### ANTRIMS WIN AND LOSE

#### Labor Day Baseball Games Close and Interesting— Scores 3 to 0 and 4 to 0

Labor Day in Antrim was featured by two baseball games between the John C. Paige Co., of Boston, and the Antrim team. Honors were slightly in favor of the home boys. The visitors won the morning game 3 to 0 and the locals won in the afternoon, 4 to 0. It is rather unusual to have two shutouts divided like these.

#### MORNING GAME

Webb was on the mound for the Paige Co. in the morning, and Mulhall pitched for Antrim. For the most part each was given good support and pitched in fine shape. Three singles in the 5th were made to produce three tallies for the Paige aggregation and although Antrim was in a position to score frequently, the necessary punch was lacking.

Features were two baggers by A. Thornton and Bent, the base running by Upton who beat out a pretty bunt,

Upton beat out a bunt in the 7th, but was left on 3d

#### AFTERNOON GAME

Antrim came back strong in the afternoon and administered a shut out to their opponents by a slightly larger margin than in the morning. Belger pitched a great game for the home team and the boys gave him the best of support.

Life-saving features of the game so far as Antrim was concerned were a remarkable one-hand catch by Brooks,

Brooks speared a fly with one hand

a two-base hit by Raleigh, the base stealing by most of the Antrims, and Town's catching. By quick work and snappy playing by his team mates "Ernie" was able to kill two chances which the visitors had of getting runners across the home plate.

The John C. Paige Co., of Boston, played good baseball and showed themselves to be good sports. They are a clean, active aggregation of players and appeared to greatly enjoy their outing in Antrim.

Statements of Newport Citizens Are Always of Interest to Our Readers

To many of our readers the streets of Newport are almost as familiar as those of our own town, and we are naturally interested to read of happenings there. The following report from a well-known and respected resident will be helpful to numbers of men and women here in Antrim.

H. O. Hutchison, Maple St., Newport, N. H., says: "My back occasionally becomes lame and sore across my kidneys. I blame the trouble to being on my feet a great part of the time and to being confined inside. I have found Doan's Kidney Pills excellent for that trouble. They not only remove the pains in my back, but strengthen my kidneys."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Taylor had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

## About Advertising

It costs money to advertise in a paper of circulation and influence in the community. Every business man who seeks to enlarge his trade, recognizes the fact that advertising is a legitimate expense. It is not the cheapest advertising that pays the best. Sometimes it is the highest priced newspaper that brings the largest net profit to the advertiser.

**NORTH BRANCH**

Geo. Symes has been visiting his mother the past week.

Mr. and Mrs. Fred Carr visited at M. P. McIlvin's recently.

Arlene Grant has returned to Maine with her aunts for a visit.

Harold Grant, from Manchester, was at his home for Labor Day.

Harian Swett was on an enforced vacation several days the past week.

Justin Hutchinson recently sold a fine heifer to parties in Lowell, Mass.

Mrs. Walter Russell and children were at Mrs. H. P. Conn's for Labor Day.

Mrs. S. J. Pope will board the teacher, Miss Charter, for a few weeks.

Mrs. Huldah Wing and son, George Symes, visited at Saxon's River, Vt. recently.

Mrs. W. H. Toward has returned from a visit with her children in Massachusetts.

Percy Peabody met with a slight accident recently, from too close an acquaintance with a drug.

Mrs. M. H. Underwood, of Winchendon, Mass., and children are at the bungalow for a few days.

Mrs. Carrie Dale and friends, from Medford, Mass., were calling on friends at the Branch Sunday.

Kenneth Boutelle and lady friend, of Winchendon, Mass., were calling on his uncle, H. E. Boutelle Sunday.

Mr. and Mrs. Jas. Rogers and son, of East Dedham, Mass., was at the George Rogers place on business recently.

Mr. and Mrs. Lovell, Mr. and Mrs. Hardin Ford and Earl Prescott spent the week end with Mr. and Mrs. Toward recently.

The Circle at McIlvin's passed off very nicely with only one accident, the loss of a man, but later reports say he has been found and is again at work.

Mrs. Grant and Harry Pike, from Boston, were at W. D. Wheeler's for the holiday; also his uncle, Elmer Wheeler, and family, from Claremont, visited there Sunday.

The remains of George C. Rogers were brought to Antrim, accompanied by his brother and brother's wife, and his nephew, George E. Rogers. Services were held at the Congregational church at Antrim Center, Tuesday, Aug. 31, conducted by Rev. Chas. H. Chapin, with singing by Miss Gertrude Jameson. Interment was at Maplewood Cemetery.

The Circle supper at M. P. McIlvin's was well attended, 60 being present, with plenty of food for all. We hope the Branchites are still keeping up their reputation of good suppers. If in doubt, ask the genial proprietor of the Reporter, as we noticed his face among the number around the table. After supper a social time was enjoyed by all.

We give the names of some of the old residents who were in town recently to attend the old school reunion:

Timothy Herrick and wife, Staatsburg N. Y.; Mrs. Wm. Applin and daughter, W. D. Tuttle, Mr. and Mrs. Milan Jones, Mrs. Belle Cole, Charles Stacy, Keene; Mrs. Mary Byer and daughter Myrtle, Walter Byer and family, Mrs. Grace Woods, Mrs. Grace White, Peterboro; Albert Cheney, Pittsfield; Mrs. Laura Peasey and son Fred, Maine; John Clement and family, Will Clement and family, Dr. Sawyer, Mrs. Alice Shaw, Mrs. Eva Fearing, George Newman, Mrs. Harlin Ford, Earl Prescott, and many from Hillsboro and Antrim. We hope we have not omitted anyone who came from a distance, if so we would be pleased to receive the names next week for publication.

**FOUND OLD FRIEND ON BOARD**

Hope Followed Despair When Returning Doughtboy Discovered Copy of Famous Sea Story.

I came aboard the transport reviling my luck, says Robert Palfrey Utter in the Review. My locker and bed roll were in France and I had neglected to bid them good-by; I had nothing but musette and kit bag, in which I had been living for a month. The limping old Mudjokeewis was the shabbiest tub in the service, slow, devoid of comfort. Her engines took a day off every week. Her smoking room was given over to clacking typewriters which manufactured colored tissue paper orders for the decoration of the main companionway. The white-and-gold music room was no place for one who was constitutionally unable to derive solace from craps or poker. But when I discovered that the ship's library had survived the ravages of war, I began to see the hand of providence. As I reviewed the backs of the 50-odd most respectable volumes in the tough brown calf, my locker and bed roll "fell from my back and began to tumble, and so continued to do" till I thought of them no more. I was free as air in spite of the livery I wore. I tossed a polished copy of "Mr. Midshipman Easy" into my berth, cast off my shining greaves and brass-mounted regalia, chinned myself on the T-iron that ran across the top of the state room, swung my legs over the edge of the berth and dropped after them. I opened the port hole to the deck and the summer night, disposed tobacco and other necessities in the wall pockets, started the fire in a well-crusted briar bowl, and forthwith I was in company with an old friend whom I had not seen for years—"By 9 o'clock that evening Mr. Jack Easy was safe on board his majesty's sloop Harpy."

**WILL BE BOON TO INVALID**

Independence, Comfort, and Exercise All Provided in New Chair Propelled by Electricity.

A new era of independence, comfort and exercise is promised to invalids in an electrically-propelled chair that is now being made by a firm of surgical engineers in London.

In appearance it is little more than a very comfortable, luxuriously-suspended bath chair or invalid's carriage. The propulsive motion is electricity. It is silent, travels a distance of over twenty miles on a single charge and has four speeds, ranging from a crawl up to five miles per hour.

The control is said to be so simple that any person, no matter with what disabilities, can sit in the carriage and start right away, and it is fitted with reverse on all speeds. It is only necessary to hold the steering lever with the left hand and gently push over the controller handle with the right hand. The use of the carriage renders an invalid independent of chair man or attendant, and the cost of upkeep is said to be trivial.

**IRISH TRAVEL STOPS**

The tourist resorts of Ireland—the Lakes of Killarney and Glengarriff—have suffered greatly during the war and the resumption of normal conditions, with freedom of travel for pleasure, will be required to bring back their old-time prosperity. So Queenstown and, to a smaller degree, the city of Cork has been affected by the entire cessation of the extensive passenger traffic to and from the United States. Queenstown was the principal port for Irish emigration to the United States, and the change in that respect is highly significant. There are more young men in Ireland today than there were for very many years before the war. Emigration, which for the ten years ending March 1, 1911, averaged 38,808 from all Ireland, fell in 1917 to 2,111, and in 1918 to 980 natives of Ireland. Embarkation of emigrants and others from Queenstown which amounted to 20,833 in 1913, and 21,430 in 1914, stopped altogether in November, 1914.

**CLINTON VILLAGE**

Mrs. Charles Thurston is with Mr. Thurston in Stoddard for a week's vacation.

Mr. and Mrs. Charles Butterfield and two youngest children spent the holiday in Lebanon.

Will French and family and Will Holt and wife, from Milford, visited with relatives here Sunday.

Mr. and Mrs. Leon Brownell were with a party who went to Stoddard fishing, over the week end.

Lester Brown, from Fitchburg, Mass., spent part of last week with his mother, Mrs. L. R. Gove.

Mrs. Lawrence Black and little son arrived home from the hospital Sunday. They will live in the Butterfield house for the present.

**"BEN" FRANKLIN NOT FIRST.**

Contention Made That New Hampshire Had the Earliest Periodical in the United States.

I claim that the oldest periodical in the United States is the New Hampshire Gazette, published weekly at Portsmouth and founded in 1756, the next in age being the Weekly Mercury, published at Newport, R. I., and founded in 1758. "Benjamin Franklin did not found the Saturday Evening Post or any other paper in 1728. The Pennsylvania Gazette was founded in 1728 by Samuel Kneiser, who did not make a financial success of it and sold it to Franklin. It was first called The Universal Instructor in All Arts and Sciences and Pennsylvania Gazette. In his autobiography Franklin says of Kneiser and the Gazette: "He began his paper, however, and after carrying it on three-quarters of a year, with at most ninety subscribers, he offered it to me for a trifle; and I, having been ready for some time to go on with it, took it in hand directly; and it proved in a few years extremely profitable to me."

Samuel Atkinson and Charles Alexander combined the subscription lists of the Pennsylvania Gazette and the Bee and issued the first number of the Saturday Evening Post on August 4, 1821, and the Gazette and the Bee went out of existence forever. Thomas Cottrell Clarke was the first editor of the Post. All old newspaper directories give 1821 as the year the Post was established.

**BOSSY HAD DELIRIOUS "JAG"**

Results of Imbibing Barrel of Home Brew Disastrous to Morals of Sedate Old Cow.

Milk, that mild and healthful beverage beloved of the young, usually held in light esteem by the antiprohibitionist, but—

It happened not long ago—since Jan. 16—in the mining camp of Sand Coulee, Montana. A "Bohunk" miner's wife, apparently seeking to keep her lord and master in good humor, mixed a barrel of home brew guaranteed to develop a real kick, and set it out in the yard to ferment. A neighbor's cow happened along and tasted.

One taste led to another, and finally the barrel was empty. But not so the cow. She was most decidedly and satisfactorily "full." Anyway, bossy was fighting drunk, and she started out to clean up that mining camp, and succeeded almost completely. But she met her Wellington in Deputy Sheriff Adolphson. The cow charged the sheriff, who dodged.

Then bossy suffered from the hallucination that has afflicted humans under similar circumstances. She gave evidence of seeing a multitude of Sheriff Adolphsons, and finally firing herself with aimless charges fell down and asleep. When she awoke next day her "jag" was over. But it is reported that her milk sold at a premium for several days among the strong men of the camp.—Wall Street Journal.

**Snakes Friends of Farmer.**

A correspondent who is interested in snakes as well as flowers and birds and the other more popular things in nature writes that he has gratifying success in locating snakes by merely listening for their rustling in the dry leaves. If one's ears are specially trained for snake noises there is no good reason why this method should not be really practical. Unquestionably the majority of wood wanderers are almost blind in this matter of snakes. Unless we almost step on him we seldom know that he is lurking near at hand and remaining very still in the hope that he will not be noted. All our snakes are practically defenseless. They are not only inoffensive and timid creatures, but also highly useful friends of the farmer. Possibly the baby snakes are in less danger than the adults. The little fellows are less conspicuous, and, as before noted, they can hide in very small refuges.

**Biddy's Logic.**

Laid by for the winter

Housewives of Early New York Dissatisfied With Less Than a Six-Months' Supply.

The eleventh hour, or, rather, six o'clock rush to the delicatessen store that marks the approach of dinner in these days of frenzied housewifery would have seemed a strange incident to the good housewives of old New York. They would have felt ill-provided should they have had less than six months' provisions in the larder.

According to the memory of one small boy of seventy-five years ago the thrifty Dutch folk who lived along the west side of what is now downtown New York laid in stores in October and November to last until April or May. They bought a quarter of beef, a hog or a sheep to furnish the pieces de resistance of the winter's meals. The beef was corned or smoked. The pork and mutton was similarly cured and put away. The smoking was done in public smoke houses, maintained for profit.

A barrel of flour, two or three of apples and potatoes added the vegetable content to the menus. Other supplies to lend variety were laid by in lesser quantities. All sorts of farm products were purchasable in the fall at minimum prices, because at that time many sailing vessels and barges came down the river from upstate laden with stores. As winter and the closing of the river approached the farmers and merchants grew anxious to dispose of their stocks and the townfolk consequently bought at an advantage, which they were not slow to take.—New York Evening Sun.

CREED FOR EVERY AMERICAN

Undeniable "Good Thing" to Which All Citizens Should Subscribe and Pass Along.

Nearly every reader is familiar with the expression, "It's a good thing, pass it along." The other day attention was attracted by a "good thing" which is here passed along. It is a "financial creed" for every man, woman and child suggested by the savings directors of the 12 federal reserve districts. Read it carefully. It is as follows:

I believe in the United States of America.

My opportunity and hope depend upon her future.

I believe that her stability and progress rest upon the industry and thrift of her people.

Therefore, I will work hard and live simply.

I will spend less than I earn.

I will use my earnings with care.

I will save consistently.

I will invest thoughtfully.

To increase the financial strength of my country and myself, I will buy government securities.

I will hold above barter the obligations my country thus incurs.

I will do these things to insure the greatness of America's future.

Fish Nets, the First Lace.

Examine a piece of fine and costly lace. What is it fundamentally?

It is a net. By origin it is a fish net. The first lacemaker was a fisherman, or perhaps his wife.

All of the beautiful laces we know today are developed from that clever invention, the fish net. They hark back, therefore, far into the prehistoric.

The first white men who came to America found no lacemakers on this continent, but they did find the Indians weaving fabrics of cotton, yucca and other fabrics, with elaborate pattern designs. They were particularly skillful at a certain sort of "draw-work."

The California Indians of today make cotton lace, but the art has been taught to them by white people. The pottery they make for sale is sometimes adorned with this lace.

Which suggests mention of the fact that the early Indians often decorated their pottery with textile patterns by impressing the latter upon the clay while soft.

Women Demand Grit.

If you have the grit you can command respect. The world doesn't want any fawning apologies. That may serve a purpose under some "weak sister" circumstances, but never under the greatest need. Some folks wonder why it is that "all the world loves a lover." The fact is a lover must have grit. Women want their heroes to be leaders, daring, irresistible. They want men who do things. They even like to be made do a few things they protest but enjoy just the same. Wenkings do not dare such audacity. They fear they will lose the maiden's smiles. As a matter of fact it's the daring and the assurance that wins. "Faint heart never won fair lady" we are told. Even in love-making you must have grit. And what's more the fellow that does not have grit doesn't deserve to win. Why should a woman waste herself on a molly-coddle? Be a man if you would win.—Grit.

Appeal to Snobbliness.

"That umbrella repairer has a flattering approach."

"What is it?"

"First asks the lady of the house if she has any golf clubs to mend."—Louisville Courier-Journal.

The Answer.

"Why do they try so much hot air pressure on witnesses?"

"I suppose it is because they want to pump them."

Let's settle this right now!

Figure your painting costs with a brush instead of a pencil—

You can't figure the cost of painting by figuring what the paint costs per gallon.

What you want to know is how much the paint covers, how well it covers and how long it takes a man and brush to do the work.

One way to figure is with a pencil. The right way is with a brush. Figure this way and you will use Low's Brothers High Standard Liquid Paint. And once you use it, you'll always use this paint and no other.

Tell us about your painting needs and we will give you some eye-opening facts based on brush figures.
