## A BENNINGTON MAN. He Died in Mexico, and is Re- membered by Many in This Locality.

It may be interesting to some to know that the late Frederick Augustus Newton, who died a few weeks ago in Mexico, leaving a fortune of \$10,000,000 and the reputation of being the richest American in that country, was at one time a resident of this town. His life was an interesting and adventurous one, more or less fraught with danger, being identified as he was with early life in Mexico when the country was filled with Indians and traveling was hazardous in the extreme.

Mr. Newton's parents lived in Bennington for over forty years and now lie buried in the village cemetery.

His only surviving relative in the United States bearing the name of Newton, is Frederick A. Newton of this place, who is his nephew and namesake.

Mr. Newton was born in Alstead, this state, in 1826, and was the son of Luther and Harriet (Griswold) Newton. He was the second of a family of nine children, only one of whom, Mrs. Harriet Barker, of Worcester, Mass., now survives.

Mr. Newton's educational advantages were very limited, he leaving school at the age of 12 years, and going to work in his father's paper mill at Warner, N. H. Soon after this he went to a paper mill in Franklin, of which he eventually became superintendent; while working at this place he made the acquaintance of the Hon. Warren Daniels and was his room-mate and close friend.

It was during Mr. Newton's boyhood that his parents removed to Bennington, and with them he made his home, although he was away working in Franklin and other places more or less of the time.

FREDERICK AUGUSTUS NEWTON

In the course of a few years, he having saved up the sum of \$1,000. Mr. Newton purchased for his parents what was known as the Cummings Cross place in this village, consisting of a cozy cottage and plot of land; here his parents spent the remainder of their days and here now resides the widow of his brother, John Newton, with her son Frederick A. Newton and daughter, Mrs. Minnie (Newton) Marsh. In 1848, at the age of 22, Mr.

Newton went to Guadalajara, Mexico, where he was a paper mill superintendent until the opening of the Civil War, when he embarked in the cotton business, and it was in this that he amassed his fortune.

His wife was a Mexican lady to whom he was married in 1866 and four daughters now survive him.

In 1861 Mr. Newton came back to the States for the first time and spent the summer with his parents here. After this, from time to time, he returned to this vicinity in order to keep in touch with his relatives and minister to the welfare of his parents.

During one of these visits he purchased several of the famous Concord Stage Coaches of the Abbott Downing Co. of Concord, and shipped them to Mexico, they being the first vehicles of the kind ever seen in that country.

Many of the older residents will no doubt recall Mr. Newton and, in fact, it is only a few years since he paid his last visit to his relatives here.

At the time of his death he owned 185,000 acres of land in Mexico and carried on extensive coffee and sugar cane plantations.

### The Rebekahs Entertain.

On Wednesday evening last, Hand in Hand Lodge of Rebekahs of Antrim received an official visit from the Warden of the Rebekah Assembly, Mrs. Alice Snow of Conway. Some 75 were present. First part of the evening was given up to the conferring of the degree on four candidates, after which the members were entertained with selection by an orchestra, the likes of which was never before listened to or seen in these parts.

The remarks by the official visitor were very complimentary to Hand in Hand lodge and it is not strange that the members of the degree staff and its manager should feel a sense of pride for their good work on this occasion.

To close the evening's program in a proper way, refreshments consisting of ice cream and cake were served in the banquet hall.

## Death of Mrs. John Gardiner Flint.

In the Milwaukee, Wis., Sentinel of Monday, April 9, was the following death notice of Mrs. J. G. Flint of that city and also of North Branch, in our own town, brief mention of whose death was made in our columns last week.

Mrs. John G. Flint, a member of one of Milwaukee's prominent families, and a leading clubwoman and philanthropic worker, died suddenly at her home, 272 Martin street, last night. She had been confined to her bed for the last three days but her death was unexpected and was due to heart failure.

Mrs. Flint was 64 years of age and had resided in Milwaukee all her life, her maiden name having been Frances Kneeland. Her husband, the founder of the J. G. Flint company, died ten years ago and she and her only son, Wyman Kneeland Flint, have retained active interest in the business, Mrs. Flint holding the office of vice president. Besides her son and two grandchildren, she leaves two sisters, Mrs. E. C. Sexton and Mrs. Walter S. Chandler.

For many years she had held prominent positions in several of the leading clubs and charities. She was a member of the Milwaukee Chapter of the Daughters of the American Revolution, the Society of Colonial Dames in Wisconsin, the Woman's club of Wisconsin, and the Milwaukee College Endowment association. She always took deep interest in charity work and was one of the women to whom the establishment and work of the Wisconsin Training School for Nurses was largely due. She was a director of the Protestant Orphan asylum.

### Just Breathe It.

Hyomei Cures Catarrh in Natural and Rational Way.

No dangerous drugs or alcoholic concoctions are taken into the system when Hyomei is used in the treatment of catarrh. Breathed through the neat pocket inhaler that comes with every outfit, the balsamic healing of Hyomei penetrates to the most remote cells of the nose, throat and lungs, killing all catarrhal germs, healing the irritated mucous membrane and effecting a complete and permanent cure.

No medicine taken into the stomach can possibly reach the remote cells of the air passages, or give the immediate relief that follows the use of Hyomei. A few days' treatment is usually all that is necessary to show how quickly this remedy will cure catarrh.

So successful has Hyomei been in the cure of catarrh among his customers, that W. F. Dickey sells it under a positive guarantee that it costs nothing unless it gives satisfaction. The complete outfit sells for one dollar; while extra bottles can be obtained for 50 cents.

GOOD INVESTMENT OF ONE DOLLAR. ## Carpets and Rugs!

In our Carpet and Rug department, we are showing the largest range in patterns and prices, of any house in this County. In the various grades, from the low-priced cotton at 25c, up to the best Body Brussels at \$1.50. The line represents the cream of American production.

Jobs and imperfect goods you cannot find here. We handle nothing but what we can fully guarantee as to perfect weave and wearing qualities. When a house offers you tempting prices on well-known grades of floor coverings, you can make up your mind at once that they are imperfect in some way. The market is full of these goods, and you should be suspicious of tempting prices, and buy your floor coverings of a firm that stands behind every yard sold.

### This We Do!

We are offering, until present stock is all exhausted, a splendid value in a Tapestry Brussels at 85c per yard. Your pick of several patterns.

Four patterns in a Tapestry Brussels Rug, in one piece, strictly first class, size 9x12, price is \$15.00

50 other patterns in carpet size Rugs, at prices lower than those of other houses.

We are better prepared than ever to estimate on your carpet needs. Will you allow us to do so? A request on postal will bring us to your house with a full line of samples.

## Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood. It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle sent to you by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root. Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

### Maine.

Where the Purest Brand of Spring Tonic and Big Catches of Trout and Land-locked Salmon reward the Visitor.

In the Spring the angler's fancy sends him towards the woods of Maine. No, Shakespeare didn't write this; nor our old friend Isaac Walton; but we all know it just the same and it is a sure thing that the fellow who is busy preparing his tackle and fixing up his rod is thinking of a sudden journey north. No life can compare with that of the woodsman. "Away from the street's rude bustle and tokens of mart and stage" man in the wilderness enjoys the ease of a monarch, and much as we may seem to rollick in the luxuries of civilization, there is that in every man's nature which makes him occasionally and involuntarily turn back toward the primitive, where he can listen to the songs and behold the actions of nature in the skies, trees, the birds, the air, the brooks and in everything which he sees or touches. Maine is the promised land, the wilderness of the moose, the caribou the bear and the deer, and the proud possessor of sixteen hundred ponds and lakes; and myriads of rivers, where trout and salmon, perch and pickerel, bass and longe and almost every variety of the funny specie abounds.

In Maine the angler can seek a prolific fishing ground in almost any direction; but lest the new comer may find it hard to choose from the hundreds of lakes and streams, we will mention a few sections where good sport and results await the visitor. Sebago lake, a few miles west of Portland, the home of the salmon, the famous Rangeley lakes and Dead River region offer alluring spots; in the waters of Umbagog, Mooselookungtic, Farmachene, and Cupusitic, also the Penobscot and Aroostook rivers, Moosehead Lake, the largest body of trout water in the world. About three tons of trout is the annual catch at Moosehead. In the Moosehead region are Chesuncook, Caribou, Lobster, Chamberlain, Cauquomogoc, Onawa, Loon, Rainbow, Ragged and Brassus lakes. In the Aroostook region are Penobscot, Fish, Allegash and St. John rivers, and the Schoodie, Sebodie,

Our grange enjoyed a sugar party with Greenfield grange a few nights ago.

Maro S. Brooks, wife and daughters, Ruth and Rosemond, of Brookline, Mass., spent last week at the Brooks home in the village.

Town Clerk W. F. Simonds drew the following jurors on the 28th inst.: W. F. Davis and A. F. Gordon, to report at Manchester May 14 and 21 respectively.

John H. Perkins and wife and F. W. Whiting and wife of Watertown, Mass., spent last week at the Perkins cottage.

Much sickness of an acute inflammatory nature in town the past winter and this spring. Mr. George Webb and Lester Johnson are recovering from attacks of pneumonia.

A special town meeting is called for the 24th inst. to see if the town will vote to rescind the action taken at the annual meeting relative to installing a village water system; also a vote will be taken to see if the town will accept a public fountain should the water system be put in. The town will also be called upon to act upon a petition of G. F. Weston and others relative to the laying out of a road from the house of Thomas F. Shea to the shore of lake Nubanusit.

This is the season of listlessness, headaches and spring disorders. Hollister's Rocky Mountain Tea is a sure preventative. Makes you strong and vigorous. 35 cents, Tea or Tablets. Sold by Dickey of Antrim and Joslin of Bennington.

Pemadumcook, Mattawamkeag and a score of other lakes and ponds. Washington county has twenty-seven hundred square miles of fish and game territory. In the St. Croix and Denneys river, and at Grand lake, Schoodie, Mopang and Tunk are some dandy "Square Tails."

However, Maine by no means claims a monopoly on the fish and game sport, for New Hampshire has a reputation in the same line, while in Vermont Champlain and her sister lakes prove a rendezvous for sportsmen, and in the Province of Quebec and New Brunswick and Nova Scotia are fishing grounds which the sportsmen would characterize as the "real thing."

There is just one way to reach the hunting region—and that is via the Boston & Maine Railroad and connections. The Boston & Maine Passenger Department has just issued a beautiful booklet, something brand new, with a delightfully colored cover, illustrated and containing sixty-one pages of interesting descriptive reading on the fish and game territory of northern New England and the Provinces. This is the fisherman's guide, don't forget; this book will tell you in detail just where to go, what to do, etc. It will be mailed upon receipt of a two-cent stamp by the General Passenger Department, Boston & Maine Railroad, Boston, to any address in the world.

# Keep Your Nerve

It is nerve energy that runs the organs of your body. The storage battery is the nerve cells in the brain and spinal cord, and from this battery nerve force is sent out through the system of nerves. To keep the body healthy you must have plenty of nerve force; if you have not, the organs work imperfectly, the circulation is sluggish, digestion bad, appetite poor, kidneys inactive, and aches, pains and misery are the penalty.

You can keep the system strong with Dr. Miles' Nerveine. It assists in generating nerve energy; it strengthens the nerves and makes the whole system strong and vigorous.

"I take pleasure in recommending Dr. Miles' Nerveine to those suffering from nervous prostration, insomnia and melancholy. After several months suffering from above diseases I tried this medicine and found immediate relief. It soothes and strengthens the nerves, chases away the gloomy and depressing thoughts and gives the sufferer renewed strength and hope. It is a superb nerve restorer."

WEDNESDAY, APRIL 18, 1906.

Entered at the Post-Office at Antrim as second-class matter.

"Oleverness dwells in marble halls; genius in an attic."

Prophet Dowie says his wife is responsible for all of his troubles. Another case of "Eve, she did it."

The mere possession of money does not bring happiness says John D. Rockefeller. But the mere getting rid of it does, and Mr. Rockefeller should try the experiment whenever he is feeling gloomy.

A Washington woman has called upon the police to help her find a servant girl who has suddenly disappeared and whom she believes must have met with foul play since she did not come in the morning to get the breakfast. It is refreshing to meet occasionally someone with faith in human nature.

An exchange says: "The kickers on the farm are not as hard to get along with as the kickers in the town. On the farm there is the kicking cow and our long-eared friend, the mule, while in the town there is the old moss back, who wants all the privileges of municipal living without paying for them, and blocks so far as he can, every municipal improvement. The cow may be sold for beef and the mule traded for a shot gun, but nothing but a funeral will get rid of the town kicker."

### Letter to S. Little.

Antrim, N. H.

Dear Sir; Lead and oil is not good paint; don't wear; the rule is, as everyone knows, repaint in three years.

Devco lasts six, in the same way—allow wide margin in all such statements. What does it mean, to last? It means the same with both.

As to covering; that's another. Here's an instance.

Mr. J. J. Hall, Sheffield, Pa., painted two houses, lead and oil; took 40 gallons. Last summer bought 40 gallons Devco for the same two houses; returned 10 gallons.

The paint that covers, lasts; it's all paint, true paint, and full measure. Lead-and-oil is all paint but not good paint; the lead wants zinc. Better paint Devco

Yours truly

## For the Children

To succeed these days you must have plenty of grit, courage, strength. How is it with the children? Are they thin, pale, delicate? Do not forget Ayer's Sarsaparilla. You know it makes the blood pure and rich, and builds up the general health in every way.

The children cannot possibly have good health unless the bowels are in proper condition. A sluggish liver gives a coated tongue, bad breath, constipated bowels. Correct all these by giving small, laxative doses of Ayer's Pills. All vegetable, sugar-coated.

### Fire in Antrim.

Our village was startled about eight o'clock Friday evening by an alarm of fire, and in a very short time Main street was alive with people. It was discovered that the main cutlery shop of the Goodell Company was afire, the smoke and flames coming from the japaning room on the ground floor, but spreading quickly to the second floor, to the attic, and on through the slate roof. The fire department was on hand and in good time succeeded in getting the flames under control; help was summoned from Bennington, but when the boys arrived with the apparatus their services were not needed. The immediate section of the cutlery works was considerably gutted, and water was everywhere in abundance, the damage from this source as well as by smoke was large. It was indeed fortunate that there was no wind to fan the flames, and that plenty of help was handy. The large belt which carried the wheels in the main shop was totally destroyed by fire. The insurance adjusters allowed about \$2000 damage by fire and water which was accepted. Insurance was placed through E. W. Baker's agency.

It is hoped that no one will put upon the streets or highways wood ashes full of nails, glass and other stuff; the law is severe in a case like this, so get wise. It has been regretted by many that in years past this practice has been followed to some extent.

"Mr. Bob," the comedy to be presented at Town hall Friday evening, April 20, for the benefit of the senior class of Antrim High school, will be a good one and will surely delight its audience. The management is putting in considerable work and success is assured. Read posters.

House cleaning time is near at hand. Are you going to have any painting, Papering or Whitewashing done this spring? If so, I will do your work as cheap as any one can. Will call at your house with samples of Peat's room paper which is the best in the market. A postal card brings me.

"The past year was the most prosperous in the history of the Mutual Benefit Life Insurance Company and it is not difficult to account for the fact. The storm of public opinion that was aroused against the 'big three' was the opportunity for the smaller companies, particularly for a strong conservative, well managed annual dividend company like the Mutual Benefit. The sixty-first annual statement shows splendid increases. There is no stronger or better managed life insurance company than the Mutual Benefit. Its growth has been steady and its business is of the persistent kind, owing to the satisfaction felt by its policy-holders in the absolute security of the company and the exceptionally large dividends which it has always paid."—The Insurance Record, New York, January, 1906.

## Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

### About the Latest Styles in Decorating, Painting and Paper Hanging.

He has certainly had the opportunity, as he has traveled about all over the United States in the past three years, and has worked in some of the Largest Hotels of Florida, Fine Residences and Departments in Washington, New York, and other cities East and West. It seems to be the prevailing style to use flat or dead coats for all inside painting except for kitchens and walls where a great amount of wear comes; Varnish flated Paints are used and they wear well and clean well. For hardwood-finishing, everything is rubbed to a dead finish for best work. In Washington and New York about every room is papered. MOIRE is the most popular Ceiling Paper and it is made in shades to match all papers. The two-thirds effect seems to lead for Dining Rooms, Living Rooms, Libraries and Chambers, with Picture Moulding in angles or dropped ceilings, chair rail, plate rail or photo rail. There is no end of variety in Wall Papers this year. Call and see samples, or we will bring them to your home if you will send a postal card. ## Opening of Suits, Coats and Shirt Waists

DAME FASHION is exceedingly kind in her authorization of this Spring's modes. A more pleasing array of Outer Garments were never vouchsafed. The short-coated suits, the jaunty "pony" and the "chic" Eton effects will carry laurels, for they promise to be the vogue. You will only need to see them to be convinced, for they are gracefully "ultra" in effect and style. Every taste, no matter how fastidious, can find perfect fulfillment here. You will be wise to select early.

PRICES—Our regular customers understand that here they can save from \$5.00 to \$8.00 over city prices for the same suits. If you do not understand how we can do it, come in and we will explain and convince you. Alterations, if necessary, made free.

THE NEW SPRING HATS are ready—ready to unfold their subtle charms, surprise and delight you with their graceful and becoming beauty. New York or Boston's most fashionable shops will show hats no prettier—and why should they? Their styles are of Parisian origin, and so are ours, but in the cities you will pay twice our price at least. We cordially invite you and your friends to visit us.

## Women in Our Hospitals

Appalling Increases in the Number of Operations Performed Each Year—How Women May Avoid Them.

Going through the hospitals in our large cities one is surprised to find such a large proportion of the patients lying on those snow-white beds women and girls, who are either awaiting or recovering from serious operations. Why should this be the case? Simply because they have neglected themselves. Female troubles are certainly on the increase among the women of this country—they creep upon them unawares, but every one of those patients in the hospital beds had plenty of warning in that bearing-down feeling, pain at left or right of the abdomen, nervous exhaustion, pain in the small of the back, dizziness, flatulency, displacements of the organs or irregularities. All of these symptoms are indications of an unhealthy condition of the female organs, and if not heeded the penalty has to be paid by a dangerous operation. When these symptoms manifest themselves, do not drag along until you are obliged to go to the hospital and submit to an operation—but remember that Lydia E. Pinkham's Vegetable Compound has saved thousands of women from surgical operations.

When women are troubled with irregular, suppressed or painful periods, weakness, displacement or ulceration of the organs, that bearing-down feeling, inflammation, backache, bloating (or flatulency), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, they should remember there is one tried and true remedy.

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

The following letters cannot fail to bring hope to despairing women.

Miss Ruby Mushrush, of East Chicago, Ind., writes:

Dear Mrs. Pinkham—  
"I have been a great sufferer with irregular periods and female trouble, and about three months ago the doctor, after using the X-Ray on me, said I had an abscess and would have to have an operation. My mother wanted me to try Lydia E. Pinkham's Vegetable Compound as a last resort, and it not only saved me from an operation but made me entirely well."

Mrs. Alice Berryhill, of 818 Boyce Street, Chattanooga, Tenn., writes:

Dear Mrs. Pinkham—  
"Three years ago life looked dark to me. I had ulceration and inflammation of the female organs and was in a serious condition. My health was completely broken down and the doctor told me that if I was not operated upon I would die within six months. I told him I would have no operation but would try Lydia E. Pinkham's Vegetable Compound. He tried to influence me against it but I sent for the medicine that same day and began to use it faithfully. Within five days I felt relief but was not entirely cured until I used it for some time."

"Your medicine is certainly fine. I have induced several friends and neighbors to take it and I know more than a dozen who had female troubles and who to-day are as well and strong as I am from using your Vegetable Compound."

Lydia E. Pinkham's Vegetable Compound at once removes such troubles. Refuse to buy any other medicine, for you need the best.

Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, invites all sick women to write her for advice. Her advice and medicine have restored thousands to health. Address, Lynn, Mass.
