To the Republicans of New Hampshire:

In view of the fact that I have been nominated to the Legislature from Lebanon on both the Republican and Democratic tickets, I feel warranted in making this early announcement that, when elected, I shall be a candidate for the Republican nomination for Speaker of the House of Representatives.

Americanism

By
LEONARD WOOD

Everybody likes and respects self-made men. It is a great deal better to be made that way than not to be made at all.—
Oliver Wendell Holmes.

IF AMERICANS did not like self-made men they would be in a constant state of rebellion against the commandment which tells you to love your neighbor. One of the glories of this country is that it is the land of equal opportunities. Self-made men are the product of the equality of opportunity. America is full of such men.

If it were not for the possibilities which lie in the field of American opportunity few immigrants would care to come here and few American-born youths would like to live here? The chance to "make one's self" is the American chance and it is a chance taken in a lottery where there are a thousand fold more prizes than blanks.

There is something which might be said about the self-made man which perhaps ordinarily is not said nor even thought about. Every American who amounts to anything is a self-made man. Some of them are not so called simply because they may have been born to riches, but no child born to riches ever made anything of himself unless he underwent the process of self-making.

We don't think of men as men unless they are worthy. It is harder at times for a boy born to wealth to make anything of himself than it is for a boy born to poverty. In one case the incentive to effort is absent, while in the other it is sharply present. America is full of incentives for the acquirement of manhood in all that the word implies.

It is safe enough to say that nine-tenths of the men of worthy lives in America are men who have made themselves and their lives worthy. There is no royal road to manhood. It is a fairly easy road, however, for the man who takes the occasional stumble and the occasional hard knock with true American philosophy and who keeps on unflinching. America is a land of opportunity. Self-made men are a part of its worthy heritage.

Can Tell in Advance Result of the Election

The most accurate and far reaching straw vote of any presidential election ever attempted in this country is now under way. Millions of ballots will be cast in this test vote, and at least two weeks before the November elections those who follow this straw vote will be able to tell without fear of contradiction who is to be the next occupant of the White House, and by how many votes he will win.

In order to accomplish this titanic task eight thousand Rexall Drug Stores in the United States have been designated by the United Drug Co. of Boston, as the balloting points. In each store a clerk has been detailed to conduct the ballot and thus insure a sure and fair test to vote.

The big unknown quantity in the forthcoming election is the women's vote. In order to accurately compute this vote, two ballot boxes have been installed in each Rexall Drug Store, one for the male vote, the other for women. Each night the vote will be counted, that of men and women totaled separately.

Each ballot clerk, in each town or city, after compiling his local vote, will telegraph his returns to a central point in that state. This state captain, in turn, will compile the total vote for the state and telegraph these returns to the Straw Vote Director at the Boston office of the United Drug Company.

In addition to this the state captain, after compiling the vote for his state, will send these returns back to each Rexall Drug Store in his state, where they will be prominently displayed on each store window.

The Boston office, after receiving the reports from all forty eight states, will compile the total national vote, for men and women separately, and a bulletin will be issued each night, together with the total figures by states, which will be sent back to all the eight thousand drug stores and to many newspapers and news agencies throughout the country.

A special meeting of Waverley Lodge of Odd Fellows was held on Friday evening to make the necessary arrangements for the funeral on Sunday of Ed. I. Dodge, of Berlington, a member of this lodge.

SENATOR TOM WATSON

Political circles are keenly interested in the coming of Tom Watson as Senator from Georgia. Mr. Watson has been a political tornado in the South for a great many years. His election is on the Democratic ticket, but he starts in decidedly at odds with his party upon their National issues.

It is recalled that Senator Tillman roared around the South until he got into the Senate, where he roared some more for a while, but finally he became as tame as a kitten. Jeff Davis from Arkansas roared a good deal at first, but he subsided like the rest of them.

The Senate has made great minds, and no one has ever made any headway against its methods by processes of roaring, or barnstorming. Senator Watson is said to be a very able man, and if he can introduce a strong personality in the Senate, backed by a determination to look a little closer to the public interest than the average Senator has been doing, he may "fill a long felt want." There is a well-founded conviction in Washington that the Senate is long on political interests and short on consideration of the public welfare. The very Watson may help put the reverse action on this state of affairs. If he does he will be a fortunate acquisition to the Upper legislative body. On the other hand if he is only coming to Washington to roar, he won't last long.

THE UNITED STATES AT SEA

The United States Shipping Board continues to be a sort of one-man affair, and an Admiral of the Navy is running the big transportation organization, while the Commission supposedly in charge is still waiting to be appointed by the President. The Government has 2000 ships on the high seas, and the Shipping Board like all other Government institutions is gradually growing top-heavy with superfluous officials at Washington. The Government's ships have been making only an indifferent success in the carrying of cargoes. Hundreds of other ships have been offered for sale, and manner in which some of them have been bought is not entirely free of suspicious gossip. Our seamen's laws call for a much greater rate of wages than are paid by other countries, and it is said that our ships are having a hard time in competition. Nevertheless, the American flag is floating on the high seas, and even though the experiment may be fraught with many failures and disasters, the waves have been out for the eventual triumph of American shipping.

ALASKA HAS THE PULP

The Forest Service has issued another statement to the effect that all pulp wood that is needed for paper is to be found in Alaska. "Paper manufacturers who go to Alaska can count upon the supply of raw material indefinitely," says a statement by Colonel W. B. Greeley, Chief of the Forest Service.

Auction Sale

By W. E. Cram, Auctioneer, Antrim

Owing to poor health and being unable to obtain farm help, George H. Webb will sell his entire herd of cattle and all the hay in his barn, at his residence known as the Ezra Smith Farm, 1 1/2 miles from Peterboro Village and 3/4 mile from North Factory, on Saturday, Oct. 2, at 12 o'clock noon. The stock consists of 51 head of cattle and one Shetland Pony; also 40 tons good English Hay, and a lot of farming tools. Here is offered for sale one of the best herds of Holstein Cattle in Southern New Hampshire, many of them registered stock—a wonderful opportunity to get good bred and grade Holstein Cattle at auction prices. For particulars read auction bills.

As will be seen by large adv. on the third page of today's Reporter, the price of all Ford Products has been considerably reduced, and this in face of the fact that the company is way behind on its orders. Read the new announcement.

THE PRESBYTERY

Holds Meeting With the Antrim Church

The Presbytery of Newburyport will be held in the Presbyterian church, Antrim, Oct. 6 and 7. The first session will convene at 2 p. m. Wednesday for business.

Wednesday evening at 7.30 a public meeting will be held, to which the people of Antrim are cordially invited. The Lord's Supper will be observed, and all professing Christians are welcome. Following this an address on Evangelism will be delivered by the Rev. Asa J. Ferry, D. D.

Sessions will be held Thursday morning and afternoon. At 7.30 p. m. a popular meeting will be held, at which Rev. James W. Smith, of Manchester, will give a stereoscopic lecture on "The City and Immigration Work of the Board."

The Presbyterial, consisting of the delegates of the Ladies Missionary Societies of the Presbytery of Newburyport, will meet in connection with the Presbytery and hold its sessions Thursday morning and afternoon in the vestry of the church.

The delegates to both will be entertained in the homes of the congregation for lodging and breakfast, and served with dinner and supper in the church parlors.

THE WOMAN'S CLUB

Of Antrim Begin their Activities Very Soon

The Antrim Woman's Club will hold their first meeting for 1920 21 next Tuesday afternoon at the town hall. The year's program, as arranged by the directors, promises much that is pleasant and profitable.

At the first meeting the founder, Mrs. Maude H. Hanscom, from Orange, N. J., will talk on Student Government.

The second meeting, Oct. 19, will be President's Day and the speaker will be Mrs. James W. Remick, President of the N. H. State Federation. Miss Agnes S. Donham, Associate Director of Government Savings, Boston, will be a speaker on Thrift. Mrs. Frank R. Knox, of Manchester, will tell about her trip "On Horseback in the Apache Country." Mrs. George H. Warren, of Manchester, will talk about Alaska, the Great Country.

Other speakers familiar to Antrim audiences are: Miss Ann Beggs, from Milford; Mrs. Arnold S. Yantle, from Manchester; and Mrs. Frank B. Hall, from Worcester, Mass.

During the year there will be two open meetings. The first will be addressed by Maro S. Brooks, who will talk on some educational topic. The other will be on Reforestation, and the speaker will be Miss Jennie M. DeMerrit, from Dover, Past President of the N. H. State Federation. In addition to these there will be a Children's Day, Health Day with speaker to be announced, Patriotic Day, Gentlemen's Night, and the Club Luncheon in May. It is the privilege of every woman in Antrim to be a member of the Club and thus share the broadened outlook which comes from hearing and meeting these splendid people.

Grange Fair

Antrim Grange Fair was a decided success. The display of fruits and vegetables was unusually good and was evidence of the fact that the season has been a successful one. Flint Farm had a beautiful arrangement of garden flowers. North Branch school had an attractive table.

The entertainment, which consisted of a one-act farce and a few musical numbers, was followed by dancing. The treasury was replenished by nearly fifty dollars.

Doing It Up Right

Tuesday of this week, William M. Buchanan, formerly of Antrim, representing Bethesda Lodge of Odd Fellows, of South Boston, came to town by auto and took Mrs. Huldah Wing to Boston, where she will be their special guest on Wednesday. Another gentleman, a committee from the lodge, came with Mr. Buchanan; he returned to the city this Wednesday morning with the Antrim party.

A FEW THOUGHTS

Suggested by What Is Happening Around

The Moline Dispatch says that "no doubt it would be an easier matter to move coal in America if Italy wasn't offering thirty-five dollars a ton for it."

It seems strange that men will quit work to show their sympathy for a suffering few, says the Cleveland News, but won't keep working to show their sympathy for the suffering many.

The Germans say the Allies are drunk with victory. The Buffalo News says: "Anybody who could get drunk on this sort of victory would be cock-eyed after smelling a sour apple."

Both parties are apprehensive lest the hand that rocks the cradle will be the hand that rocks the boat.—Washington Post.

The primary in Antrim was rocked; now for the election!

Monday afternoon at sunset, if you were on the top of a high hill, or out on the ocean—anywhere where you had a good eastern and western horizon—you could see if it was real clear both the sun and the full moon. It was the autumnal equinox and this phenomenon is repeated yearly.

We hear and read such talk as Senator Harding being "an old liner" or a "stand patter" and such like stuff, and when we stop to consider it a bit, the thought occurs to us that he is the same sort that has made this great country of ours what it is. Under his guidance we cannot go far astray; and with the company of men he will select for advisers the oldship of state will not be likely to run into sand bars.

In Syracuse they're making a novel experiment these days. Briefly it's a concentrated effort by the clergy to solve the divorce evil by restricting marriage under a new "Rule of Three," as follows:

First—Proof that the parties have known each other for at least three months.

Second—The presence of witnesses personally acquainted with the bride and bridegroom.

Third—A certificate from the family physician, showing the man to be physically fit.

It looks as if something is missing in this plan, yet if it works out well 'twill be a good thing.

Judge Fred A. Jones a Candidate for Speaker

Judge Fred A. Jones of Lebanon, whose candidacy for the Republican nomination for speaker of the house of representatives appears elsewhere in our columns, is a native of Massachusetts but has lived in New Hampshire since he was four years old.

His early announcement is warranted by the fact that he has been nominated for the legislature from Lebanon on both the Republican and Democratic tickets and consequently the election is somewhat assured.

Judge Jones served with distinction in the legislature of 1918 and in the constitutional convention of 1919-20, and has been active in legislative matters in all of the recent sessions.

He has been moderator of the town of Lebanon every year since 1912, and this year has been given the nomination for moderator on both the party tickets. Mr. Jones has been judge of the municipal court of Lebanon since 1915, and has been an active and zealous worker for the Republican party ever since he became a voter. He is the executive member for Grafton county on the Republican state committee and has been president of the Republican club of Lebanon since 1910.

Judge Jones is married and has four children, and is engaged in the practice of law at Lebanon. He received his education in the public schools of Nashua, at Dartmouth college and Harvard Law School.

WATCHES
that go down through generations

WE are frankly proud of this store's reputation as Headquarters for time-pieces.

We have literally timed the community. Our watches are ticking merrily away in homes everywhere. And what is more important still, these watches have kept correct time. They have been something more than looks.

It is just as well to keep in mind that the purchase of a watch should be made with the greatest possible care. Watches are bought, not for one life-time but for many. A time-piece should be handed down from one generation to another—from father to son—indeinitely. And a good watch will give this service uncomplainingly.

We have in stock all standard makes and all in all types and designs, from the highly specialized railroad time-piece to the delicate mechanism of the wrist watch for my lady of fashion.

We take more than ordinary care in showing you these watches. We too, realize that a watch is an investment for the future.

Rings are very much the same—they must last. If gems fall from gem-set rings, the investment can scarcely be called a wise one. We therefore call to your attention the remarkably fine Guaranteed line from the house of W.W.W.—White, Wile and Warner, of Buffalo. They have a reputation that years of honest merchandising has built up.

The last week has been a decidedly hot one for the time of year, but a fuel saver for the housewife and business man.

Mr. and Mrs. Charles N. Fuggle have returned from a visit to his former home and with his relatives in Syracuse, N. Y.

A number of the Odd Fellows attended the funeral in Bennington Sunday of Ed. I. Dodge, who was a member of Waverley Lodge.

Miss Mildred Cram and Miss Amy Lawson, from Claremont, were week end guests of the former's parents, Mr. and Mrs. W. E. Cram.

Clintonites defeated the Antrim Juniors 18 to 15 last Saturday on the home grounds. Batteries: A. Paige and R. Locke, Tandy and L. Parker.

Myron Hodges, from Methuen, Mass. was here the first of the week. The household goods of his mother, Mrs. G. W. Hodges, are being moved to Methuen, where we learn she has purchased a house and will reside.

Mr. and Mrs. Andrew Fuglestad have removed from Laconia to Antrim; Mr. Fuglestad will be employed by the Goodell Co. They will occupy the Swett house on Main Street, owned by the late George Rogers.

Loren Baker, from Worcester, Mass. was a week end guest of his mother, Mrs. Julia V. Baker. He returned Sunday afternoon, accompanied by his wife, who has been spending several weeks with her mother-in-law, assisting her in her work.

J. M. Cutter, C. F. Downes and E. M. Lane, Selectmen of the town, were invited guests at a hedgehog supper at the home of Mr. and Mrs. George P. Craig on Friday night of last week. They report a bountiful spread and an unusually pleasant time.

It is still noticeable that there are a number of autos being driven on our streets without rear lights burning after dark. It would seem that more care should be taken along this line. It has cost many drivers good money to keep up this unlawful practice.

Will E. Cram was called to Peterboro last Friday by the serious illness of his mother, Mrs. Mary Cram, who was taken to St. Joseph's Hospital in Nashua, where she underwent an operation Saturday. She is reported as getting along as well as can be expected.

Rev. J. H. Robbins, D. D., of Concord, superintendent of the N. H. Anti Saloon League, occupied the pulpit on Sunday morning at the Baptist church, and spoke at the Presbyterian church at the union service in the evening. At the latter service there were about sixty present and the speaker gave a very interesting talk on the present "dry" situation in this state and some of the neighboring states, and outlined what he desired the people of New Hampshire to do to keep the old Granite State where she should be.

RESEMBLE ACRES OF LILIES

Visitor's Beautiful Description of the American Cemeteries in France—Exquisite in Uniformity.

Though American relatives usually want to plant flowers on the graves of their sons or brothers in the American army cemeteries in France, an army ruling forbidding this has been adhered to. The cemeteries, a uniform stretch of green grass with white crosses, look like "acres of white lilies," according to Miss Elsie Goddard, a Wellesley graduate who has returned to this country after having had supervision of the Y. W. C. A. rest huts built for the comfort of relatives visiting the graves in four of the American cemeteries in France. "At first every one wants to plant flowers on the grave they love," says Miss Goddard, "but they soon see that the army ruling keeps the cemeteries most beautiful and impressive because of the uniformity. Cut flowers can be placed on graves and flowers can be planted in the flower beds near by, but not on the graves. The French people who are eager to decorate the graves in some parts are often surprised at this ruling, but our cemeteries, as cared for, are wonderfully impressive. After visiting them few Americans want to take the bodies of their boys home, though they have been determined to do it before they came." The Y. W. C. A. and Red Cross combine in maintaining rest huts at Romagne, Bony, Belleau Woods and Fere-en-Tardenois. "No matter how prepared a mother and father are for what they expect to see, the first sight of the field of American graves overwhelms them," says Miss Goddard.

He Sat Down Quickly.
No finer dressed party of men and women ever assembled together in this city than those who took part in the ball given by the bachelors of Sheridan to their married friends. Many of the costumes deserve mention, but the Postman is not capable of describing them properly.

The supper and refreshments were of the kind that all appreciated, and were served at just the right time by obliging waiters, who seemed to enter into the spirit of the times and make everyone feel satisfied. Only one deplorable thing transpired at the dance, and it was nobody's fault.

Dr. Newell had the misfortune to lean too far forward when bowing to a lady and tear his pants across the seams. He had filled his program and had a beautiful partner for each number, but he had to back off and sit down.—Sheridan (Wyo.) Post.

Object Lessons in Fuel Saving.

The moving pictures are to be made use of as a means of educating people in the manner of making the most efficient use of fuel. Several 50-minute films have been made, showing good and bad operation in steam boiler plants, methods of testing boilers, and the like. These pictures will be available to each state in connection with its educational propaganda to conserve the fuel supply. A series of official bulletins on engineering phases of steam and fuel economics also is being prepared. They will include boiler and furnace testing, fuel gas analysis, saving steam in heating systems, boiler-room accounting system, saving steam and fuel in industrial plants, burning fine sizes of anthracite, boiler water treatment, oil burning and stoker operation.

Youthful Cattle Raiser.

Little Edwin, age seven, lives on a farm in Grant county. It has been for some time his father's custom to sell calves to a neighboring farmer when they were about three days old. The other day little Edwin was instructed to go to the home of the neighbor, and tell him that a calf would be ready for him the following day, and that it was a "bull calf." With an air of great importance the young farmer delivered the following message: "My father told me to tell you that our bull has a new calf, and you can have it tomorrow!"—Indianapolis News.

Boy Scouts' Equipment.

Chief Sea Scout James A. Wilder of Honolulu has aroused the Boy Scouts of America until 80 sea scout centers have already acquired training ships, 16 cities now have shipping boards, and 63 others are following suit. It is probable that training ships for this branch of scouting will soon be sailing the oceans and rivers of America.

Stopped Anyway.

While motoring with four girls my clutch got out of order and it was necessary for the girls to get out and push in order to get the car in motion. On the way back it was arranged that when we got to the home of the girl where they were all staying they would jump off while the car was moving slowly, thus to prevent my stopping and being stalled again. Imagine my horror when they all jumped off backwards and falling over in a bunch rolled into the ditch. I surely had quite a time explaining my seemingly ungentlemanly act to the girls' parents, who had witnessed the incident from the porch.—Exchange.

The Ford Motor Company makes this reduction in the face of the fact that they have on hand immediate orders for 146,065 Cars and Tractors.

The Company will suffer a temporary loss while using up the material bought at high prices. They are willing to meet the sacrifice in order to bring business back to a going condition as quickly as possible and maintain the momentum of the buying power of the Country.

Henry Ford says: "The war is over and it is time war prices were over. There is no sense or wisdom in trying to maintain an artificial standard of values. For the best interests of all, it is time a real practical effort was made to bring business of the Country and the life of the Country down to regular pre-war standards."

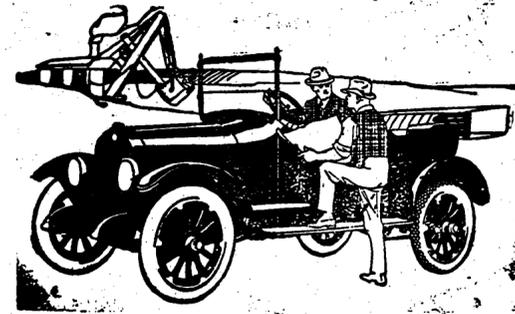

We are at your command with regular Ford efficiency in service and eagerness to fill your orders.

NEW HAMPSHIRE STATE NEWS

Stafford "Dutch" Connor, known by his football record at New Hampshire college, has gone to enter the Maryland university. Connor was one of the best players that the state college ever had.

Accounts of political expenditures in the recent primary campaign were filed by committees which worked in the interest of various candidates. The committee for Senator George H. Moses spent \$5024.69, that for Congressman Edward H. Wasson \$1283.74.

Col. Franklin Pierce Colby, for half a century one of the best known citizens of Manchester, died recently at his home, 98 Bridge st., in his 76th year. He was born at Dunbarton May 11, 1845, and was the last of the family of 14 children of Capt. and Ruth A. Colby.

Doris Makin, five-year-old daughter of Carl Makin of West Concord, was struck by an automobile driven by Hector Garon of Quebec and seriously injured. The accident, the 15th of its kind to occur in Concord or vicinity in three weeks, happened in West Concord square.

The Spaulding-for-Senator campaign committee spent \$15,066.97 in endeavoring to nominate Huntley N. Spaulding of Rochester as the Republican candidate for United States Senator at the recent primary, according to its statement filed with the Secretary of State.

Charles J. O'Neill, United States Marshal for New Hampshire, died in Bellows Falls, Vt., last week. He suffered a shock four years ago and has since slowly failed, being confined to his bed for several months before death. He was born in Keene, N. H., in 1851, but had been a resident of North Walpole, N. H., most of his life.

Alexander Thompson of Swanzey, who was found guilty by Judge Madden in the municipal court of Keene in Nov. 1919, of trapping a fox out of season and fined \$15 and costs, has settled the case in the lower court. At the time of the trial Thompson announced that he would appeal the case to the superior court. He failed to enter the appeal.

The house in which a decade ago George Carkins and Paul Roy fought to the death of Carkins over Glacia Calls, an opera singer, was destroyed by fire last week. It was owned by John D. Kelley, father of the singer, who was in the fields mowing when the blaze was discovered. The trial of Roy for the killing of Carkins was of international interest. Roy was acquitted.

Frank N. Hancock of Franklin, has two interesting pictures of importance connected with the early life of Daniel Webster. One is of the white oak tree on which Daniel "hung his scythe" just before he left home to enter Dartmouth college. The other picture is of the law office of Parker Noyes which was located in the doorway of the place owned at present by Artemas T. Burlingame. Parker Noyes was a leading lawyer of the early settlement there.

Join Trotting Association. The Hopkinton fair has joined the National Trotters' association and all the racing at the fair this week is under the N. T. A. rules.

Nashua Court Gets Few Indictments. The Grand Jury for Hillsborough County Superior Court has returned in the session in Nashua, the shortest list of criminal indictments in years—only 32.

Eight Cows Killed on Railroad Tracks. A very unusual railroad accident occurred in Littleton recently when eight cows were killed on the tracks of the Boston & Maine railroad. The accident happened about two miles below that village.

For Selling "Jakey". Mrs. Slava Newman of Nashua was sentenced to 60 days in jail and fined \$100 in Municipal Court for a second offense of selling "jakey". She appealed. An agent of the police bought the liquor with marked money.

New Masonic Temple for Manchester. The Masonic fraternity of Manchester has purchased the Straw mansion on Elm street, with enough land for the erection of an addition to the present building at a price in the vicinity of \$45,000, for a Masonic Temple.

Out For Doorkeeper. Charles W. Buzzell of Laconia has announced that he is a candidate for doorkeeper for the next session of the New Hampshire House of Representatives. At the last session of the legislature Mr. Buzzell served as doorkeeper.

Warns Against Narrow Minds. President Ernest M. Hopkins, in his address at the 153d opening exercises of Dartmouth College warned against educational institutions holding themselves aloof from the affairs of life and regarding the world's problems merely as "laboratory demonstrations." He quoted Pasteur's definition of the function of science as a criterion for students to follow, emphasizing that the number enrolled is incidental, but the spirit for knowledge and human welfare is paramount.

Teachers Plan Two Days' Convention. The New Hampshire Teachers' Association will hold a two days' convention in Laconia Thursday and Friday, October 21 and 22. These meetings have usually been held in Concord and it is the first time that the state convention has been scheduled for Laconia and it has heretofore been a one-day meeting.

Invite Sportsmen to Attend Exhibition. More than 600 invitations have been mailed from the Fish and Game Commissioner's office to hunters and other sportsmen to attend the exhibition of the Winchester shooting team, headed by Big Chief Bender on the Concord Gun Club grounds on Friday, Oct. 1. The team will be introduced by Former Mayor Charles I. French.

Sue Boscawen for Injuries. Mr. and Mrs. George H. Bester of Arlington, Mass., brought suit for \$1500 each, and Dr. Edna Easter Dockrill of Arlington, for \$2000 against the town of Boscawen for injuries received on July 3, when the car driven by Mr. Bester, went over an embankment in Boscawen. The accident, it is claimed, was due to insufficient railing at a dangerous curve.

Goods. A reduction of 33 1-3 per cent. has been made in prices on all cotton goods manufactured by the Amosack Manufacturing company. The reduction, already in effect, applies to gingham, napped goods, shirtings, ticking and denim. The present production of the company is four million yards per week, 10,000 operatives being employed in the cotton division.

Seeks 23-Year-Old Girl He Never Saw. Arthur Foster of Somerville, Mass., was in Manchester recently looking for a 23-year-old daughter he never saw. Years ago Foster and his wife quarrelled and parted. Shortly after the parting a daughter was born. The daughter recently wrote a pathetic letter to Chief of Police Michael Healy asking if he would locate her father. She now lives in Brooklyn.

Insurance Agents of New Hampshire Meet. The 21st annual meeting of the New Hampshire Association of Insurance Agents was held in Manchester, last week.

Governor Bartlett, the officers of the National Association, Insurance Commissioner John J. Donahue, and P. Waldon Smith, Insurance Commissioner of Maine, were among the guests.

With Wheels Locked Autos Enter Cemetery. The wheels of two automobiles travelling in the same direction, driven by Edwin Flanders of Grammere and B. J. Laval of Hooksett, became locked in front of the Head cemetery, Concord, and before the machines had been stopped they had torn through twelve feet of iron fence surrounding the cemetery and toppled over a tomb stone.

Walpole Insane Man Ends Life. While an attendant and three patients at the Brattleboro, Vt. Retreat for the Insane were walking near the retreat farm Patrick O'Brien, one of the patients, made a dash for a pond in the meadow, swam under water for some distance and was drowned. O'Brien was brought to the retreat from North Walpole, N. H., where a sister lives. He was afflicted with melancholia, with suicidal tendencies. He was 38 years old.

Bitterly Denounce U. S. Tax System. The National Association of Cotton Manufacturers, which held its annual convention at the Maplewood Hotel heard interesting discussions of business conditions throughout the country. William C. Cornwall of New York bitterly denounced the United States Government's system of taxation, his views being shared by all others participating in the open discussion. The people of the country, Mr. Cornwall said, are becoming educated to the fact that the whole system of taxation in the United States is wrong, adding that the system "was founded on class and sectional bias."

Two important sources of the country's progress are being dried up by operation of the excess profits tax and the heavy surtaxes on incomes, the speaker said. These sources were surplus capital and intelligent enterprise.

Anti-Suffrage Spends \$978 to Nominate Moses. Mrs. Eva B. Leuder, treasurer of the New Hampshire association to oppose women suffrage has filed with the Secretary of State Edwin C. Bean the financial statement of the association which shows that \$978.05 was

spent in supporting the candidacy of United States Senator George H. Moses for renomination in the recent primary campaign. There were contributions amounting to \$1455.72. The heaviest aid came from the Woman Voters Association of Washington, \$1312.75. T. E. Clifford gave \$184, Frances P. Dudley \$25 and Concord Anti-Suffragists \$14.

Receives Black Hand Message. Threatened with death if he did not immediately deposit the sum of \$3000 in a field near the Piscataqua station in Newington, Charles Marotta, local Italian colony, rushed into the best known and wealthiest of Portsmouth police station and asked protection against the writer of a Black Hand message which he received through the mail with a Dover postmark on it. Marotta was warned that he must leave the money before 2 o'clock in the morning and have no one with him, also that he must not notify the authorities.

Wireless in the Pocket. Small, Cheap Apparatus That is Really a Marvel of Ingenuity, Costs Only \$5. It is now possible to pick up a wireless message from any of the big stations within reasonable distance in this country with the aid of an ordinary umbrella, a patent pocketbook and a telephone. The umbrella will act as the aerial, the pocketbook contains a miniature receiving set, and, of course, the telephone must be a high-resistance instrument. It has even been possible, inventors of the pocket receiving set say, to use an ordinary bedstead as an aerial. You must not expect with this simple installation to get in wireless touch with Paris, Berlin or Moscow, but if you want the wild excitement of picking up messages from a home station within reasonable distance you must follow these directions: Take your umbrella with you and the pocketbook, select a nice lofty position, and having earthen one corner of the pocketbook—say to a water pipe or something equally damp and handy, hold your umbrella out at arm's length. There should also be a telephone handy, and it would be more convenient to use the headgear worn by telephone operators. Having rigged yourself out as a human wireless station all you have to do is to listen. You will be as a rock in a wireless sea with invisible waves of understanding running down the stick of your umbrella. It is claimed for this pocket receiving set that it is comparable in sensitiveness with the most expensive and elaborate tuner on the market. The cost of the pocketbook is about \$5.—London News.

Return After Many Years. Tilefish Again Caught in Vast Numbers, Though They Were Believed to Have Been Wiped Out. Tilefish are a fish with a short but remarkable history, writes a correspondent. Their discovery was dramatic. In May, 1879, Captain Kirby of the schooner Hutchings, out of Gloucester, Mass., was trawling for cod off the Nantucket banks. No cod was found, but a large fish, unknown to science, was present in great numbers. In a very short time 5,000 pounds of the new species were caught. The fish proved to be of high food value and good keeping qualities. There was a big popular demand for them, and huge quantities were caught for three years. Then the supply failed as suddenly as it had appeared. In the spring of 1882 the boats failed to catch a single tilefish. A few days later incoming boats reported having passed through miles of dead or dying tilefish. They covered an area of 5,000 square miles, and were estimated to number 1,000,000,000. From 1882 to 1915 no trace of tilefish was found in any waters of the world, adds our correspondent. Scientific men were convinced that the fish had been suddenly and mysteriously exterminated. Then, early in 1915, a government boat, in almost the identical spot off the Nantucket banks as that in which tilefish were first taken, again caught some of the same species. Again there proved to be vast numbers of them, and new grounds were also discovered along the New Jersey coast. Since then the tilefish has been caught without interruption, but the riddle of its strange disappearance for 33 years has not yet been solved.—Manchester Guardian.

CASTORIA. Piles of squashes are seen in almost every dooryard. Sam Discomb is in the employ of Robert Munnhall. Are you for Harding or Cox for president? Yes, we are. Several of the farmers are attending Hopkinton Fair this week. Lorenzo Smith reports having dug 120 bushel of potatoes and not a rotten one in the lot. Andrew D. White has been on a visit to Dr. Bill Parsons, in Gilmanston, the past week. Henry George has a good crop of Hungarian just cut and put into the barn in good condition. Last Saturday Mr. and Mrs. Chas. Fowler went to Keene via Peterboro and Harrisville. Mr. and Mrs. Geo. Cochran were their escorts. Old Tom, the family cat, who has watched the intrigues of the wily rats and mice at Elm Tree Ranch for a dozen years, has gone where all good cats go. Don't think the apple crop is large; buyers have not put in their appearance. Prohibition has squeezed a large part of the cider out of the apples but we hope we can get enough to make a little vinegar and not be obliged to use vinegar made from the fermental slops of our cities.

NORTH BRANCH. Mrs. Emma Brown is stopping at the Center for a few days. Mrs. Lucy Sweet and Miss Emerson visited with Mrs. Huddah Wing Monday. W. K. Flint and family have returned to their home in Boston for the winter. Solomon White and family have returned to the Stacy place from their home in Deering. Several from North Branch attended the Grange Fair at the Center and all report a very fine time. Albert Boutelle, of Winchendon, Mass., visited his brother, H. E. Boutelle, several days the past week. The Ladies' Circle of North Branch will hold their annual Harvest Supper Oct. 12, to which all are welcome. Mr. and Mrs. Harry Richardson entertained for the week end Mr. and Mrs. A. E. Richardson and family, of Melrose, Mass. Sept. 26 being the 20th anniversary of Mr. and Mrs. W. H. Simonds' marriage, they celebrated in a quiet way, assisted by Mr. and Mrs. A. L. Cunningham. The many friends of Lincoln Hutchinson are glad to welcome him to his home town, after a sojourn of six years in Florida. Mr. Hutchinson plans to return to Florida in the latter part of the fall.

CLINTON VILLAGE. Harvest Supper next week, October 8. Mrs. Fanny Pike was a Manchester visitor last Saturday. Mrs. Charles Thurston is stopping with her daughter, Mrs. Walter Smith, at the village for a season. John Ryan, a Y. M. C. A. worker, from Concord, preached last Sunday and spoke at the C. E. meeting in the evening. About seventy-five people from out of town attended the Pomona Grange last Friday. The program was a good one. A large delegation from Dublin stayed over to the fair in the evening. Mr. and Mrs. G. H. Coughy and youngest child have been on an auto trip to visit relatives in Grand Gorge, N. Y. Mrs. Brown, from North Branch, has been staying with the other children during their absence. At the next meeting of Antrim Grange, which will be Wednesday, Oct. 6, District Deputy Arthur Smith, from Peterboro, will be present, and the third degree will be exemplified for his inspection. A luncheon will be served, under the direction of Mrs. McIlvin, Mrs. Sides and Harry Guesenberger, assisted by all the members whose birthdays come in August, September and October. Will they please report to Mrs. McIlvin at once.
