Of accepting personal security upon a bond, when corporate security is vastly superior? The personal security may be financially strong to-day and insolvent to-morrow; or he may die, and his estate be immediately distributed. In any event, recovery is dilatory and uncertain.

The American Surety Company of New York, capitalized at \$2,400,000, is the strongest Surety Company in existence, and the only one whose sole business is to furnish Surety Bonds. Apply to

## WILLIAM H. HILL

### Native of Antrim, Passes to Another Life

Born: in Antrim, September 17, 1883, and died January 22, 1922, aged 38 years and four months. His last illness had covered a period of a few weeks and was a general breaking up, perhaps what is known as old age. He had been working considerably for a man of his age, previous to his last illness, and was always a hard working man. Most of his activities late years were confined to care in Maplewood cemetery, where he was at times superintendent and sexton.

In the early part of his business career he was for a number of years a member of the Silk Manufacturing Company, doing business in Antrim, in what is known as the old silk mill on Grove street. For a time he was a resident of Manchester, where he was in business and also a mail carrier. Upon his return to Antrim he was variously employed and served the town as Selectman, being a painstaking and efficient official.

He married Judith N. Kelsea and to them were born two daughters, Annie E. Hill and Grace M. Young. He has since the death of his wife a few years ago made his home with Mrs. Young, who has tenderly cared for him in his advancing years, and at whose home he departed this life. She has the sincere sympathy of all in her affliction.

For more than a half century he held membership in Harmony Lodge, A. F. & A. M., of Hillsboro, and had received more advanced degrees in Masonry in Manchester. He was a charter member in 1876 of Waverley Lodge of Odd Fellows of Antrim, and was its sixth Noble Grand. Deceased was a faithful Christian man and was a member of the Antrim Methodist Episcopal church for a long term of years, and at the time of his death was one of its trustees; had also been a steward, and was for a number of years treasurer of the stewards. Up to within a very few weeks he was always seen in his accustomed seat in the church, and till recently was a Sunday School teacher. His knowledge of the bible was good, his memory clear, his experience beneficial, and altogether he was a fine teacher. It seems only necessary to say that a good man has gone to his reward.

The funeral services will be held today (Wednesday) at 2 o'clock, from the Methodist church, his pastor, Rev. George Davies, officiating, assisted by Rev. William Weston, of Marlboro. It was his request that the last service be in charge of Harmony Lodge of Masons and that the Odd Fellows attend in a body; these requests were complied with. The bearers were selected from the two fraternal bodies. Interment will be in the family lot in Maplewood cemetery.

### Former Antrim Resident

Mrs. Henry M. Barker, (nee Mary J. Colburn,) for more than fifteen years a resident of Antrim, passed to her rest Jan. 19, at Staatsburg-on-the-Hudson, where for nearly 44 years she has lived. Mrs. Barker came as a teacher in the Northeast District, No. 6, in the early fifties, afterward settling on the farm since occupied by Charles Combs. Three sons, Herbert, Harry and Fred, survive her.

Mrs. Barker was one of the choicest spirits among the old circle of noble women of Antrim a generation ago, and was a member and faithful attendant of the Presbyterian church for many years. She has enjoyed every comfort at the homes of her sons since the departure of her husband, a decade ago.

She sleeps, a queen of motherhood; A neighbor, sweet and true, Enjoying the Eternal Good With all things Old and New. These lately dames are passing on, Their generations rise; We yearn for such when they are gone, And all their virtues prize. Well may we praise their gentle worth. They've won eternal fame. In meeting duties here on earth— Each toiling, patient dame. How precious to associates Their memories appear! No comment ever overrates The work they've finished here! Dear girls and younger women, all, You have a mission sweet.

## A FEW THOUGHTS

### Suggested by What Is Happening Around

The season during which it is legal to catch fish through the ice closes February 1, for all the smaller bodies of water in the state.

A daily paper Saturday contained this heading: "In Lowell They Make Moonshine Out of Swill." How would you like to be guilty of drinking such stuff!

Closing of books for 1921 by the State Motor Vehicle Department shows a total of 5045 trucks and 36,994 pleasure cars registered during the year. Commissioner Chase thinks the "saturation point" has not yet been reached.

The act of a Toledo judge in refusing citizenship to two foreign-born residents who avoided war service because of "conscientious objections" has been commended by the Tony Wroblewski post, American Legion, composed entirely of foreign-born Americans and sons of foreign born residents.

For the first 18 days of this month the receipts from inheritance taxes were \$62,794.62, of which \$35,112.54 came from a single estate. For the entire month of January, 1921, the receipts under this head were a little more than \$27,000 and for January, 1920, only \$12,000. Since July 1, when the present fiscal year for the state began, the inheritance tax receipts are \$221,000, against \$252,000 for the whole of the previous fiscal year and \$221,000 for the year previous to that.

The Interstate Commerce Commission would be directed to order railroads to issue railroad mileage books under a bill passed January 21 by the Senate and sent to the House. The measure would leave to the Interstate Commerce Commission authority to prescribe "fair and reasonable rates." The measure as passed was a substitute offered by Senator Cummins, Republican, of Iowa, for the original bill of Senator Watson, Republican, of Indiana, which provided for 5000 mile books at 2 1/2 cents per mile. The Senate adopted an amendment by Senator Trammell, Democrat, Florida, providing for books from 1000 to 5000 miles.

### Settle Town Accounts

The Selectmen hereby give notice that they will be in session at their rooms in Town Hall block, on

MONDAY and TUESDAY,  
JAN. 30 and 31

for the purpose of settling all Town accounts, and everyone having bills against the Town should present them at this time, as the Town books are closed February 1.

J. M. Cutter }  
E. M. Lane } Selectmen  
J. Thornton }

Late weather reports state that the extreme cold wave is passing out; we hope it never returns.

Meet patiently each common call,  
Your record to complete.  
The heritage of virtue left  
By each departing one,  
However you may feel bereft,  
Shall win your meed, "Well done!"  
C. H. C.

### Once Resided Here

Miss Lucy Helen Kimball, of Hancock, who had been spending the winter in Keene, at the home of Milton Downing, 30 North Lincoln street, died last Wednesday morning, after an illness of 10 days. She was in her 85th year. The funeral was held in the vestry of the church in Hancock Friday afternoon at 1 o'clock. Miss Kimball was born in Hancock Dec. 27, 1837, a daughter of Deacon Joseph and Lucy (Boyd) Kimball. She had made her home in Hancock the greater part of her life except for a few years spent in Antrim and Medford, Mass.

When a resident of Antrim she resided in what is known as the Nesmith house and will be remembered by our people.

## Free Illustrated Lecture!

At ANTRIM BAPTIST CHURCH

Thursday Evening, Jan. 26

At 7.30 o'clock

By REV. D. S. JENKS, of Manchester. Subject—

"ON THE FOREIGN FIELD WITH  
THE NEW WORLD MOVEMENT!"

This Will Be Interesting and Instructive, Especially at This  
Time When So Many Are Watching The Changes Taking  
Place All Over The World.

## DID SPLENDID WORK

### N. H. Postmasters Ahead of Western Brothers

The aftermath of the Sales Contest in Government Savings Securities between the postmasters of New Hampshire and Colorado shows that the good old Granite State maintained the best traditions in thrift and savings of its Colonial forefathers.

Final reports of sales received by F. C. Ayres, Director, First Federal Reserve District, for the period of the contest, from August 1 to December 1, show that New Hampshire starting with a per capita average of 30c on August 1 had added 12c to her per capita average during the four months; while during the same period Colorado increased her per capita average but 8c.

We are sorry that our Western brethren were not more successful for the cause is a worthy one, but we congratulate the postmasters of our own good state to whose efforts the glory of beating our Western competitors was due.

Incidentally, it is of interest to know that the New England States had sold nearly \$1,200,000 worth of Government Savings Securities in the eleven months to November 1. Also that the sale of Treasury Savings Certificates was almost unprecedented in December, the reports for each state being nearly double any previous monthly report.

The many attractive features commend them to all readers, whether of large or small means.

The Antrim postmaster takes personal pleasure in recommending the purchase of these Government Securities, for he knows that they are absolutely loss-proof, and as such form a security that can never be a subject of criticism by the investor.

### The Senior Play

"When the Home Land Calls" will be given by the A. H. S. class of '22, in Antrim town hall, on Friday evening, February 3. The cast included pupils of the High School. Rehearsals are continually being held and our people are assured of a good presentation. Following the play, dancing will be in order till 12 o'clock; music by Sleeper's Orchestra. For other particulars read posters.

### Young Women Wanted

Wm. Knowlton & Sons, Mfrs., want girls to learn to sew and trim ladies' and children's hats, at their plant in West Upton, Mass. Good pay and excellent opportunity for ambitious girls. Ideal living conditions. Transportation advanced. For further information communicate at once with Max H. Golden, Room 41, 102 Exchange St., Portland, Me.

## Church Notes

## METHODIST

Rev. George Davies, Pastor  
Sunday morning service at 10.45  
Sunday School at 12 o'clock.  
Union service Sunday evening.  
Thursday evening meeting at 7.30 o'clock.

## BAPTIST

Service at the Baptist church Sunday, Jan. 29, at 10.45 o'clock, with sermon by Rev. S. G. Hastings. Subject: The Reminding Look.  
Bible School at noon.  
Intermediate C. E. Sunday afternoon at 3.30 o'clock.  
Prayer meeting Thursday evening at 7.30.

## PRESBYTERIAN

Rev. J. D. Cameron, Pastor  
The subject of the sermon for the morning service will be: "The King's Doom."  
Sunday School at noon.  
Prayer meeting Thursday evening at 7 o'clock.  
Mission Study class meets Friday at 3 p. m. with Mrs. Christie. Subject: "Utah."

## Liberty Farm Notes

At the International Show at Chicago in 1921 the grand champion barrow over all breeds and crosses was a Berkshire. The champion carcass was also a Berkshire.

The pure bred Holstein Friesian heifer at Liberty Farm, fresh May 17, that milked 8436 lbs. of milk in seven months, has just completed her eighth month, having milked 96764 lbs., an average of 89½ lbs. for 245 days. Out of 1800 cows in this state that are under the State College supervision only 51 had done what this heifer did when fresh seven months, and they were most all mature cows.

## Attending Toy Fair

Fred E. Batcheller, of the "Cedars," Reading road, Mass., treasurer of the Loveren Co., Inc., toy manufacturers of Antrim, N. H., spent part of last week at the factory. Recently a shipment of "Air Scouts," one of their leading lines of toys, was made to Costa Rica, Central America. Mr. Batcheller is in New York this week, arranging for space at the annual Toy Fair, to be held from Feb. 6 to March 11, inclusive.  
Andover, (Mass.) Townsman

John Brown met with some hard luck on Thursday night last just after he had been to the 6 57 train at Antrim station. He had met a lady at the train and had started away from the depot yard; his reins were, probably twisted, which caused his horse to go too far up the banking side of the road. The sleigh tipped over and horse cleared himself; shafts and harness were broken. Soon the horse was captured, things fixed up, and Mr. Brown and passenger were on their way home. No damage was done to the occupants of the sleigh or the horse, which was quite fortunate on a dark night.

## Where Your Taxes Go

How Uncle Sam Spends Your Money in Conducting Your Business

BY EDWARD G. LOWRY

Author "Washington Close-Up," "Banks and Financial Systems," etc. Contributor Political and Economic Articles to Leading Periodicals and a Writer of Recommended Articles on the National Government's Business Methods.

Copyright, Western Newspaper Union

VI.

## WHERE YOUR MONEY GOES

I am indebted to the late Dr. E. B. Rosa, of the United States bureau of standards, whose analyses of government expenditures I have already quoted in these articles, for the following comprehensive survey of how the taxes you pay to the government are apportioned in expenditures. It will give you the clearest and best idea of where your money goes. For his purpose Doctor Rosa took the actual appropriations for the fiscal year 1920, amounting to a total of \$5,688,006,706, as given in the regular supply bills and three deficiency bills prior to May 1, 1920. For convenience he divided the purposes for which this money was spent into six groups as follows:

Group I—Obligations arising from recent and previous wars, including interest on the public debt, pensions, war-risk insurance, rehabilitation and care of soldiers, deficit in the operation of railways, expenditures of the shipping board, European food relief and the bonus to government employees to cover partially the increased cost of living due to the war, a total of \$3,855,482,588.

Group II—War and Navy departments—expenses somewhat above a permanent peace-time basis—\$1,424,138,677.

Group III—Primary governmental functions, including congress, President and White House staff, courts and penal establishments, departments of justice, state, treasury, interior, commerce, labor, interstate commerce, and other commissions, one-half the District of Columbia, including all the necessary functions of government other than defense, except the commercial activities of Group V and the research, educational and developmental work of Group VI—\$181,087,225.

Group IV—Public works, including rivers and harbors, public buildings, reclamation service, post roads, national parks and railway in Alaska—\$108,203,557.

Group V—Commercial or self-supporting activities, including the post office, land office, Panama canal and holding corporation, which, taken together, earn their expenses.

Group VI—Research, educational and developmental, including the wide range of work of the Agricultural department, geological survey, bureau of mines, coast and geodetic survey, bureau of standards, bureau of fisheries, bureau of foreign and domestic commerce, bureau of labor statistics, women's and children's bureaus, vocational education, colleges for agriculture and mechanic arts, library of congress, Smithsonian Institution and the public health service—\$37,093,631.

Total groups I to VI—\$5,688,006,706.

## Summary.

Group	Expenditures	Per Cent
Group I—Expenditures arising from recent and previous wars...	\$3,855,482,588.60	67.81
Group II—War and Navy departments...	1,424,138,677.67	25.02
Group III—Primary governmental functions...	181,087,225.41	3.19
Group IV—Public works...	108,203,557.46	2.97
Group V—Research, educational and developmental...	37,093,630.93	1.01
Total	\$5,688,006,706.97	100.00

The first two groups together amount to 92.8 per cent of the total; public works amounts to 3 per cent, primary governmental functions 3.2 per cent, and research, educational and developmental work, 1 per cent. The population of the country being about 110,000,000, the total budget is about fifty dollars a year per capita, of which fifty cents a year per capita is expended for the wide range of research, educational and developmental work included in Group VI. "That is, of the fifty dollars a year per capita collected for all purposes, a dollar and a half a year per capita," Doctor Rosa went on to point out, "was spent for what is here called primary functions of government; nearly as much more was put into public works, and fifty cents a year was put back into research, educational and developmental work, to promote scientific research, to increase production and efficiency, to develop wealth, to promote the public health and to conserve our natural resources. That is a very small part of the total—hardly enough to be regarded as a burden on the nation."

"Indeed, one is led to wonder whether the total burden of taxation would not be lighter if the expenditure for scientific and developmental work were increased; if, for example, it were one dollar a year per capita instead of fifty cents. In other words, if \$110,000,000 were expended annually for this creative and productive work, would it not be easier to collect the five and a half billions for other purposes?"

The big money, of course, goes for war, past, present and future, and that is where the saving must be made.

Thirty thousand persons are killed, or injured in the United States every day.

J. J. Griswold } Selectmen  
H. W. Brown }

Miss Helen Sheldon is at home from Concord.

It is reported that the rag room at the Monadnock Mills is to operate again soon.

**FOR SALE**—25 Tons of good English Hay. Inquire of C. W. Durgin, Bennington. Advertisement

The social at the chapel on Thursday evening last was well attended by the children and greatly enjoyed.

Mrs. Michael Powers is in the hospital for treatment and is reported as doing well; she expects to be home soon.

Several from this place are planning on attending the "Way Down East" photo play on Thursday and Friday of this week at Peterboro.

**FOR RENT**—Two tenements in Bennington village. Inquire of C. W. Durgin, Bennington. Advertisement

Mr. and Mrs. George Myhaver, of Peterboro, came to town and had dinner with Mrs. Myhaver's father, C. H. Philbrick, on Monday last, helping him to celebrate his birthday.

A Greek, who was employed in the heater room at the Monadnock Mills, was killed one night last week. It is supposed that a heavy door struck him and knocked him down. He was known as a steady, industrious man. He leaves a wife and family in the home country, who will receive the insurance which he carried as a mill employee.

The first annual concert and ball of the reorganized Merrimack Engine Co. was well attended by the townspeople, and many were present from the surrounding towns. The orchestra started from Winchendon, Mass., in an auto truck at 4.30 p. m., but did not reach here until ten o'clock. The audience waited patiently for them and felt well repaid, as their music was excellent; the singing of Mr. Parks, who is totally blind, was greatly enjoyed and loudly encored. The decorations were very pretty in the town hall, and the engine hall, where a fine oyster supper was served, fairly glistened, it was so clean. The young men in charge worked hard and deserve the credit of success.

### HANCOCK

A son was born on Monday of last week to Mr. and Mrs. Arthur Perry.

Robert Wilson and Miss Annie Harrington, of Bennington, were recent guests of Edward Harrington and of Mrs. Emma A. Weston and family.

Mrs. Nellie R. Dutton recently installed the officers of the Grange in New Boston.

Mrs. Ned Patterson is sick with tonsillitis and grip.

Milford A. A. defeated Hancock High School here last Friday night, 30 to 21.

The friends of Miss Heler Kimball regret to learn of her death, notice of which will be found in another column in this paper. She was interested in the welfare of the town, and especially in church work. Those from out of town to attend the funeral were: E. N. Lovering, of Winchester, Mass.; Mr. and Mrs. Irving Burbank, of Penacook; and C. H. Duncan, of Keene.

At the installation of officers of John Hancock Grange Mrs. Winnifred C. Goodell, lady assistant steward of the State Grange, assisted by Mr. and Mrs. Arthur Smith, of Peterboro, did the installing. The new officers are:

Master—Nellie R. Dutton  
Overseer—Cora Otis  
Lecturer—Marion Davis  
Steward—Charles Dutton  
Chaplain—Minnie S. Ware  
Secretary—Ella C. Ware  
Treasurer—Emma D. Otis  
Asst. Steward—Sheldon Damon  
Gate Keeper—Simon Sheldon  
Ceres—Kate M. Hayward  
Pomona—Helen Hanson  
Flora—Nellie Jackson  
Lady Asst. Steward—Helen Carr  
After the meeting a supper was served and a good time enjoyed by all.

### CLINTON VILLAGE

Will Newman has been confined to the house with a bad cold.

Leo Mulhall and family are in Stoddard for a time while he has work there.

The annual meeting of the Ladies Aid Society will be held this afternoon at the home of Mrs. C. F. Butterfield.

Mrs. Francis Whittemore, from Nashua, and Mrs. Forest Boutelle, from Hillsboro, are keeping house and caring for the Whittemore children during their father's illness.

Richard L. Brooks and Miss Myrtle Chamberlain were united in marriage last Wednesday afternoon. The ceremony was performed by Rev. George Davies and took place in their new home at the Caughey cottage. They were attended by Mr. and Mrs. Leon Brownell.

### HILLSBORO

Judge Samuel W. Holman died last Saturday at his home on Depot street, in this town, after several months' illness.

He was born in Maine, June 5, 1855, a son of a Baptist minister. Later the family moved to Antrim. Young Holman fitted for college at Francetown Academy and was a student at Bates College for a short time. He then studied law, which he has practiced in this town for more than 40 years. He sold his practice here about a year ago to Ralph G. Smith, his partner, and went to a Concord hospital for treatment.

Judge Holman had been judge of the Police Court here since the court was established more than 30 years ago. He was a prominent Republican, represented his town in the Legislature, was a delegate to many state conventions, and had been a trustee of the Congregational Church and was also a member of the Odd Fellows.

He married Mary Elizabeth Eastman of Weare Nov. 3, 1878. She died several years ago. He leaves one daughter, Mrs. Mary Van Horn of Portland, Me. The funeral took place Tuesday, the 24th.

**Still Powerful Ruler.**  
With an area of 245,000 square miles, Afghanistan is, next to Tibet, the largest country in the world that is virtually closed to the citizens of other nations. But political life at wary, alert Kabul is in sharp contrast to the meditative seclusion and classic aloofness of the pious lamas at Lhasa. Amir Amanullah Khan, through his agents in India and elsewhere, is in close touch with the world's current events; and, as the last remaining independent ruler of a Moslem country, now that the power of the caliph at Stamboul is broken, he wields a far-reaching influence throughout the Mohammedan world; also, because his land happens to lie just as it does on the map of the world, it is plain that for a long time to come he will be an active force in the political destinies of middle Asia. Like Menelik of Abyssinia, Queen Lil of the Hawaiian Islands, or the last of the Fiji kings, this Amir, remote and obscure as his kingdom is, stands out in his time as a picturesque world figure.

**Scots "Fish" With Swimmers.**  
Over in canny Scotland they "fish" with swimmers, that is wild students who are learning to swim.

Swimming instructors have various methods for teaching their pupils, but none is more novel than that used by some of the Scots. These instructors have a rope and pulley arrangement by which the pupil is suspended at the end of the rope in the water. The instructor holds the other end of the rope and can raise or lower the pupil in the water.

In his other hand the instructor has a long pole with which he prods the pupil at various times to correct the movements of the arms and legs. Should the instructor lose his grip on the rope what would happen to the pupil can be imagined. But supposing, with that pole in his hand, the instructor loses his temper? The field of conjecture is open.—Cleveland News-Leader.

## Banks —of— Service

The State Savings Institutions of New Hampshire are banks of service to the public.

They proved their service during the war.

They will gladly help you now.

They invite your acquaintance and welcome your inquiries.

Nearly 300,000 people of the state use them.

They are your refuge in misfortune.

They provide for the comfort of old age.

The money you deposit is safe.

It grows with interest accumulations.

It is always ready when you call for it.

It is the best investment you can have.

It is the only investment that has not shrunk in value since the war.

All State Savings Institutions are under government supervision of the State.

No State savings bank has failed for twenty years.

Be a savings bank depositor and begin at once.

## NEW HAMPSHIRE STATE NEWS

### Col. Maxford Anti-Aircraft Regiment Head

Clarence E. Rexford of St. Paul's School, Concord, was nominated as colonel of the 197th Anti-Craft regiment of the state which is now being organized, at the meeting of the governor and council.

### Dublin Farmer Slain in Fight With His Sons

Herman Oja, 47, a farmer who had lived for some years on the road between Marlboro and Dublin, is dead, with a bullet hole through his brain, as a result of a scuffle with two of his sons who endeavored to take a revolver away from the parent.

### Gets \$4000 Heart Balm

Mrs. Sarah Babbitt of Manchester was awarded the sum of \$4000 as damages against Mrs. Jennie James by a superior court jury in the alienation suit instituted against Mrs. James for stealing the affections of Mr. Babbitt. The jurors deliberated more than three hours on the matter. The plaintiff sought \$10,000 damages.

### Old Granite State Frigate Dismantled

Wreckers have begun the work of dismantling the historic old wooden frigate Granite State, which has been raised from the bottom of the Hudson. She had lain on the river bottom since last May when one side of her hull was destroyed by fire, and was sold at auction to a machinery corporation for \$5000.

### Gets Important Position

W. C. O'Keefe, entomologist of the New Hampshire College Experiment Station, has just been re-elected as chairman of the Board of Governors of the Crop Protection Institute, a national organization of scientific and industrial workers engaged in combatting the pests and plant diseases of economic importance.

### Give Her Badge, She'd Fill Station

"Pin a badge on me and I'll fill this police station full of violators of the liquor law," Mrs. Adeline Coppo told County Solicitor Roy M. Pickard and Sheriff E. H. Lord, after she had been arraigned in Keene municipal court on a charge of illegal possession of liquor to which she pleaded not guilty. Her case was continued to allow samples of the liquor to be analyzed.

### Woodville Boy, Skating, Killed

A terrible accident occurred in Woodville, in which Dale, the twelve-year-old son of Mr. and Mrs. J. M. Orcutt, was frightfully injured while skating and died about thirty minutes later.

Swiftly descending new path about half way down, he ran afoul of a branch of a tree partially concealed by the snow, which penetrated his abdomen.

### Guards Company Is Demobilized

The formal ceremonies of demobilizing Company M, Concord's representation in the New Hampshire guard occurred in the memorial parish house. Many guests being in attendance to witness the simple but impressive ceremony. Following the mustering out each member of the company was given his discharge and a state button as a remembrance of his service in the regiment.

### Mr. Folker Appointed on Committee of 16

State Commissioner of Agriculture Andrew L. Folker has been chosen as one of a committee of 16 men representing all parts of the country to appear before the agricultural appropriations committee of the national house of representatives in Washington in the interest of securing appropriations from the government to carry on the work of the eradication of bovine tuberculosis. Folker will go to Washington to attend the meeting on Feb. 7 and 8.

### Bancroft Urges Mental Clinics; Would Be Uplift

The establishment in the state of mental clinics was urged by Dr. Chas. P. Bancroft, former superintendent of the New Hampshire state hospital, in addressing the 100th annual meeting of the Center District and Merrimack County Medical society at the Eagle hotel, Concord. In the opinion of Doctor Bancroft, recognized specialist for mental ailments, such clinics with trained workers would have an uplifting effect on the state and gradually decrease the commitments to the state hospitals. Doctor Bancroft stated that he felt of physicians and he public in general had changed during the past decade in its attitude toward mental ailments, recognizing these defects as a disease and treating them as such.

### Mother 'Raffles' is Ordered Held

Mrs. Katherine Marston, mother of three children, was bound over to superior court under bonds of \$1200 on charges of breaking and entering one count each for the past four years. Manchester police officials said the man had confessed to 13 breaks in apartments or houses the residents of which were absent. The police had for months without success to the person responsible for the theft, until a gold piece taken at the houses turned suspicion on Mrs. Marston.

### Milford Joanna Breaks Records

Cedarcrest Woodledge Joanna is the imposing name of a 6-year-old pure bred Holstein cow owned by George E. Pettie of Milford, and Mrs. C. W. Joanna is trying to shatter the town, county and state records for milk production.

She freshened several weeks ago, and has been giving 80 to 90 pounds of milk a day.

Some people think of milk in terms of glass bottles and others in numbers of foaming milk shakes. Eighty-five pounds, reduces to 41 full quart bottles. Or, figured in average war-size glasses, about 200 milk shakes.

Mr. Pettie says Joanna is not on special feed. She gets ordinary feed and care and is milked three times a day. If he wasn't so busy he might give her special fodder and four daily milkings. Then, he suspects, she would give over 100 pounds a day, which would be crowding dangerously toward the world's record.

### Dairy Herd Fifth Test Completed

The dairy herd at the State college has just completed its fifth test, under the accredited herd system for tuberculosis free cows, and passed it without having one cow, in the herd of 70 react. This is the third time that the herd has been found free of the disease and it is believed that the herd can be easily kept free in the future. The herd was first accredited in 1920, and has been accredited every year since.

The accredited herd system was spoken of highly by Professor Fuller of the dairy department as a method of lessening of the loss of beef and also a method of preventing the spread of tuberculosis to children by whom the milk is consumed. The work has been carried on in the state since 1913 and has shown marked development in its efficiency. It is used by nearly all dairy men to examine their herds and eliminate all infected animals. There are at present in the state approximately 30 herds now accredited.

### Expect Thrills in Ski Events

The complete schedule of events for Dartmouth's 12th annual winter carnival, as announced by the Outing Club, includes the greatest variety ever planned for Hanover's mid-winter fete. Instead of tea dances monopolizing the attention of the 500 couples taking part, emphasis will be laid on outdoor sports, with the ski jumping championship Saturday, providing the climax to the athletic part of the program.

Thursday, the first day, Feb. 9, will witness the first innovation. Following fraternity tea dances in the afternoon, the scene will shift in the evening to Faculty pond where there will be competitive and exhibition skating, coasting and tobogganing. A torchlight procession through the town will precede the outdoor events. The climax to the evening will come with the fireworks arranged for 10 o'clock.

The annual intercollegiate championship snowshoe meet will be staged Friday afternoon on the links of the Hanover Golf Club. At this time there will be the preliminary heats in the ski dash events, and the 10-mile ski cross-country race.

### Mott Bartlett on Game Outlook

State Fish and Game Commissioner Mott L. Bartlett, who spoke at the banquet of the Franklin Fish and Game league, declared that sportsmen were doing more than any one agency to preserve the natural resources of the state. Our forests, water supply and animal life are three of the state's great natural resources which need preserving," he said. The fish and game fraternity realizing they must have forests for their game and lakes and streams for the fish has been a powerful factor in helping in their preservation. According to his opinion unless more serious steps are taken to preserve these resources we will not have them.

He discussed methods for protecting streams against pollution calling special attention to the work done in Ohio to protect the fish in the streams from poisons which are given off into rivers as waste from factories. Concoctions are used to neutralize the poisons before they run from the factories into the streams. He hoped something might be done to protect fish in New Hampshire streams.

Commissioner Bartlett gave his opinion that New Hampshire would be the leading fish and game state in

New England inside of 15 years. "We have better laws and better equipment than any other New England state," he declared. "The tax payers are not called upon to spend a cent in this great work unless the use of the two rooms in the state house is considered. From the licenses and fines for fish and game law violations the department is able to provide everything."

### Had 27 \$5 Notes Raised to Appear

Four men suspected of being those wanted by the Federal authorities in Boston for passing raised bills were arrested in Portsmouth.

On searching the four men, the police claim to have found 27 \$5 Federal Reserve notes that had been raised to \$20 notes. It was a very neat job. To prove how neat it was, Chief of Police Michael Hurley amused himself by offering the bills at the various departments of City Hall and not once did any of the city officials suspect its genuineness.

### ON THE MAKING OF MATCHES

Chinese Factories Now Are Producing Thousands of Tons, to the Great Alarm of Japan.

There is a joy in considering the old verse which told of fleas having other fleas upon their backs to bite 'em, the process continuing ad infinitum. Because out of the Far East comes the interesting intelligence that the Chinese have gone into the manufacturing of matches, and are so diligent and skillful in the business, that the Japanese trade is becoming fearful of their progress, as competitors, the Cincinnati Enquirer states.

Not so long ago the American markets were flooded with cheaper imitations of the cheap Swedish matches, which compete with the sturdier and more dependable flame-makers turned out as profusely in America. It was not thought that there could be made anything worse than the Scandinavian product, but when the Japanese fraud arrived, this view was revised sharply.

If it is possible that the Chinese have been able to make the matches at a lower cost than their Japanese rivals, then indeed they have accomplished the miraculous, and the world will applaud them for the feat. Apparently success has come to them, four large factories at Tien-tsin being needed to supply the demand, which is measured by the thousands of tons. If they are being shipped to this country, as undoubtedly they will be, it is to be hoped that the triumph over the low-grade Japanese imitation of the erratic and undependable Swedish splint has not been effected through the sacrifice of efficiency in striking fire and holding it. Nothing could be worse.

### NEW WAY TO FOIL ROBBERS

Hard to Get Away With Satchel That Is Equipped With a Powerful Alarm Gong.

Holdup men who have been specializing in the robbery of bank messengers and pay-roll carriers will not rejoice in the invention of the latest security satchel, designed, as it is, to prevent their silent getaway, says the Scientific American. The satchel is ordinary enough in appearance, save that it is of steel. In the lid it carries a monster bell, operated by two dry cells, which are capable of ringing the alarm continuously for six hours. The switch is hidden in the grip handle and has two buttons so arranged that when the messenger discovers that he is being held up he can instantly push one of them.

The alarm will go off and stay off, and can be heard for a distance of half a mile. The second button is for previous adjustment, and leads to a delayed action that holds the ringing up for ten or twenty seconds—enough to enable the messenger to make his getaway from the immediate range of the holdup man before the latter discovers what he is up against.

We must agree with the inventor that no crook is likely to march through the streets carrying a ringing satchel, or to get very far with it if he attempts it.

Certainly, until the stick-up artists learn how to put the muffer on the bell instantly and permanently, the new trick ought to be effective. And that is all that could be asked, for the man who is coping with a robber must expect to change his plan of campaign as fast as the thief learns what it is.

### CLIMATIC EFFECT ON WOOD

Studies Made in Forest Service Laboratory Have Been of Great Value in Aeronautics.

In the great laboratory at Madison, Wis., maintained by the United States forest service for woodworking experiments a special study has recently been made of the effects of various climatic conditions upon airplane propellers.

In one room, by regulation of warmth and moisture, the climatic conditions of southern Texas or arid Egypt were reproduced. It was found that propellers subjected to these conditions had a tendency to dry out, flatten and become unbalanced.

In another room the climate of the Amazon valley was imitated. This caused propellers to warp badly and to change their shape so much as to become totally unfit for use.

It was found that a coat of aluminum leaf did best service as a water-proof covering for propellers, which, when thus protected, may be exposed to a high humidity for a long time without warping. Leaf aluminum is so thin that from 10,000 to 12,000 layers of it are required to make an inch in thickness. One pound will cover 1,170 propellers, at a cost of 66 cents.—Philadelphia Ledger.

### HAS ADDED TO VOCABULARY

Gabriele D'Annunzio Is Credited With Making Important Additions to the Italian Language.

Commander Gabriele D'Annunzio has become a coin of words. Aside from having a special D'Annunzio dictionary compiled and published by some enterprising Italian publishers to assist his leaders in knowing the meaning of words not found in the ordinary dictionaries, the premier Italian poet and adventurer lets very few weeks pass without promulgating some new addition to the Italian vocabulary.

The former dictator of Fiume is in a quiet retreat. Various pilgrimages are made to him by men who were adventurers with him in the Quarnero enterprise. Some of them asked him for a new name for cognac. He said: "There is but one name for cognac and that is 'arzene,' which signifies that it is the very force of the wine."

He inquired how the people of Florence were taking his suggestion that the name of Florence be changed from the present Italian name of Firenze to Florenza, meaning "a city of flowers." The pilgrims stated the people of the town welcomed the idea and may adopt his proposal.

The poet is doing a little literary work while there are no more Fiume fields to conquer.

### BUSY STREET CORNER SAFEST

Logical Reason Why There Are Few Accidents Where the Traffic Is the Heaviest.

"You must have lots of accidents here," said a friend of Traffic Commissioner Harris the other day as they were passing one of the most congested corners of the city. "I'm not surprised either," he added as he saw a large touring car come suddenly to a halt less than half a foot from a passing pedestrian.

The commissioner shook his head. "That's where you're wrong," he replied. "Not only are there not more but there are actually less accidents here in proportion to the amount of traffic that goes by than almost any other place in New York. If you'll think a minute you'll see the reason for it, too. Where the street is more or less quiet and deserted a person crossing the road is less apt to look for approaching vehicles. Where they are always passing, however, he is always on the lookout. The theory works both ways. While the pedestrian keeps a close watch on the stream of traffic, the automobile driver also keeps tab on the continuous file of pedestrians in his way. On a comparatively quiet street both pedestrians and cars are exceptions and accidents are bound to occur."—New York Sun.

### NOW THE "DIRIGIBLE" BOMB

Steered by Wireless, Its Possibilities for 'Deadly Work' Are Almost Beyond Calculation.

A "dirigible bomb," that can be steered toward the target by wireless after being let fall from an airplane, is the novel invention of Elmer A. Sperry of Brooklyn.

Ordinarily, when bombs are dropped from aircraft, the chances of a miss are great. The speed and altitude of the plane, or balloon, have to be taken into account, and the wind, also. Obviously it would be of utmost advantage if the path of descent of the gravity projectile could be changed at will while it was falling.

The Sperry dirigible bomb carries a parachute, which, unfolding as it starts to drop, not only slows the rate of its descent, but incidentally serves as a "drag-rudder." By tilting this drag-rudder in one direction or another the bomb's path of descent is controlled.

As the projectile starts to fall, a second and very tiny parachute is liberated from the top of the bomb to support vertically a wire that serves the purpose of an antenna. It is by the help of this antenna that the man in the airplane is enabled so to operate the radio apparatus carried in his machine as to alter at will the angle of the drag-rudder.

While the bomb is going down he circles about and steers it by radio. All he has to do to make the bomb turn this way or that is to turn a handle connected with his radio sender in the desired direction. Thus the bomb is made to land exactly where it will do the most good—meaning, of course, the most mischief.—Milwaukee Sentinel.

### TERM OF ARABIAN ORIGIN?

As the Story Goes, the Expression, "Better Half" Comes to Us From the East.

Strictly scientific searchers for the origin of the expression "better half," denoting one's wife, have decided that it was coined by Sidney in his "Arcadia." "Arcadia" was written in 1580.

However, those less concerned with scientific accuracy claim that an ancient Arabian tale contains the real origin of the expression. This old story tells of a bedouin who was sentenced because in the course of a blasphemous oath he had insulted the name or the honor of his chief.

The Arab's wife pleaded for clemency, declaring that not her "whole husband had committed the offense."

"Not your whole husband?" asked the sheik. "Nay," she replied. "It was but the half of him. For am I not his other half, and I who have never offended thee should not be made to suffer for the sins of the other half, and the guilty half places itself under the protection of the better half."

The sheik, so the story runs, thereupon pardoned the husband, being greatly pleased by the ingenuity of the wife.

### Bride's Thrift Wasted Dowry.

Two daughters of a distinguished Vienna family married in 1912. The younger girl wedded an officer and had to have the "caution money" compulsory to brides in the Austrian army. The mother gave her 100,000 crowns, which included the expense of her outfit.

The elder sister only needed her outfit, for which she got 20,000 crowns, while the rest of her dowry—80,000 crowns—was left with the mother, as was also the whole portion of the son, who had settled in Switzerland.

Recently, says the New York World, the mother, a widow, wished to pay in full the portion of the two children to whom she still owed money. She sent 100,000 crowns to the son in Switzerland, who received 800 francs from the postoffice for the total amount. His sister got 646 francs for the 80,000 crowns due her. The younger girl's 100,000 crowns would have been worth 105,000 francs in 1912.

### Unanswerable.

Mrs. Doonan's passion for fighting policemen makes her his majesty's guest at regular intervals. "Hullo!" said the prison visitor, resignedly, "you here again?" Mrs. Doonan gazed at him with dignity.

"And wot of it?" she demanded. "Wot I says to you, and the rest of 'em I says to you. If it wasn't for the likes of me wot would you all be doin' for a livin'?"—London Tit-Bits.

### Children Cry for Fletcher's

# CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of

*Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this.

All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment. Never attempt to relieve your baby with a remedy that you would use for yourself.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

### GENUINE CASTORIA ALWAYS

Bears the Signature of

*Chas. H. Fletcher*

In Use For Over 30 Years

The Kind You Have Always Bought

THE CENTAUR COMPANY, NEW YORK CITY.

## AUCTION

Notice of every Real Estate Auction inserted in this paper free of charge, and many times the notice alone is worth more than the cost of the bills.
