THE TOWN FAIR

Making Good Progress, With Again to Henniker in a Game Proper Committees Saturday Last, 6 to 3

Another meeting of the directors of the Board of Trade and the chairmen of the several committees was held at the Selectmen's Room on Monday evening. A large and enthusiastic gathering was present and much of the necessary and important business connected with the coming Town Fair was considered.

The date set this year for the Fair is Labor Day, Monday, the very first day in September, and it appears to meet with general approval.

While we are unable to give at this time much of the arrangements in detail, yet it is sufficient to say that the sports committee is arranging for an extensive program which will be sure to please; the committees having in charge the horse show, cattle exhibit, poultry department, and every other exhibit, will do their best to outdo if possible the successful efforts of one year ago. Two games of base ball will be played, one in the morning and one in the afternoon, Antrims with Hillsboros, and these are sure to be good games and interesting. The Hillsboro band has been engaged, assuring fine music during day and concert in the evening.

There are likely to be other attractions not yet arranged for; and altogether it is safe to predict a Town Fair that every resident will take an unusual amount of pride in.

One year ago, in August, a Pop Concert was given to assist in raising funds to defray expenses of the Town Fair; this proved a very successful occasion, and a competent committee has a similar concert in charge, for the same object, to be given in the Antrim town hall on the evening of Friday, August 22. We hope to give something definite regarding the arrangements next week.

ITS 125TH ANNIVERSARY

The Presbyterian Church Ready For a Fitting Observance

The Presbyterian church will observe the one hundred and twenty-fifth anniversary of their organization the week beginning August 3. Extensive preparations have been made for a fitting observance, and herewith is given the program:

- Sunday, August 3. 10.45 a.m. Anniversary Service and Sermon.
- 7.00 p.m. Union Service, "Greetings" from our Sister Churches, by the Pastors.
- Monday, August 4, at 8 o'clock. Organ Dedication and Recital. Mr. C. E. Saunier of Boston, Organist.
- Tuesday, August 5, at 8 o'clock. Stereopticon Lecture. "In Old Japan," by Rev. Albert Arbuckle.
- Wednesday, August 6. Reception at 5.30; Banquet at 7 o'clock.
- Thursday, August 7, at 4 o'clock. Outing, Picnic and Old Time Sing, on "Meeting-house Hill."
- Friday, August 8, at 8 o'clock. Concert, under the direction of Ralph G. Winslow, of Boston.

It is the earnest desire of both pastor and people that the general public should understand thoroughly that all of these services are public and a cordial and hearty invitation is extended to everybody to be present at as many of them as it is possible to attend.

The new church organ is in position and was used in the service on Sunday last and will also be used next Sunday, yet the dedication will be held Monday evening, August 4.

Rev. Mr. Arbuckle, pastor, takes pride in stating that the church's share in payment of organ—\$1022., has been paid in full for which he hold the receipt; Mr. Carnegie's share in addition to this is \$775.

ANTRIM LOSES

Henniker conquered Antrim at Henniker last Saturday by a respectable score of 6 to 3. Whitney pitched a better game than usual, allowing but five hits, but two or three of his team-mates bunched six errors and threw the game away.

Muzzey, Henniker's heavy hitter, failed to get a hit! It is said that the umpire discovered that Muzzey was using a "loaded" bat, and of course the Ump. took him to task for it. Do we now see through the secret of this batting phenomenon? Well, we should worry!

Two of our four hits were secured by Lynch in four times at bat. The other two hits are credited to Jim Cuddihy and Colby. The latter's was a pretty hit and allowed Jim to cross the plate with the third run.

This game concludes the first half of the schedule of the League. As the teams start on their last half we predict some fast exhibitions on the diamonds. We expect our home team to win a few games now, as too many consecutive defeats have been the result lately.

Hillsboro added one more game in the proper column Saturday by winning from No. Weare, 11 to 5; 12 to 10 hits and 6 errors each. Hillsboro is gradually going towards the top.

The standing of the league teams is as follows:

Team	W	L	PC
Henniker	8	1	.889
ANTRIM	5	4	.556
Hillsboro	4	5	.444
North Weare	1	8	.111

HOLD BASKET PICNIC

Board of Trade Accepts Hearty Invitation Just Extended

R. H. McCleary, president of the White Birch Point Improvement Association, has extended to the Antrim Board of Trade, and through them to the town's people and summer guests, a most cordial invitation to assemble at the "Point on Aug. 23d next," for the purpose of holding a get-together and get-acquainted day. This invitation has been accepted by the Board of Trade, who have appointed the directors a committee to work with the committee from the Association; it is assured with the hearty co-operation of the people that a jolly good time will be had, and thus it will be a great help to the good old town of Antrim.

Boat races, canoe races, swimming matches, diving, and other aquatic sports will be held, open to all, men or women, boys or girls.

Now, let's get together on this get-acquainted day, and find out a little more and realize more fully the good we are receiving from these people who are spending from two to three months with us every year.

Also, watch out next week for a full program of the Town Fair, and do all you can to make it a more successful Fair than we had last year, if possible.

W. E. GIBNEY, Secretary.

A petition is being circulated among the residents of White Birch Point, at Gregg lake, and the residents of Clinton Village, asking for a morning delivery of mail along the route in addition to the present afternoon service.

The Flowers of the Fall Time

By Wilbur D. Nesbit

*The flowers of the fall time are the best;
Above the fading grasses now they blass,
Rare jewels left in nature's bounty chest,
Poured scattering along the autumn ways.
The hollyhocks are braver, redder, now—
Their banners flashing bold before they fall,
They are resolved to die before they bow
In homage to the distant winter's call.*

*The morning glories have a deeper hue
And riot into blossoms as they twine;
They drink a gay farewell in morning dew
And flaunt the frost defiance from each vine
The cosmos flowers sparkle in the dawn—
All fairylike the fragile shapes appear,
As echoes of the flowers that are gone,
As stars that stud the twilight of the year.*

*The dahlias swagger, nonchalant and rude,
And crowd the meeker blossoms from the way;
The asters make a picture many hued,
Framed in the drifting haze of autumn gray;
White clematis all snowlike idly cling
Where leaves already turn to brown and gold,
And looses perfume that each zephyr flings
Above the page where summer's tale is told.*

*Across the fields and by the country roads
Are scarlet blooms that mock the setting sun,
And goldenrod lifts up its treasure loads
To show what El Dorado it has won,
And so with bloom ablaze, with changing leaf,
The patient year leaves slowly to its rest
With flower laughter that makes light of grief—
The flowers of the fall time are the best.*

OLD COINS AND BONES FOUND

Thought to Be Relics of French Naval Expedition of American History of 1746.

Within the last few years parts of human skeletons and old coins have been washed out on the beach at Spermacete cave near the old Highlands. The bones and other relics come from Skeleton hill. The winds and tides acting on the base of the hill cause the land at the top to slide down to the beach, thus unearthing the bones and other relics.

Although many stories are told of how the bodies came to be there, the one receiving the most credence is that the men were part of the expedition sent out by France to avenge the capture of Louisburg by the colonists and English troops. This expedition left France in 1746. During the voyage several of the warships carrying the troops were wrecked. Later a pestilence broke out among the crew, killing hundreds of men. The admiral in command, in despair, committed suicide, as did his successor.

It was planned to attack the colonists in Massachusetts and then to devastate all the settlements as far as Georgia. Most of the coins found were dated about the time this expedition started. It is generally thought that the bodies found were those who died from the plague and were buried by their shipmates.

Skeleton hill is owned by the government. No one is allowed on the property without a permit. But for this fact the place, no doubt, would have been dug up long ago by treasure hunters.—New Jersey correspondence New York Times.

Few Grizzly Bears Left.

A report issued by the state fish and game commission says there is a scarcity of grizzly bears in California, there not being more than a half-dozen known to be left of all the hundreds that used to roam the Sierras. The statement is also made that 80,

000 deer are killed annually in the state, 10,000 by hunters and the remainder by mountain lions, coyotes, and other animals that prey on them.

At the Indoor Fair.
Helper—We're going to have a big crowd here, and it'll be some job to keep 'em moving.
Manager—That'll be easy. Take down that rear exit sign, post up the word "Free" and they'll all bolt for it.—Judge.

Lock of Room.
I do not in a hammock swing,
But don't deserve applause for that;
There's just no place to put the thing,
Because I'm living in a flat.

She Had the Preference.
Father (angrily entering parlor at 12:30)—Look here, young man? Do you stay as late as this when you call on other girls?
Jack Huggard (trembling with fear)—N-n-n-no, sir!
Father (appeased, as he leaves the room)—That's all right, then! (Aside.) Thank heaven! Mary has caught on at last!—Puck.

Queer Things these alleged wise saws. "Know thyself" for instance. On the other hand, "familiarity breeds contempt." How do you dope that out?

TIPS

Big chances are spread very thin over a life's work.

It doesn't take much to make a friend, and just as little to lose one.

One neglect, no matter how trifling, will rile the clearness of a long established bond of affection.

And, too, where doubts of us exist, one little thoughtful thing will dispel it all.

So many men make the serious mistake of conserving their efforts for big things.

JUST HUMOR

Welcome to Our City.
 "Do you like the English writers of travel essays?" asked the man, who had nearly run out of conversational topics.
 "No," answered the patriotic girl; "they all abuse America. Do you like them?"
 "Yes, I am enthusiastic about them."
 "But you are a Chicago man, and they all roast Chicago?"
 "I know. But they seem to think that Chicago is America, and they devote the most of their space to roasting Chicago. Why shouldn't we like them?"

Effective President.
 "Bosh!" said Mr. Nervpop, after Mrs. Nervpop had expressed the wish that a woman might be president of the United States for just one week. "What could she do?"
 "What could she do?" retorted the lady. "I tell you this, James, that if I could get into the White House with a couple of good Swedes to help me I'd do more in a minute than any president we've had in 20 years with both houses of congress and his cabinet behind him!"—Harper's Weekly.

Old Shoes.
 "Have you got any old shoes about the place?" said the tramp. You see, these I'm wearin' has been around a good deal."
 "Well, I've got a pair of old shoes and they've been around a good deal more than yours," replied the man, at the door. "They're on my automobile."

Going Too Far.
 "You remember the saying that a sucker is born every minute?"
 "Oh, yes. Still, I think there is a limit to most people's gullibility."
 "For instance?"
 "Nobody has yet had the assurance to advertise that he could make old automobiles look like new."

WOULD THINK SO.

Cholly—I just saved a girl's life and she promised to marry me.
 Molly—Didn't she prefer to drown?

Something Missing.
 Rev. Mr. Johningham had depicted beautifully the wonders of the thither shore, including the milk and honey rivers which nourish the blessed, but after service one of the brothers sought him eagerly.
 "Reberend," he asked, "am milk and honey all dey hab over yondah?"
 "Yes, brothah."
 "No chicken?"
 "No, brothah."
 "Or pork chops?"
 "No, brothah."
 "Pos am and sweet tators neithah?"
 "No, brothah."
 "An' nary a watermillyun?"
 "No, deah brothah."
 "Den, reberend, does you think the Lohd was calculatin' on de cullud man when he built dat place?"

Good Guesser.
 "You are about to meet with a financial loss," said Bunco the Seer as he gazed into the future of the caller.
 "What are your charges?" asked the caller as he picked up his hat.
 "Ten dollars," replied the seer.
 "You are some predictor, ain't you?" said the caller as he handed over the coin.

"It don't cost half as much to live if you're unpopular."
 "Some fellows ought to use fenders when they eat soup."

"It takes a pretty smart fellow to admit he didn't know."
 "Even the commonest loafer always whistles the latest tunes."

"Some fellows pay a compliment as if they expected a receipt."
 "The fellow that's short in his accounts is always long on something else."

"Folks that blurt out jist what they think wouldn't be so bad if they thought."

"After a plaintiff gets through with the courts he's too old to spend his damages."

"Nearly every girl has two fellows; one that she likes and one that spends his money freely."

"The trouble with our spasmodic prosperity is that a fellow talks half the time about curbing expenses, and the other half about buying a motor."

HAPPENINGS IN THE CITIES

Conductor Finds \$5,000; Gets 50 Cents Reward

BALTIMORE, Md.—Fifty cents was the reward given to a conductor of the local street railway company for the recovery of a package containing \$550 in cash and \$4,000 in certified checks.

When Andrew Anderson, a conductor on the Ellicott City line, found a carefully wrapped package lying on one of the seats of his car when nearing the barn he had no idea that in the parcel there was so much money and negotiable checks.

"Here's a package I found on the car," he shouted, as he tossed the package to the dispatcher. "Someone probably will claim it."

Someone did claim it. Just thirty minutes later a man rushed into the car barn and excitedly asked if a package had been found on one of the cars.

"What sort of a package? Describe it," said the dispatcher.

"Well, it was wrapped in paper and

about this long," said the much-perturbed inquirer, as he used his hands to describe the size and width of the package.

"Is this the package," asked the dispatcher, as he displayed the one that Anderson had found.

"Yes—that's it. I'm so glad it was found," replied the visitor as he reached for it.

"Well, you will have to tell me what it contains in order that I can be certain that it belongs to you," replied the dispatcher.

"It had \$5,000 in it—I mean \$550 in cash and the balance in checks," said the visitor.

The dispatcher opened the package and found that it contained just what the stranger had stated. The man then said that he was W. B. Denison and that he lived in West Lafayette avenue.

As the package was handed to Denison, he tossed the dispatcher 50 cents, and said: "Give that to the conductor for his honesty."

Denison then left.

An hour later Anderson returned to his car to the barn. The dispatcher summoned him and told him what the package had contained, and that it had been claimed, and gave him the reward.

"By Jove," shouted the conductor. "Thank you for the reward."

Humans Are Made Crabs by Side-Seated Cars

CLEVELAND, O.—Thin, anemic men who are unable to do a day's work, and frail little women attain a record for muscular exertion which could not be surpassed by the strongest athlete every time that they ride in a side-seated street car, according to computations made by Councilman E. M. Bieder. They are compelled to push against a force of probably half a ton every time they make a trip upon one of these cars, he declares.

Councilman Bieder has been making an investigation of the subject, with a view to legislating out of existence cars with seats running lengthwise. He doubts, though, that the council has the authority to pass the legislation, and he may take the matter up with the board of health as a health regulation.

"Man is not a crab and cannot move sideways with any degree of ease," said Mr. Bieder the other day. "His muscles are not formed for that mode of advance. Let anyone who is in doubt on this subject try to run sideways for a hundred yards at a fair rate of speed. The strain upon the muscles will cause a contraction resembling paralysis."

"The forward movement of a street car, with its sudden stoppage and

jerks, is a constant strain, and muscles which are not adapted to it are compelled to take up the burden of holding the body more or less rigid against the force which sways one rearward as the car advances and forward as the car is checked. To sway the body backward or forward from the hips entails practically no fatigue, for almost every movement of the body is accompanied by this, but to sway sideways is tiring in the extreme.

"When a street car traveling ten miles an hour is brought to a stop the checked velocity is equal to a pressure of ten pounds upon the area of the surface of every passenger, or when a car traveling at an ordinary rate of speed comes to a stop it is equal to every passenger being pushed from his balance by a ten-pound weight."

Turns in Fire Alarm and Races Cop on Wheel

DETROIT, MICH.—Francis Sheahan, four-year-old son of Col. P. J. Sheahan, attorney, merely wanted to see the engines dash up the street when he turned in a false alarm the other afternoon from Second avenue and High street.

Pedaling up the street on his velocipede, Francis came to a halt in front of a red-painted post surmounted by a small box of the same bright hue. The box presented possibilities to his young mind and he set about devising ways and means for calling the fire department to the scene. He could not reach the glass. Obtaining a small stick, he smote the pane and shattered it.

This done he mounted to the saddle

of his velocipede and hooked his forefinger in the iron ring. The rest happened automatically. The wheels of the velocipede started in motion and Francis' whole weight was thrown on the chain attached to the alarm.

Frightened at what he had done, Francis again mounted his trusty iron steed and started to run for it, going down the street as fast as his little legs could work the pedals. He had not gone half a block, however, before the fire engines, a motorcycle patrolman and the motor car patrol rushed into the street with a roar, and he was pointed out as the culprit by a crowd of boys which had collected and witnessed the proceedings.

Francis' puny efforts to put a distance between himself and the scene of his little escapade were as naught compared to the power of gasoline in a motorcycle. He was quickly captured and taken home to his father.

History does not relate what happened before the interview concluded, but it is said the family slipper was used in the traditional manner.

BLUE AND DISCOURAGED

Mrs. Hamilton Tells How She Finally Found Health in Lydia E. Pinkham's Vegetable Compound.

Warren, Ind.—"I was bothered terribly with female weakness. I had pains and was not regular, my head ached all the time. I had bearing down pains and my back hurt me the biggest part of the time. I was dizzy and had weak feelings when I would stoop over, it hurt me to walk any distance and I felt blue and discouraged.

"I began taking Lydia E. Pinkham's Vegetable Compound and am now in good health. If it had not been for that medicine I would have been in my grave a long time ago."—Mrs. ARTIE E. HAMILTON, R. F. D. No. 6, Warren, Ind.

Another Case.

Esmond, R. I.—"I write to tell you how much good your medicine has done me and to let other women know that there is help for them. I suffered with bearing down pains, headache, was irregular and felt blue and depressed all the time. I took Lydia E. Pinkham's Vegetable Compound and commenced to gain in a short time and I am a well woman today. I am on my feet from early morning until late at night running a boarding house and do all my own work. I hope that many suffering women will try your medicine. It makes happier wives and mothers."—Mrs. ANNA HANSEN, Esmond, Rhode Island.

FOR THOSE IN HIGH PLACES

Immense Cost of Imperial Porphyry
Put It Beyond Reach of All But
the Very Rich.

All students of the sculpture and architecture of the Imperial Roman age are familiar with the magnificent purple stone known as imperial porphyry, but it is probable that but few of the students know of the immense difficulties that were encountered in the procuring of the stone so much esteemed in that age of luxury.

Weigall, who personally visited the region whence this stone emanated, reached the conclusion that the great distances between the quarries and the places where the stone was used must have given the price a "boost," so that the porphyry was beyond all except the rulers of the earth.

It appears that the quarries from which this porphyry was obtained are situated in the eastern Egyptian desert, that region known as Gebel Dukhan, "The Hills of Smoke." The desert is about 27 miles from the Red sea, opposite the southern end of the peninsula of Sinai.

The quarries extended here and there into the hillside without any resemblance of regularity. The blocks of porphyry were pried from out of the rock wherever the work could be most easily done. They were transported down the Nile, and, in fact to Rome, in the rough. This purple porphyry was not known to the ancient Egyptians. Some Roman prospectors must have scoured the desert to find it. The barren coast of that region was harborless. Each block of porphyry must, therefore, have been carried across the desert to Kench, on the Nile, and thence shipped by river barge to the sea. Then it became necessary to transship it to the great Mediterranean galleys, and thus conveyed across the treacherous waters to the port of Rome.

There is no other place in the world where this porphyry is to be found, and when the quarries ceased to be worked, some time previous to the seventh century, the use of that stone had to cease also, nor has it since been procurable.

How He Settles.

"I understand your husband is a man of great abilities."
"He certainly is. He beat up four bill collectors yesterday so they can't come back for six months."—Fliegende Blätter.

Why Not?

Knicker—Think the stock exchange should be regulated?
Bocker—Yes, it should be arranged for stocks to go up when you buy and go down when you sell.

A young man played a mean trick on four modest young women in the theater of a small town in York state recently, records Bide Dudley in the Morning Telegraph. The girls knew the youth, but had snubbed him at the door of the playhouse by refusing to speak to him. He decided to "get even."

The girls occupied the first four seats in the sixth row and the young man had the fifth seat. They paid no attention to him whatever. During the early part of the program a monologist came out on the stage and began to talk about love. It was then that the snubbed young man got his chance to square accounts with the girls. Suddenly the monologist asked, "Will all the girls who are in love please stand up?"

Turning to the girl next to him the young man said: "Please let me out."

Naturally, the whole four had to rise to let him go by. When they were once on their feet the young man settled back in his seat and grinned. The rest of the audience roared in glee.

1,250-Foot Ships in 1930.

At the first international congress of maritime navigation in Philadelphia it was predicted that in 1930 the twenty largest boats on the Atlantic will have an average length of 1,100 feet, with a beam of more than 100 feet, and a draught of nearly forty feet.

A forecast, however, made several years ago for 1923 materialized last year, and it may well be that this forecast for 1930 will find itself an actuality fifteen or twenty years sooner than the time prophesied.

Work being done to better docking facilities all over the world gives a slight indication of what may be expected. The plans for the new locks of Tilbury dock provide for ships of a length of 1,250 feet, a width of 130 feet and a draught of 30 feet. The Suez canal is to be deepened to 39 feet by 1915.

On Sir Henry Irving.

"He was a very loyal and faithful friend, he never forgot those who had been kind to him, or who had shared his affections in his early obscure days."

That rare tribute appears in Hon. Stephen Coleridge's just published "Memories," and it is paid to Sir Henry Irving.

MOST SILENT CLUB IN WORLD

It is Located in London, England, and
Called the National
Deaf Club.

London boasts possession of the most silent club in the world. It is called the National Deaf club, and the moving spirit and president is A. J. Wilson, who, despite the handicap of being deaf and dumb, conducts a most successful business in the city. Of course, the National Deaf club is a unique institution. There are no talkative waiters, no electric bells, no large print notices calling upon members to be silent in this or that room.

Nearly two hundred members use the premises, in which they can dine and wine or play cards and billiards whenever they like. Women are admitted and at present form about a third of the roll. Bells being unnecessary, signs are resorted to. Thus when one presses the bell of the hall door a red light appears over the doorway and brings the attendant at once. A similar arrangement notifies the waiter when his services are required.

Those fortunate persons who can speak and hear and who have been privileged to watch a game of billiards declare it is more than a relief to see a contest where neither party voices his grievances as he goes along. There are no criticisms of the table, the balls or the cue. Everything is peaceful and quiet. There are some remarkable men belonging to the National Deaf club. One, for example, is head of an important railway firm in Syria and has under his control hundreds of men of all nationalities.

Another member has traveled over the world a record number of times, always unaccompanied, and though he has been in many uncivilized lands has always been able to look after himself. Then there are members who earn their own living in various professions. One actually teaches music; another is a nurse. There is an annual banquet for deaf and dumb persons, which is usually presided over by some eminent mute.—Chicago Tribune.

Handy Emergency Man.

"Why do you want a dentist on board of your yacht?"
"So he will know how to manage in the teeth of a gale."

After the match this Crispin is the model that well-dressed men will wear on the Country Club piazza.

To really enjoy associating with well-dressed people you want to have perfect freedom from self-consciousness. And this can be attained only by scrupulously correct dress. This Crispin model provides you with a custom-looking boot that is entirely proper for its particular purpose. And you will find it worn this Spring by thousands of well-dressed business and professional men who favor a medium broad toe shoe with flat tread, broad shank and the new, English style heels with flaring "right and left" effect.

INCONSEQUENTIAL DETAIL.

"Hello!"
"Hello!"
"Is this Dr. Fourthly?"
"Yes."
"This is Mrs. Dorkins. Say, doctor, is that new chapel on the west side ready for use?"
"Not yet, Mrs. Dorkins; we expect to open it—"
"I beg pardon, but there is so much noise here that I can't quite—"
"I was saying that we expect to open it in a few weeks."
"Yes? What arrangements have you made for music?"
"As to that I can only say that we have an organ deal on—"
"O, doctor, I don't care whether she wears an organdie lawn or a silk poplin. Has she a good voice?"

Her Wish.
A Baltimore man tells of receiving a unique note acknowledging a wedding present sent by him on the occasion of the marriage of his chum.
"Your lovely etching was received," wrote the bride, "and gives us both pleasure. It is now in the parlor hanging above the piano, where we hope to see you very soon, and as often as you find it agreeable."

Life Among the Lowly.
"Being poor has some recompenses," remarked the lady with the wealth of imported hair.
"How now?"
"When another society dame insults me, I have to take it. But my washerwoman gets a warrant every week for one of her numerous lady friends."

MANY SHY AT IT.

"Truth is stranger than fiction."
"Yes, and the majority of men seem to be shy on associating with strangers."

Oh, Laura Jean!
A chap within a drug store stood,
A picture of the blues;
He saw the talcum powder there
His lost love used to use.

Pay Day.
Creditor—I should like to know when you are going to pay this bill; I can't come here every day in the week.
Debtor—What day would suit you best?
Creditor—Saturday.
Debtor—Very well; then you can call every Saturday.

A Reason.
"How is our old friend, Doc Chasem?"
"I don't know. I haven't seen him for six months."
"Why, you used to see him every day?"
"I know, but that bill has been paid."

Nothing in It.
Patience—I understand thieves broke into your father's office and cracked his safe.
Patrice—They did, but didn't get anything.
"Wasn't what it was cracked up to be, I suppose?"

ANOTHER DARK SECRET.

Customer—Why in the world do you have such dark-looking soup plates in this place?
Waiter—Sh! That is a trick of the boss. In dark plates the soup don't look so thin.

Crawford Notch Again in the Limelight—Expensive Litigation Probable—In Trouble—Girls Fight Fire.

Concord.—The purchase of the Crawford Notch, which the last legislature is supposed to have settled, has again come to the front with the prospect of an expensive law suit for some one. It will be remembered that the legislation in the session of 1911 left the matter in such shape that the state took the property by right of eminent domain and a commission was appointed to determine the value of the land so taken. The members of the commission examined the property and made their awards to the known owners of the property. A few days ago it was discovered that a check for \$62,000 had been drawn in settlement of a portion of the awards, payable to Leslie P. Snow, an attorney of Rochester, Governor Felker's town.

Now the Forest Products Company comes forward and makes a claim that nearly half of the land examined by the commission, and on which the award was made, is the property of that corporation. It in some way leaked out that a payment was to be made several days ago, and Allen Hollis, counsel for the Forest Products Company, made a legal demand upon the state treasurer to hold it until claims to ownership of clients represented by him could be investigated. This was not done and Governor Felker took the check from the state treasurer and personally turned it over to Snow. The voucher was not to be found in the office of the state auditor last week. The claims of the Barron Hotel Company, one of the owners, has not been determined, and the Forest Products Company claim that it has been left out of the proceedings altogether. It is said that counsel will at once institute proceedings against the state to recover, either by bringing a suit against the state in the Federal courts, by a suit against the state treasurer, or by quo warranto proceedings against the governor.

Seems to be in Trouble.

Keene.—Ellsworth W. Debell of Chesterfield seems to be playing in hard luck just now. Three years ago he married Mrs. Sylvia M. Forbes at Hoosic Falls, N. Y., after an acquaintance of three days. That the marriage was not a perfect union is indicated by the fact that he came to this vicinity and last April married Miss Ruth Graves, aged 15. His first wife pleads guilty to 51, and when she heard of the second marriage came on and interviewed the pair with a copy of the marriage certificate. The result was that Debell found himself in district court Saturday afternoon on a charge of being a bigamist. The copy of the marriage certificate was not certified and consequently Debell is held until that formality is completed. The certified copy is expected during the week and Debell will probably find out what is coming to him.

Girls Fight Fire.

Wilton.—Miss Alice Boomer and Miss Julia Hogan of Everett, Mass., are visiting in this town and last Friday they discovered a fire in the grass beside the railroad soon after a train had passed. They seized some brooms and rushed to the scene, where they succeeded in holding the fire in check until the department with chemicals and a bucket brigade got it extinguished. But for their prompt action the fire would probably have reached some woods and many acres of valuable timber been burned over. One of the girls lost her eyelashes and the other was badly burned on the arms.

Aged Woman Falls in River.

Gonic.—Mrs. Severine Gagnon of this village went to the Cochecho river, which runs back of her home, Friday afternoon to dip up some water. While doing so it is supposed

ed she was seized with a sudden dizziness and went head first into the river. She was seen as she sank for the last time and a party of men removed the body from the river as soon as possible. She was 80 years of age and came from Canada, but had lived here for many years. She was a prominent member of several French societies.

Struck by an Engine.

Concord.—Mrs. J. Henry Drake of this city was struck by an engine while walking beside the track and so seriously injured that she was taken to a hospital. It was found that her right arm and shoulder were badly shattered. Mrs. Drake has been spending a few weeks in Bow just below this city, and was on the way to take an electric car to come into town. She was walking beside the track when some part of the engine on one of the evening trains struck her and she was hurled several feet.

CUSTOMERS ARE WONDERING

Exeter.—Ira E. Weare is a tea merchant who travels through Rockingham county selling his wares. He travelled the better part of last week, calling from house to house. Early in the week he noticed a rash and felt an itching. He applied the usual lotions for the gypsy moth itch, but without effect. Friday he consulted a doctor who informed him he had smallpox. Weare was at once quarantined, and the doctor thinks the case is not dangerous. The people to whom he has been selling his wares are not feeling easy in their minds, and wishing he had not called on them.

Loses Money and Watch.

Dover.—Late last week a party of three men came here from Conway in a touring car. They immediately proceeded to look the town over, and it is said that at least two of them saw the inside of several saloons. They went to a local hotel where two of the party went to bed, where it is claimed that F. H. Howley relieved A. C. Lary, another member, of \$100 in cash and his gold watch while he slept. A five dollar gold piece was identified in a saloon where it had been exchanged for paper money. Howley has been in Conway for some time, where he represented himself as a big lumber operator.

Nothing Doing.

Concord.—There was no meeting of the governor and council last week and consequently no appointments were made to fill the vacant offices. This is the month that the money received from license fees is distributed among the various towns and cities, and many of them anticipate its receipt in arranging to meet current expenses. About \$300,000 awaits the appointment of some one with authority to send it out to the towns and counties, but until the governor makes the appointment of a license commission nothing can be done in the matter.

Stuck in the Sand.

Portsmouth.—A New Hampshire party motored over to York Beach one day last week and while proceeding along the beach the auto became stalled in the sand. The tide was coming in, all efforts to start it were fruitless and it began to look pretty serious for the machine. It was stripped of everything movable which was carried beyond the reach of the tide. Just as the water was beginning to wash the lower part of the car help arrived from a garage and the machine was pulled onto firmer territory.

Another Strike On.

Penacook.—The operatives in the New Hampshire Spinning mill went out on a strike on Thursday noon of last week. It is said that there is no other cause for the strike than the granting of a 55-hour week to the employes of the Concord Axle company, which was done the Saturday previous. A strike in the same mill was settled not long ago, and it is probable that the owners may shut down the mill indefinitely, as they feel that the employes have not kept faith with them.

Will Improve the Road.

Franklin.—In anticipation of the Webster birthplace celebration on August 28 the committee in charge desired the road put in good shape for that event. Private loans were offered for that purpose, but the city government has decided that they will not be necessary, and Highway Commissioner Gordon put a crew of

men at work Monday and \$1,000 will be spent in putting the road in first class condition.

BRIEFLY TOLD.

The grange at Lebanon has given \$25 to the district nursing association there.

The barn and L owned by B. Frank Perkins were burned at Farmington July 15; loss \$1,000.

Richard Garland of Berlin lost his right hand by the premature discharge of a cannon cracker.

The president has sent to the senate the name of Frank P. Hobbs for postmaster at Wolfeboro.

John Parris of Portsmouth was thrown from a team, his wrist broken and his scalp badly torn.

Harvey Cheney of Littleton is in the Haverhill jail, awaiting trial on a charge of criminal assault.

County authorities visited Auburn Danville, Kingston and East Kingston Saturday night on a liquor raid.

John J. Hogan of Springfield, Mass., was sent to jail for six months at Manchester for the attempted theft of an automobile.

A babies' hospital tent is a successful innovation of the Suncook district nursing association during the hot weather.

James Littlefield of Dover fell down a flight of stairs with a baby in his arms. The infant escaped uninjured, but Mr. Littlefield broke both bones in one leg.

John Flynn and Frank Ready of Lynn, Mass., have been bound over on a charge of stealing a \$5,000 automobile in Portsmouth.

Four generations assisted in the celebration at Chester of the 96th birthday of Mrs. Clara Leonard, who never has worn spectacles and reads with ease today without them.

The captain of the steam yacht Swallow was stricken with a shock just as he was tying up to a wharf at The Weirs and his condition was not discovered until the next day.

Suffered Twenty-One Years— Finally Found Relief

Having suffered for twenty-one years with a pain in my side, I finally have found relief in Dr. Kilmer's Swamp-Root. The physicians called it "Mother's Pain" and injections of morphine were my only relief for short periods of time. I became so sick that I had to undergo a surgical operation in New Orleans, which benefited me for 2 years. When the same pain came back one day I was so sick that I gave up hopes of living. A friend advised me to try your Swamp-Root and I at once commenced using it. The first bottle did me so much good that I purchased two more bottles. I am now on my second bottle and am feeling like a new woman. I passed a gravel stone as large as a big red bean and several small ones. I have not had the least feeling of pain since taking your Swamp-Root and I feel it my duty to recommend this great medicine to all suffering humanity. Gratefully yours,
