thermometer 20 degrees above.
 - 8th—Squally all day; thermometer 24 degrees above.
 - 9th—Clear in forenoon, cloudy in afternoon, snow in evening; thermometer 20 degrees above.
 - 10th—Rainy most of day, clear in evening; thermometer 50 degrees above.
 - 11th—Clear all day; thermometer 40 degrees above.
 - 12th—Clear in morning, squally in afternoon, cloudy and cold in evening; thermometer 15 degrees above.
- AN OBSERVER.

It is truly said that we are having a large amount of late fall and early spring weather.

THE WOMEN AT HOME.

Our mothers, wives and daughters. Home is not
home at all without them. Yet they may die and
leave the house silent and sad any day. Depend
upon it, the ladies are not always to blame when they
are low spirited and "cross." They are sick. Tell
them to use Dr. David Kennedy's Favorite Remedy
and the color will come back to their cheeks and
the laugh to their lips. Complaints

Are Linked Together.
They are associated by nature. Get one disease and
you will have others. Dr. David Kennedy's Favorite
Remedy strikes at the root of all disease. What is
needed everywhere is a family medicine, one that
will relieve and cure those diseases from which every
family suffers, more or less. It would save time,
money, days of pain and sickness, worry and
anxiety, and save dear and precious lives. This
need is supplied.

By Dr. Kennedy's Favorite Remedy
a medicine that is adapted to all ages and both sexes,
affording relief in all cases caused by impurity of the

We are sorry that we cannot
write up any more of our whist
parties, which to some East An-
trim people are a source of much
pleasure, and we believe much
benefit, as they bring them to-
gether in friendly intercourse,
which is desired among neighbors.
We are not blaming the editor
for we know the sentiment of
many on this matter, but we
simply wish to protest against
this discriminating against whist
parties where prizes are given in
preference to church fairs where
guessing contests and grab bag
schemes are indulged in.

The Cellars of Bordeaux.
The cubby-holes will seem to an impres-
sionable visitor the noblest things in
the Bordeaux cellars. Some of them
look like thick pile curtains, some in
hue, of course, but famously suggestive
of warmth. And with even only a
moderate imagination one may go to
and fro among the barrels fancying the
pendant shaves overhead are dusky
stalactites instead of the airy next to
nothing as they really are. If you hold
your candle high enough you may
shrivel a few yards of the fabric. But
that were truly a shocking deed of
vandalism, for, though no layman can
understand why this dismal tapestry
is revered as it is, his ignorance will
not be held sufficient excuse for his
crime.—Chambers' Journal.

Marriage by Proxy.
In Holland, says a Scotch paper,
marriage by proxy is allowed. This is
the so called "marriage by the glove"
and is usually put in practice by a
Dutchman who is sojourning abroad
and wanting a wife, is too poor or
too far off to return home for one. In
such a case he writes home to a law-
yer, who selects one conformable to the
requirements of his client. If the gen-
tleman approves he next sends the law-
yer a soiled left hand glove and a
power of attorney, which settles the
business. A friend marries the woman
by proxy, and she is thereafter promp-
tly shipped off to her new home.

What a "Hurricane" is.
"Hurricane" is the old Spanish name
for a West Indies cyclone, but it is
used by modern meteorologists to de-
scribe a long continued wind of ex-
treme violence. In Beaumont's scale
the different winds are classed as
"light," "gentle," "fresh" and "strong"
winds. The next is a "stiff" breeze,
then a "strong" wind and then we
strike the "gales." The "gales" run
through three or four classes, the last
merging into the "hurricane."

It Happened in Vineland.

naturedly, "I see them."

A Story of Voltaire.
One day when D'Alembert and Con-
dorcet were dining with Voltaire they
proposed to converse on atheism, but
Voltaire stopped them at once. "Wait,"
said he, "till my servants have with-
drawn. I do not wish to have my
bread cut tonight."

WHO SHE WAS

SKETCH OF THE LIFE OF LYDIA E. PINKHAM

**And a True Story of How the Vegetable Compound
Had Its Birth and How the "Panic of '73" Caused
it to be Offered for Public Sale in Drug Stores.**

This remarkable woman, whose
maiden name was Estep, was born in
Lynn, Mass., February 9th, 1819, com-
ing from a good old Quaker family.
For some years she taught school, and
became known as a woman of an alert

restore the family fortune. They
argued that the medicine which was
so good for their woman friends and
neighbors was equally good for the
women of the whole world.

The Pinkhams had no money, and
little credit. Their first laboratory
was the kitchen, where roots and
herbs were steeped on the stove,
gradually filling a gross of bottles.
Then came the question of selling
it, for, always before they had given
it away freely. They hired a job
printer to run off some pamphlets
setting forth the merits of the medi-
cine, now called Lydia E. Pinkham's
Vegetable Compound, and these were
distributed by the Pinkham sons in
Boston, New York, and Brooklyn.

The wonderful curative properties of
the medicine were, to a great extent,
self-advertising, for whoever used it
recommended it to others, and the demand
gradually increased.

In 1877, by combined efforts the fam-
ily had saved enough money to com-
mence newspaper advertising and from
that time the growth and success of
the enterprise were assured, until to-
day Lydia E. Pinkham and her Vege-
table Compound have become house-
hold words everywhere, and many
tons of roots and herbs are used annu-
ally in its manufacture.

Lydia E. Pinkham herself did not
live to see the great success of this
work. She passed to her reward years
ago, but not till she had provided
means for continuing her work as
effectively as she could have done it
herself.

During her long and eventful expe-
rience she was ever methodical in her
work and she was always careful to pre-
serve a record of every case that came to
her attention. The case of every sick
woman who applied to her for advice—
and there were thousands—received
careful study, and the details, includ-
ing symptoms, treatment and results
were recorded for future reference, and
to-day these records, together with
hundreds of thousands made since, are
available to sick women the world
over, and represent a vast collabora-
tion of information regarding the
treatment of woman's ills, which for
authenticity and accuracy can hardly
be equaled in any library in the
world.

With Lydia E. Pinkham worked her
daughter-in-law, the present Mrs.
Pinkham. She was carefully instructed
in all her hard-won knowledge, and
for years she assisted her in her vast
correspondence.

To her hands naturally fell the
direction of the work when its origina-
tor passed away. For nearly twenty-
five years she has continued it, and
nothing in the work shows when the
first Lydia E. Pinkham dropped her
pen, and the present Mrs. Pinkham,
now the mother of a large family, took
it up. With women assistants, some as
capable as herself, the present Mrs.
Pinkham continues this great work, and
probably from the office of no other
person have so many women been ad-
vised how to regain health. Sick wom-
en, this advice is "Yours for Health"
freely given if you only write to ask
for it.

Such is the history of Lydia E. Pink-
ham's Vegetable Compound; made
from simple roots and herbs; the one
great medicine for women's ailments,
and the fitting monument to the noble
woman whose name it bears.

and investigating mind, an earnest
seeker after knowledge, and above
all, possessed of a wonderfully sympa-
thetic nature.

In 1848 she married Isaac Pinkham,
a builder and real estate operator, and
their early married life was marked by
prosperity and happiness. They had
four children, three sons and a
daughter.

In those good old fashioned days it
was common for mothers to make
their own home medicines from roots
and herbs, nature's own remedies—
calling in a physician only in specially
urgent cases. By tradition and expe-
rience many of them gained a won-
derful knowledge of the curative prop-
erties of the various roots and herbs.

Mrs. Pinkham took a great interest
in the study of roots and herbs, their
characteristics and power over disease.
She maintained that just as nature so
bountifully provides in the harvest-
fields and orchards vegetable foods of
all kinds; so, if we but take the pains
to find them, in the roots and herbs
of the field there are remedies ex-
pressly designed to cure the various
ills and weaknesses of the body, and
it was her pleasure to search these out,
and prepare simple and effective medi-
cines for her own family and friends.

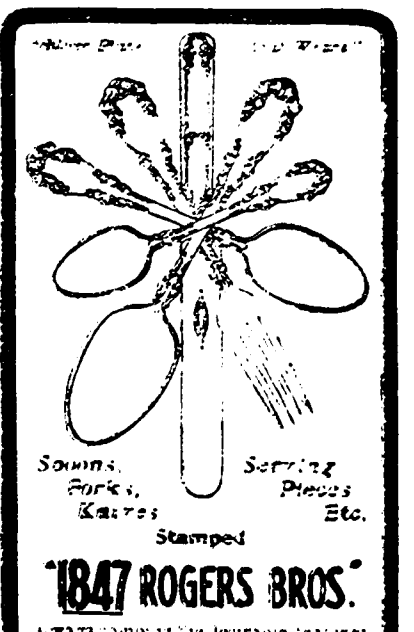

Chief of these was a rare combina-
tion of the choicest medicinal roots
and herbs found best adapted for the
cure of the ills and weaknesses pecu-
liar to the female sex, and Lydia E. Pink-
ham's friends and neighbors learned
that her compound relieved and cured
and it became quite popular among
them.

All this so far was done freely, with-
out money and without price, as a
labor of love.

But in 1873 the financial crisis struck
Lynn. Its length and severity were too
much for the large real estate interests
of the Pinkham family, as this class
of business suffered most from
fearful depression, so when the Centen-
nial year dawned it found their prop-
erty swept away. Some other source
of income had to be found.

At this point Lydia E. Pinkham's
Vegetable Compound was made known
to the world.

The three sons and the daughter,
with their mother, combined forces to

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty-cent and one-dollar size bottles are sold by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root and the address, Binghamton, N. Y., on every bottle.

Heart Weakness

The action of the heart depends upon the heart nerves and muscles. When from any cause they become weak or exhausted, and fail to furnish sufficient power, the heart flutters, palpitates, skips beats; and in its effort to keep up its work, causes pain and distress, such as smothering spells, short breath, fainting, pain around heart, arm and shoulders. The circulation is impeded, and the entire system suffers from lack of nourishment.

Dr. Miles' Heart Cure makes a heart strong and vigorous by strengthening these nerves and muscles.

"I had palpitation and pain around my heart, and the doctors said it was incurable. I don't believe it now for after taking six bottles of Dr. Miles' Heart Cure, three bottles of the Nerve and three boxes of the Nerve and Liver Pills I am entirely cured, and feel better than I have for five years, and it is all due to these remedies. I want you to know that your medicines cured me. It relieved me from the first dose, and I kept right on till the pain in my chest was gone, and I kept on feeling better even after I quit taking it." JOHN H. SHERMAN, Belding, Mich.

Dr. Miles' Heart Cure is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails he will refund your money.

School Superintendents.

The Superintendent of Public Instruction at Concord, H. C. Morrison, has prepared what he is pleased to call a "Catechism," consisting of questions and answers in relation to expert supervision of schools. This exposition gives much light on the subject and will help to make the matter more clearly understood by many who are somewhat prejudiced against the system, owing doubtless to a limited knowledge of the requirements and duties of the superintendent and also of the successful workings of the system in other places. The Catechism is given herewith for the benefit of our readers:

What do we mean by expert supervision of schools?
Precisely the same as supervision of a factory or a road by a practical man who makes it his business, has no other business, and gives his whole time and interest and energy to the work.
Is the superintendent of schools independent of the school board?
No. He has no powers nor duties except such as they give or require of him. He is the hired executive officer of the school board.

Are both superintendent and school board necessary?
Yes. Their duties are entirely distinct.
What is the function of the school board?
To serve as the representative of the people in all matters pertaining to schools.
That is:
1-To control the expenditure of money.
2-To decide where schools shall be located.
3-To decide what shall be taught and who shall teach.
4-To decide who shall employ and who shall be employed.
In short,
To exercise all powers conferred by law to the representatives of the people.

Is it the school board's duty to employ the superintendent?
No. It is a body of trustees, elected by the board of trustees, and it is their duty to employ a superintendent of the schools.

What is the relation of the superintendent to the school board?
He is their executive officer.
As such, he sees that the orders and directions of the school board are carried out.
He is their educational adviser.
He reports to them on the con-

ditions of the schools, and thus they may avoid the necessity of being guided largely by rumor.
4-He hunts up the best teachers nominates them to the board when vacancies occur.
5-He takes all detail, such as distributing books and supplies and keeping accounts, off their hands.
But, all these functions are entirely at the discretion of the board. They may require these, and many others besides, or less according to their judgment.
What is the relation of the superintendent to the teachers?
1-To see that they work together.
2-To encourage them in the direction of professional improvement and progressive spirit.
3-To suggest better methods.
4-To help them over hard places in teaching.
5-To stand behind them in hard cases of discipline.
6-To assist them in securing better attendance. This is one of the commonest benefits done by superintendents.

Is expert supervision popular among teachers?
Yes; among good teachers. The great majority of teachers who have been under superintendents will not teach where there is no superintendent.
How does the benefit of expert supervision usually first appear?
In improvement in the progress of children at school.
Is this always so?
No; not under a poor superintendent.
What if our district is so unfortunate as to employ a poor superintendent?
Discharge him and get a better one.
What is the so-called "Supervisory law"?
Substantially this:
Whenever two or more towns or districts will vote at the annual school meeting to unite for the purpose of employing a superintendent, the state will pay one half of his salary.
Does that mean that our schools pass out of our control into that of a joint board?
No. The supervisory board is made up of the boards of the towns or districts uniting. Its only function is to elect the superintendent and apportion his time and salary. The local schools still remain under the government of the local board.

Perfection can only be attained in the physical by allowing Nature to appropriate and not dissipate her own resources. Cathartics gripe, weaken-dissipate, while DeWitt's Little Early Risers simply expel all purrid matter and bile, thus allowing the liver to assume normal activity. Good for the complexion. BENNINGTON

Mr. and Mrs. James May of Andover are guests of Mrs. May's mother, Mrs. Sarah Keeser.

A few from this place attended the Installation on Wednesday evening at Antrim of the Rebekah Lodge, and Saturday evening a goodly number of Odd Fellows were present to witness the installing of the officers of Waverley Lodge.

Will Ware of Hancock was in town last week papering and painting the lower tenement of Mrs. Harry Knight's house that Perley Richardson is to occupy.

The officers-elect of Bennington Grange were very impressively installed last Friday evening by John Robertson ably assisted by Mr. and Miss Hopkins of Greenfield. Thirty-nine visitors were entertained and forty-five members present.

CONGREGATIONAL CHURCH NOTES

The members of the Sunday School will give a reception to the Home Department Friday evening.

At a continued business meeting last Thursday evening the following list of officers were elected: A. B. Lawrence trustee for three years in place of F. L. Keeser; Fred Kimball re-elected treasurer; F. L. Keeser, auditor; Miss Elizabeth Rogers re-elected clerk.

Next Sunday evening Rev. W. T. Bartley will commence a series of lectures on the Lord's Prayer. The first will be "The Fatherhood of God." Rev. and Mrs. Bartley will entertain the orchestra and singers next Saturday evening as he hopes his father, Joseph Bartley will be with them at that time.

The officers of the Sunday School are: Supt. Deacon Charles Kimball; Asst. Supt. Charles Bailey; Secretary and Treasurer Lee Rogers; Librarian Miss Annie Kimball; Asst. Librarian, Miss Edith Sawyer; Sunday School Board, Charles Kimball, Charles Bailey, Mrs. Thomas Wilson, Mrs. Allan Gerrard, Mrs. J. J. Griswold; Organist, Miss Edith L. Lawrence.

A list of new library books has been received too late for publication this week, but will appear next week.

Mr. Mason of Keene was in town Monday to arrange a singing class. It is to be hoped that he will have sufficient support to carry out his plans.

The village was startled on Wednesday last to learn that Walter Adams, aged 19, unmarried, of Hillsboro, who has been employed for some time at the Monadnock paper mills, was drawn into the machinery while at work that afternoon, and before the machinery could be stopped his neck was broken. Death was almost instantaneous. A shock of this kind is very unusual in this vicinity and called out profound sympathy.

There is more Catarrh in this section of the country than all other diseases put together and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Peru's Railway Wonder.

A remarkable railway, one of the wonders of Peru, is that which runs from Callao to the gold fields of Cerro de Paeco. Beginning in Callao, it ascends the narrow valley of the Rimac, rising nearly 5,000 feet in the first forty-six miles. Thence it goes through the intricate gorges of the Sierras till it tunnels the Andes at an altitude of 15,645 feet, the highest point in the world where a piston rod is moved by steam. This astonishing elevation is reached in seventy-eight miles.

To Treat a Sprain.

The most successful treatment for a sprain is use of hot footbaths for fifteen minutes three times a day. Follow each bath with massage for fifteen minutes, then apply snugly a rubber bandage from toes up to as high as ankle and have patient walk. Ballet dancers use this method with such success that they are seldom incapacitated for work longer than a week.—Medical Record.

Standing Room Only.

The Lawyer—So your wife has sued you for a divorce, eh? Will she have any standing in court? The Client—I'm afraid so. From the nature of the evidence she threatens to bring in there won't be half enough seats to accommodate the crowd.—Chicago News.

Selfishness.

There are some tempers wrought up by habitual selfishness to an utter insensibility of what becomes of the fortunes of their fellow creatures, as if they were not partakers of the same nature or had no lot or connection at all with the species.—Sterne.

Occasionally a man figures on a reserved seat in heaven because he once gave away an old coat.

No Person on Earth Should be Suffering from Dyspepsia if Pepsoids is within their Reach. The First Bottle is Free.

There is no case of Dyspepsia, Indigestion or Stomach Trouble that Pepsoids will not cure. So certain are we that it will cure you, that we are willing to send you the first bottle free on approval. If Pepsoids do as we say, cure you, then you pay 50 cents, otherwise you are under no obligation to pay one penny. We could not afford to make you this offer if we did not have confidence in the curing power of Pepsoids. You will have the same confidence in its curing power after you use the first bottle. We want you to write us to-day. The sooner you begin using Pepsoids the sooner you will be well and strong again. Pepsoids is not a patent medicine but the famous prescription of Dr. V. I. Oldman in tablet form. The formula is on each bottle. Pepsoids is warranted to permanently cure Dyspepsia, Indigestion and the worst forms of Stomach Disorder. Write at once. We ask you to take no chances. We want to cure you. Do you want to get cured?

The New Way to Cure Dyspepsia. Pepsoids cure Dyspepsia by repairing the worn-out lining of the stomach, and destroys all germs; and Dyspepsia once cured in this way never returns. The following symptoms indicate that you are in the grasp of Dyspepsia and need Pepsoids: Belching of Gas, Heart-burn, Palpitation of the Heart, Distention of the Stomach, Sick Headache, Dizziness, Low Spirits and Despondency. In whatever way Dyspepsia first shows itself, the trouble should be treated quickly and thoroughly. Pepsoids cure quickly and the cure is lasting. Write to-day and try the first bottle without a penny of risk. THE VIO CHEMICAL CO., Chicago, Ill.

SOUTH LYNDEBORO.

Alice Cheever visited friends in Nashua recently.

Mrs. Percy Putnam has so far recovered that her nurse has left her.

It was a busy time the past week filling ice houses. The ice is very nice this year.

Charles Putnam of Wilton, a former Lyndeboro boy, has been quite sick the past week with mumps; they are quite plenty.

Mr. and Mrs. David Putnam attended a birthday party at Sumner Hartshorn's in Milford last Saturday. It was on the 80th birthday of Israel Putnam. Mr. Hartshorn's uncle. Mr. Putnam was born and lived during his early life in Lyndeboro. Dinner was served to 21 guests. Mr. Putnam and almost all of the guests were the descendants of a brother of General Israel Putnam of Revolutionary fame, more familiarly called "Old Put." It was a very pleasant gathering. The idea was talked over of having a reunion of the Putnam family on the spot where the first settler of that name resided in Lyndeboro; he being one of the first settlers of the town. The first meeting house in town was very near his house, and a fort to protect them from an attack from the Indians was near by. On the same farm there was an iron foundry and the first stove ever cast in New Hampshire is said to have been made there. There is a story told of a man who went into a neighbor's home that had just got the first stove in town. He not knowing what it was took it to be an iron chest, pulled off his hat and threw it upon it; there happened to be a good hot fire in the stove and the result was a burned hat.
