### Business Men Retire

New Year's Day, 1946, marked the number of Hillsboro's prominent business men as two less, for two of them retired with the old year; Chesley P. Favor, barber and Fred Dutton, dealer in grain and coal. Both have earned their high standing in the community as honest hard-working business men and kindly upright citizens during their 45 years of activity.

Chesley Favor had done a little barbering in Warner before he came back home to Hillsboro and opened his shop in the Marcy Block. On Jan. 15, 1902, he was married to Miss Florence Kimball. Although he has always kept busy with his work, his home life, his camp on the river and more lately the farm over Concord End way, he has never been too busy to be kind to old men, needing to be shaved but short of cash or needy children who kept their money after a hair cut.

What Kendall Blake's life long friendship has meant is known to the men themselves. Kendall lived in the block and played outside the barbershop. As a baby, Kendall had more than one nap in the barber chair during a dull hour. They have always been real pals through Kendall's school life and even now when Kendall has two children of his own. Mr. Favor is free now to spend all the time he likes on the farm; after so many years spent working only in the Marcy and Post Office blocks.

Fred Dutton began working for D. Whiting and Son 46 years ago next June. While he has never worked but in one building, he has seen many changes take place in the vicinity. He came here from Bennington after working there for 12 (Continued on page two)

## HILLSBORO VICTORY CLOTHING DRIVE BEGINS THIS WEEK

Capitol Theatre, Public Service Co. Office, Post Office are Collection Depots

Successful in eight War Loan Drives, Hillsboro has again been called upon to enlist all possible support for the Victory Clothing collection, January 7 to 31, national drive endorsed by President Truman, with Henry J. Kaiser as national chairman and sponsored locally by a committee of business and professional men.

In a similar drive last April, 3370 pounds of clothing consisting of 62 bundles was collected and prepared by the Junior Fortnightly Club, with many of the members again serving on the committee this year.

Collection depots have been prepared at the Public Service Co. office, the Capitol Theatre and the Hillsboro Post Office and will be open this week.

Mr. Dan West, who is director of the Division of Contributed Supplies of UNRRA, was executive director of the April United National Clothing Collection and is serving again in this drive. In this campaign, the American people contributed enough clothes, shoes and bedding to benefit 25,000,000 war victims on Europe, the Philippines and China.

Mr. West reported that 6,816 communities throughout America are already organizing local clothing drives under the direction of the 3,258 men and women who have so far accepted appointment as local chairmen.

In addition to the American Legion and other national organizations, the U. S. Post Offices and churches throughout the country are participating in collecting the clothing and as depots.

#### THERE IS NO SUBSTITUTE FOR WORK

By Ruth Taylor

We re-learned one important lesson during the war years. It was a lesson, the application of what made this country great in the past and gave the world a new goal of prosperity and freedom at which to aim. This lesson was that there is no substitute for hard work.

A wise man once said that ninety percent of what men call genius is only a talent for hard work. And he was pretty near right. The great discoveries, the great inventions, the great deeds we acclaim were done by men with an infinite capacity for taking pains, by men who were not easily discouraged, who went right on working even when they didn't want to keep at it, who just wouldn't give up as long as there was something to be done.

There isn't any other way to succeed. Success must have a firm foundation if it is to be permanent and that firm foundation takes energy and labor and courage to build aright.

During our prosperous years, we sought too often for short cuts to what we wanted. We let our wishes govern our actions. We hunted madly an Aladdin's lamp which we could simply rub to make our wildest dreams come true. We indulged in snap courses. "Learn without effort", "Reduce without exercise or dieting", "Easy jobs at good pay" were our slogans. We didn't want to give up to succeed, but success comes only through self-sacrifice, not by sacrificing others.

In war we again learned the habit of work. All of us had something to do, and we found out that the more we did, the more we could do. We developed new skills — from the white collar men who went into the factories to the homemaker who went back into the kitchen. We all learned how to work — and above all to work together.

Now the war is over, are we satisfied to go back to our pre-war attitudes? Or will we put the new knowledge into making this world we have worked to save, the world in which we want to live, the world we want to pass down to future generations. If we work as hard for peace and set up for all time the kind of a world of which we have dreamed, a world of opportunity for work, for service for all mankind.

years. Whiting not only sold coal and grain, lumber etc., but milk also which was shipped to Boston. It was bought from the farmers and Mr. Dutton shipped a half carload daily. It was a busy place around the freight station in those days. Farmers brought in milk and carried home their grain which was not delivered then. Coal was first delivered by Frank Bennett, then Ernest Severance. The passenger station was also a busy place. There were eight passenger trains in daily, besides the several freight trains. chicken business also at his home on West Main Street which he may continue for a while. He has earned a rest and change and his friends and he has many hopes he gets it when the question was asked, "What do you know about Fred Dutton?" the answer came unhesitatingly, "He is a fine, honest man. You couldn't find a person in town who could say anything against him." What more need be said?

Here's hoping both Mr. Favor and Mr. Dutton will enjoy their leisure time and freedom from watching the clock.

**NEW HAMPSHIRE CONSERVATION OFFICER**  
Phone 104 Wilton, N. H.

Well this is 1946 and we must start all over again. You must have a new license to fish and hunt. Trappers must have a license and all permits must be renewed. Licensed guides must file again.

Last Sunday the ice fishermen were in the running. There were a lot of them out and they had fine luck. Yes, the season runs to Jan.

15th. But you can fish the rivers and streams where you find trout till the ice disappears in the spring. Any size and amount. But the ponds close Jan. 15 and you can take only pickerel over 12 inches in length.

Next fall some enterprising fellow should put in a million or two of shiners for the ice fishermen.

The local dealers were sold out in 30 minutes and the price has doubled. Local fishermen had to go to Nashua and Manchester for their bait.

We see by the papers that we are to have 2000 snowshoe hares in southern N. H. We will have to do something about the bobcat and fox menace.

Are you a SHEE-per? Well, last Sunday I guess they all went that way. All the hills in my district were well worked that day and the shee tows hit the Jack Pot.

Speaking of wild bird seed. See your hardware man and grocer and the grain people. They all sell it this year. It's a good thing to feed the winter birds as they pay you back in the spring and summer by cleaning up dangerous bugs.

Roged Tuttle of the home town had a lot of shiners to sell last

week. How about this week? Had a Christmas cablegram from the son in Berlin, Germany, only four days late.

The real estate men tell us that in 1946 they are looking for the biggest boom ever. City people are buying country homes. If you have anything to sell see your agent.

No report has come from the Concord office in regard to the deer kill for 1945 but understand that it's a record and may run up to 6,000. (Paper reports)

Here is a fellow who says I am all wet on the law pertaining to road side signs. Well, just take time out and look up the law, Sec. 15, Public Laws, Chapter 47. The fine is 100 berries and can be collected in any Police court in the State. Better advertize in the newspapers. According to the rabbit hunters

the deer population in this neck of the woods is still going strong. One hunter last Sunday saw seven in one bunch.

How many trappers know the land permit law. It reads that only an owner or occupant can grant land permits. We have in the past found them signed by agents who did not live on the property. Such permits are no good in the eyes of the law. Be sure that your permits are signed by the owner or the person living on the property.

Never have we had so many young fellows under 16 get a deer as this year. We have made out twice as many tags as we did in 1944. Younger generation is coming along fast.

Up in Perham Corner in the town of Lynboro not far from the Wilton line, the Forestry Dept. have

erected a fine sign which says "Curds - Dogwood - Reservation." This reservation was purchased by Hon. Frederick F. Curtiss of Dover, Mass., and Wilton and given to the State. This place will be made into a "slow" place in the spring.

It's reported that the Federal Govt. are to take an active hand against pollution of our streams. More power to them if they do.

If you can board dogs and cats for a short or long time tell us about it. The past week we have had many asking about this matter. Send rates in the first letter and where you are located.

Several have asked the past week if we are going to have an open season on beaver in 1946. That is a matter for the Director to decide and he has not said as

Oh, what they'd give to be in *YOUR* shoes!

Oh, what most of the human race would give to be in *your* shoes!

Clothing that you may consider old can bring new life to some suffering person to whom war brought despair and destitution. Goal of the Victory Clothing Collection is 100,000,000 garments, plus shoes and bedding. If your contribution seems negligible, bear this in mind: Every garment you give means one more human being saved from cold or sickness or possibly death.

About 25,000,000 people overseas re-

ceived clothing collected from Americans last spring. But for every person clothed so far, a dozen more remain virtually threadbare. Your spare clothing will be distributed free, without discrimination, to victims of Nazi and Jap oppression in Europe, the Philippines, and the Far East.

Dig into your attics, trunks, and closets today... dig out all the serviceable clothing you can possibly spare... take it to your local collection depot now. If you doubt the need for it overseas, ask the boys who've been there!

SPORTSMEN'S COLUMN

(Continued from page three)

That sportsmen's show in Boston is dated for Feb. 2 to 10. Best ever. The war has brought out many new gadgets for both hunters, fishermen and trappers and all these will be shown to the civilian public for the first time. Better plan to take it in for a day.

State Trooper William Smith of E. Jaffery is assisting me in cleaning up a gang of young fellows who are traveling around in one of my towns with loaded guns shooting at everything in sight. If Bill don't get them I will. Same old law bobs up. Boys and girls under the age of 16 must hunt with some one over 21 who has a license. Air rifles in the hands of young fellows off their own land is a violation of the laws and the fine is \$50.

Now is the time of the year to make and put up bird houses so that in the spring they will be well weather beaten and ready for the first feathered family to arrive from the South.

Did you see that article that's going the rounds in the newspapers about the big trout being caught in the Andes in Lake Titicaca. This lake is 12,466 feet above sea level. Trout were planted from the USA in this lake years ago and they grow to five feet in length. Boy, what fishing! F. M. Stockwell of Westboro, Mass., clipped the article and sent it to me. The natives don't like the trout and are using dynamite to clean them out of the lake. Wish I owned that lake.

Luman Nelson of Winchester will mount that deer head for you. He is the man that did all the work in the State House basement. A place well worth the visiting when you are in the city.

Yes, I could use a few more licensed Guides in my district. What I did have were a very busy lot during the last deer season. One guide had to turn away hunters from out of state. It costs you two big iron men for the year and the O. K. of the local Conservation Officer. Your 1945 license to guide is a thing of the past.

Believe it or not but one day last week a man saw a sea gull in the Souhegan river in open water. He did not stay long as the picking was rather poor.
