CANDIDATES ANNOUNCED

For Nomination for Governor of State

Berlin, July 18: Following the announcement of the candidacy of John C. Hutchins for the Democratic nomination for governor last week, interest in political matters in the north country has perceptibly increased. It is certain that the Hutchins candidacy will receive tremendous Democratic support in this section of the state and it is anticipated that he will make a good race for the nomination in other parts of the state.

It is generally accepted here that Windsor H. Goodnow of Keene will be the Republican nominee. His strength in the north country has been growing steadily ever since he announced his candidacy. Sentiment is practically unanimous among those closely acquainted with the situation that the nomination of the Cheshire County candidate is a foregone conclusion.

"There can be no doubt about it," said one prominent Republican leader to the writer today. "Mr. Goodnow is the type of man the north country Republicans would like to see nominated for the governorship. And once he is nominated, we feel, and we feel strongly, that there is no one in the field who can beat him."

"His sterling and unimpeachable character is a byword throughout the state. His wide experience in business affairs and his very creditable record in public affairs make his name one to conjure with in the important state election ahead of us."

"One must realize, too, that Mr. Goodnow is a powerful vote getter. His vote two years ago surprised me and it surprised every one in the state who was at all conversant with political matters. In fact, I expect to see Mr. Goodnow roll up one of the largest votes in a state primary ever polled by any candidate in our recent history."

DRIVE FOR BUDGET

Sunday Schools to Raise \$10,000 in State

At a meeting of the business committee of the New Hampshire Sunday School association, together with the County Sunday School treasurers, held in the state office in the Amoskeag bank building one afternoon recently, plans were completed to make a concentrated effort to raise the annual budget as voted by the executive committee at its recent meeting in the Y. M. C. A.

The effective work of the Sunday School association has been steadily increasing, under the efficient leadership of its general secretary, W. D. Reel, and its annual budget has grown proportionately.

This year the religious educational work of the state will require \$10,000, or about 20 cents per scholar, part of which is paid in quotas by the local schools, and the balance is raised by Sunday School workers in all parts of the state through individual contributions.

The business committee this year includes: Maj. Frank Knox, chairman; A. W. Burnham, S. F. Langdell, Dr. G. E. Hoffer, M. K. Wentworth, Rev. H. A. Jump, Rev. P. W. Caswell, Rev. Linden J. Carter, Rev. O. J. Guptill, Rev. P. C. Grant, State Treasurer Edwin Morey, and General Secretary W. D. Reel.

County Quotas

The county treasurers and the county apportionments are as follows:

Cook, \$500, Miss Augusta Nichols, Lancaster
Grafton, \$1100, Rev. A. T. Boland, Haverhill
Carroll, \$500, John Chick, Silver Lake
Belknap, \$700, Mrs. Chas. Rice, Laconia
Sullivan, \$500, Arthur Nelson, Mill Village
Merrimack, \$1250, Edward Dame, Concord
Strafford, \$750, Thomas Webb, Dover
Cheshire, \$800, C. C. Bemis, Chesham
Hillsborough, \$2500, A. F. Stearns, Mont Vernon
Rockingham, \$1400, Miss Mary E. Spollett, Hampstead

The counties are divided into districts; this district is No. 1, of which Mrs. Minnie Gordon, of Bennington, is the treasurer. It includes Antrim, Deering, Hillsboro, Franconstown, Greenfield, Peterboro, Hancock and Bennington.

Military Training Camp

There are still quite a number of applications short of the quota authorized by the War Department for the First Corps Area for the Citizens' Military Training Camp. In view of the fact that money has been appropriated by Congress for the purpose of giving the boys of New England an opportunity to go to camp, it is hoped that a full quota will be obtained.

Each accepted student is provided with transportation to and from his home, all expenses of subsistence, clothing and laundry while at camp. No expense whatever is required of the student. The camp begins August 1 and expires August 31, both dates inclusive. The regulations have been recently amended allowing boys who will be 17 by August 31, 1922 to be accepted.

For information see Dr. Tibbotts.

Hearing at Selectmen's Room

A hearing was held in Selectmen's room on Wednesday afternoon last to ascertain if possible the sentiment regarding the closing of Salmon Brook in the west part of Antrim, to trout fishing for a term of years. Commissioner of fish and game, Mott L. Bartlett, was present and presided. A number of others interested were in attendance. After some talk it was voted that it was the sentiment of those present to close the brook for a term of two years. After the hearing a few went by auto to the brook to examine location and other things connected therewith. Commissioner Bartlett took down all evidence and will report later his decision in the matter.

MEETING OF MASONS

Progress is Made Toward Organization of Lodge

A well attended meeting of those men affiliated with the Masonic fraternity residing in Antrim was held on Tuesday evening last, to receive the report of a committee which was appointed a few weeks ago to take steps toward forming a Masonic lodge in Antrim. The report was given, which was accepted without debate.

It may be well to say right here that much progress has been made and that at this meeting it was the sentiment of all present that the committee be retained and that further steps be taken toward completing the necessary arrangements. In the regular course, after a bit more preliminary work has been completed, a dispensation may be asked from the Grand Lodge. A committee was appointed whose duty it will be to find one or more suitable places where such a lodge could hold its meetings and learn the particulars regarding same, and report at a meeting to be held later.

A name for the new lodge was considered and among a lot of good ones, one that appeared to all as the most acceptable was decided upon, which will be announced at the proper time.

Arrangements have not yet been completed to an extent so as to say just when the dispensation may be granted but it is the wish and desire of all interested to get at the organization and institution at as early a date as possible.

CLINTON VILLAGE

Miss Alice Perry is assisting Mrs. Bigelow for the summer.

Mrs. Lucellus Thurston and little son, from Union, are visiting her father, George Lovern.

The Improvement Committee of Antrim Grange are making preparations for a dance to be given at their hall July 26.

It is hoped a large number of Grangers will attend the special services at the Congregational church next Sunday.

Mrs. Bert Chamberlain, who has been working at Mrs. Newell's, has completed her work there, and the family have gone to housekeeping in one of Mrs. Pike's tenements.

Mr. and Mrs. Charles Tileston, Miss Barbara Tileston, W. D. Doggett, Mr. and Mrs. Edward Ingraham, and Mr. and Mrs. W. L. Carpenter, from Ashmont, were week end guests of the Rablins at their cottage.

Mrs. Will Hildreth entertained her sister, Mrs. Walter Davidson, and son, Allan, and her brother, Edward Gilson, from Hackensack, N. J., over Thursday night. Her mother, Mrs. L. Gilson, will remain for a longer visit.

Mrs. Fred Reed and two children, from Medford Hillside, Mass., are at the Waumbek for the remainder of the season. Mr. Reed was with them Sunday. George Rawlings rode up with them and spent the day at George Sawyer's.

Lost Savings Bank Book

Notice is hereby given that the Hillsborough Guaranty Savings Bank of Hillsborough, N. H., issued to Ellen Harrison of Bennington, N. H., its book of deposit No. 7172, and that said book has been lost or destroyed and said Bank has been requested to issue a duplicate thereof.

About Advertising

It costs money to advertise in a paper of circulation and influence in the community. Every business man who seeks to enlarge his trade, recognizes the fact that advertising is a legitimate expense. It is not the cheapest advertising that pays the best. Sometimes it is the highest priced newspaper that brings the largest net profit to the advertiser.

Church Notes

METHODIST

Rev. William Thompson, Pastor

The Kingdom of God is making marked progress in the world. The world is still in its intellectual and moral infancy. The larger portion of humanity is hardly aware of the wonderful march of modern civilization. It is useless for the people to expect the coming of the Kingdom of God in its perfection until its seed has been sown in every soil of humanity. The vision of the religious leaders must be inspired with the largeness and completeness of God's purpose for the race. When the noontide of the glory of God's Kingdom shall have come all industries and business will be swayed by its power, and the tempers of its teachings shall be enthroned in human society. Come and hear about these great truths next Sunday morning.

Unyielding devotion in prayer, hypocritical loyalty to law, a perplexed king, a lion tamer and a strange deliverance will be the ideas for instruction in the classes of the Bible School. You are invited to attend.

The evening service will be at 7 o'clock. "God's Greatest Work" will be the theme. All roads of nature at last converge upon some Mother City of Man.

Thursday will bring together the people of the church for the consideration of some of the vital questions of life. Remember the glad hand will be given to you, regardless of name, honor or position. Try us and see.

NEW HAMPSHIRE STATE NEWS

Keene Railway Shops Close In-Definitely
The railroad shops in Keene closed for an indefinite period, according to notices posted at the shops. The shops were picketed by the strikers and the few strike-breakers who went to work did not remain long. There was no trouble.

Democrats to Meet at Keene Banquet
The Democrats of Cheshire county will gather in Wilder hall, Keene, Wednesday, July 26, at 6:30 for a banquet. Following the dinner they will be addressed by prominent New Hampshire Democrats, both men and women. George H. Duncan of Jaffrey is chairman.

Ban Sunday Golf
The "blue law" code of the New Hampshire forefathers was invoked on Sunday golf in Concord, when City Solicitor Rainie, notified officers of the Beaver Meadow Golf Club that the game was unlawful on Sunday and that further indulgence in it would result in prosecution.

Plan Concerts to Take Place of Game
Treasurer Peter Smith of the Sunday baseball promoters' organization in Concord has received \$20 in voluntary subscriptions to defray the expenses of a band concert to be given on the Gun club grounds Sunday afternoon to entertain the people of Concord who usually see baseball games.

Seek to Form Sunset League in Rochester
An effort is being made to form a sunset league in Rochester with teams representing the following organizations: All Stars, Modern Woodmen of America, Boston and Maine employees, and Dublin. It is planned that a collection will be taken but no charge will be made for admission.

Grasshoppers Devour Crops at Franklin
Commissioner of Agriculture Andrew L. Felker received a report from Superintendent Walter J. Malvern of the Orphans' Home at Franklin, that the grasshoppers in that section are devouring the crops. Efforts are being made in Merrimack county to protect the crops where the infection is reported.

Vote Minimum Age School Entrance
The Keene board of education at its meeting voted to make the age minimum for entrance into the public schools of the city six years instead of five and a half, as has been the previous custom. This means that a child entering the schools must be six years of age in the calendar year. No changes or deviations from this will be allowed.

Manchester Man to Represent Granite State at Brazil Fair
Benjamin Knox, a former Manchester man, now residing in Brazil, has been appointed by Gov. Albert O. Brown as commissioner from New Hampshire to the Brazilian exposition. Mr. Knox is thoroughly conversant with South American affairs, having been attached to a large concern in that country for several years.

Prison Inmates Tender Gold Purse to Lewises
The inmates at the state prison, 144 in number, presented Capt. and Mrs. Lewis A. Chase of the Salvation Army with a gold purse, as a farewell gift, previous to their departure to New London, Conn. The money was raised by voluntary contributions. Captain Chase often spoke at the prison during his 14 months' stay in Concord.

Takes Horses to Short Ship Circuit
Joseph Haddock of Laconia has gone with his three fast horses to race at the short-ship circuit. Mr. Haddock, one of the best known horsemen in the state, expects to win a number of races as his horses have been showing wonderful speed at their spring training on the local half-mile track at Opechee Park. Mr. Haddock took the following horses with him: Josie Review, Just Blingen and The Tank.

Accept Portrait of Famous Painter to be Put in Concord
The governor and council accepted with a vote of thanks to the donor, Rev. Dr. Henry M. Tenney of Oberlin, Ohio, the gift of a state of a self-painted portrait of Adna Tenney, one of the most famous artists born in New Hampshire more than 30 of whose works are included in the state's collection in the capitol building. Rev. Dr. Tenney, who is a trustee of Oberlin college and pastor Emeritus of the Congregational church there is a son of the painter.

Artists Pass Summer in New Hampshire
Many of the American artists, residents of the large cities have packed their art kits and fled to the coast and mountain sections of the country. Many of them have come to New Hampshire.

Among those listed as New Hampshire residents for the summer are the following: George De Fovos Brush, Dublin; Lilla Cabot Perry Hancock; Mary L. Ayer, North Con.

Religious School in Annual Session
The northern-New England school of religious education held its seventh annual session last week at the New Hampshire State College. There were twenty-seven courses of study and 20 instructors were in the faculty. Besides the regular daily program, a number of outings and entertainments were scheduled and the week drew to a close with the presentation of the pageant, "Ester."

William H. Ranney a Suicide
William H. Ranney, about 60 years of age, for many years superintendent of the H. P. Hood company at their stock farm and shipping station in Derry, shot himself through the brain at the Maple coffee shop in Bosworth. Mr. Ranney, in partnership with Mrs. Florence Howard of Brockton, Mass., had taken over the Bosworth property which they have been operating since. It was believed that the business at the coffee shop was not as profitable as Mr. Ranney had expected, due in a great part to the poor weather, and this caused him to commit the act.

Out for Executive Council
Stephen A. Frost of Fremont, member of the present House of Representatives, filed for the Republican nomination for executive councillor in the second district at the office of the secretary of state. He is a prominent manufacturer and business associate of ex-Gov. Rolland H. Spaulding and Huntley N. Spaulding, chairman of the state board of education. He was one of the influential leaders in the Legislature.

Representative Harry L. Holmes of Henniker and Homer Foster Elder of Dover filed for Republican state senatorial nominations in the ninth and 21st districts.

Woman Pastor Resigns
Miss Helen K. Wallace, 25, pastor of the Alton Baptist Church, the youngest woman pastor in New England, has resigned her pastorate to accept a position as dean of the woman's department of Franklin College, Franklin, Ind.

Plan 250-Room Hotel for Manchester
The project of a modern, commodious hotel for Manchester has been revived again, this time with every prospect of immediate success. A group of local citizens, including Frank P. Carpenter and Walter M. Parker, have interested themselves financially in the project. According to the present plan, a building of not less than 250 rooms, to cost in the vicinity of a million, will be erected at the property of the local promoters. Henry P. Rines, manager of the Congress Square Hotel at Portland, Me., is expected to be the lessee and manager, and will also, it is said, furnish the house.

Jumps as Five Ton Square of Granite Crashes into Auto
Arthur Carnes and his small son, had a miraculous escape from death in Milford when they escaped being crushed by a five-ton block of granite at the New Westery quarry. Mr. Carnes was driving a truck and had backed up to the quarry where the large piece of granite was being lowered onto the machine. He was watching the lowering of the stone and suddenly noticed the rope start to part. He snatched his son, who was sitting beside him, and leaped to the ground just as the stone crashed through the truck smashing the front end of the machine, where they had been sitting but seconds before.

N. H. Committee to Confer in Boston on Disposition of N. E. Railroads
The New Hampshire commission named to act with similar commissions of other New England States regarding the future of New England railroads held its first meeting in Concord, July 12. Lester F. Thurber, chairman, presiding at the meeting. Following the meeting of the commission when railroad matters were informally discussed a lengthy conference was held with Governor Albert O. Brown.

It was announced that the commissions of the various New England states would hold a meeting in Boston on August 15, previous to which the New Hampshire body

would hold a meeting at which President James H. Hustis of the Boston & Maine railroad and Prof. Frank H. Nixon of Princeton, formerly of Dartmouth college, will be invited to address the committee.

Dover Girl Gives Up Idea of Movie Career
Miss Bijou Fernandez, the movie star scout, who looked over Dover girls in connection with her scouting tour of New Hampshire, was obliged to leave Dover without a requested second pose of one girl who struck her most favorably as promising material for a film star. When the girl in question found that the scout was really interested and wanted to carry away another picture, she girl changed her mind and declined a second picture.

MILLIONS IN BUFFALO HERD
Indian Fighter Told of "Reviewing" Quadruped Army That Had Front of Ten Miles.

The famous Indian fighter General Maus, who lost an eye in border skirmishes with renegades and received the congressional medal of honor for gallantry in an Apache campaign, told me about seventeen years ago of a dramatic incident in which he participated in the middle 70s. As a young lieutenant, with an orderly and two Indian scouts, he was trailing the great Nez Perce Chief Joseph in his flight from Oregon to Canada. The American scouting party came into an open prairie country in Idaho. They paused on a tiny hillock, scanning the horizon. The Indians dropped, ears to ground. They signaled. Presently all with ears down heard it distinctly, the hump, hump, hump of rhythmic marching, and far off, of a mighty lost marching.

Setting the Styles.
"Why are you so sympathetic with France's reluctant attitude with reference to international money matters?" "I'm hoping," answered Miss Cayenne, "that my Paris dressmaker will regard it as unfashionable to insist on being paid so punctually."

SURELY WAS "QUARE THING"
No Wonder Mr. Murphy Couldn't Understand His Better Half's Sudden Indisposition.
In a certain town there is an Irish cobbler whose conversation is much relished by his fellow townsmen.

Why British Flag Bears Large Cross.
During the early part of its history, Great Britain used a number of different flags or standards to identify the men and the ships belonging to the nation. In medieval times, practically every great nobleman had a flag of his own, but, at the time of Richard the Lion Hearted, what is now the official badge of Great Britain had its beginning.

New English Wing.
A new type of wing which is of the utmost importance to aviation has just been perfected in England after more than ten years of experimenting. The new wing is built with the object of increasing the lifting power of machines, and the first tests have been satisfactory. An airplane fitted with the new wing seen from a distance, looks like a huge swallow with wings depressed. Instead of two rigid, horizontal straight planes, a single rigid plane is used, which, from the center, curves outward and downward.

to the tip. No fabric is used in the manufacture of the wing. Its surface is of mahogany veneer, thus making it better able to withstand all kinds of weather.

Meteorology.
For the last three years a course in weather science applied to aeronautics has been given at the University of California at the southern ranch, located in Los Angeles. The present year at the university started with a large enrollment of freshmen and sophomores and bids fair to eclipse the preceding years in interest and accomplishment. The majority of the members of the class are students in the engineering department of the university. Sixty-nine members are taking the course in aeronautic meteorology. The object of the course is to make the students thoroughly conversant with the principles and practical application of meteorology applied to aeronautics.

"Flu" is a Sad One.
The invisible, unidentified organism or germ that causes "flu" can pass through a stone wall. "Flu" itself is the most mysterious disease in existence. So says Dr. William H. Park of New York city's health department. He adds that three years' study of "flu" has informed the medical profession of only one thing—that is, that they know nothing about it. Is "flu" caused by a germ? If so, it travels through the air long distances like a bird. For this dread disease is positively known to have attacked and killed residents of the far North who hadn't even seen other human beings for five years.

Valuable Welding Process.
A new and very useful welding process is based upon the fact that if a piece of copper on an iron plate is heated in an atmosphere of hydrogen, the copper will spread over the iron in a thin, penetrating film like butter on hot toast.

Climates Not Changing.
The climates of the world have not changed in the last ten years, nor in the last ten centuries, for that matter, says Charles F. Talman, of the United States weather bureau, in the Mentor Magazine. "Old-fashioned winters, the kind we don't get now," have always been talked about. Even in Ben Franklin's day, pamphlets were published describing changes in the climate of the United States. It is human nature to remember the exceptional seasons—such as the winter of 1917-1918, and compare every season with them, thus giving rise to the belief that climates change, says Talman, whereas daily checks at 30,000 weather bureaus throughout the world show that the average weather condition has remained unchanged for hundreds of years.

No Season Wholly Good.
Mr. Subbub—"Thank goodness the summer's gone and winter is here when I won't have to bother about mowing the lawn and watering the garden!"

Respectful Silence.
"Can you sing The Star Spangled Banner" all the way through?" "I can," replied Senator Sorghum, "but I never attempt it in public. The way some of us make that splendid anthem sound is no way for a man to show his patriotism."

Three British Hon. In the second appears the fighting lion of Scotland. The harp of Ireland occupies the third quarter and the lions of England are repeated in the fourth quarter, for Wales does not appear as a separate entity. Joining the four—or separating them—is the Cross of St. George, as typical of the different British standards as the Stars and Stripes are of the various forms of the American flag.

A Quick Thinker.
"Speaking of alibis," said Jim Bottorf, who prosecutes the cases of the state of Indiana in the Clark Circuit court at Jeffersonville, and has sometimes been troubled by alibis which he distrusted but could not disprove. "I knew an old negro once—well, he sure was a quick thinker. This negro used to deal with a grocer named John Barnside, who had a store just north of Jeffersonville. One night the negro crawled through a small hole only made for chickens and when he crawled out a chicken went with him. Next day Barnside picked up the negro's grocery account book near the place the chicken had been and was not. He silently handed over the book to the negro who came later to make a purchase, and then said: 'I found it in the chicken house, uncle.' 'Yes, sah, yes, sah; usual, sah. I see left it thar so's you could charge up the chicken, sah.'" — Indianapolis News.

Read Built on Sandy Shore.
By the use of sectional planking it was possible to build a stretch of reinforced concrete highway along the shore of Lake Michigan, east of Michigan City, on what is known as the Long Beach road extension. Starting at the central mixing plant, says Popular Mechanics Magazine, the contractor put down 2,000 feet of sectional planking; made up in sections 5 feet wide and 10 feet long, 2 by 6 inch boards being used for this purpose. He then had the wet concrete carted from the mixing plant to the end of the walk, and as the road was laid, the duckboard was taken up and conveyed back to the mixing plant. When he had worked back to the mixing plant, he used the same planking, extending it 2,000 feet in the opposite direction and working back in the same manner.

Wonders of the World.
In a certain town there is an Irish cobbler whose conversation is much relished by his fellow townsmen. "Good morning, Mr. Murphy," said a customer one day, going into the shop with shoes to be repaired. "I hear your wife is ill. What is the matter?"

Why British Flag Bears Large Cross.
During the early part of its history, Great Britain used a number of different flags or standards to identify the men and the ships belonging to the nation. In medieval times, practically every great nobleman had a flag of his own, but, at the time of Richard the Lion Hearted, what is now the official badge of Great Britain had its beginning.
