## NEIGHBORLY EXCHANGE OF NEWS

Nearly everyone in Antrim has either enjoyed a fine trip, vacation or have been entertaining many houseguests this summer. The "Reporter" is read for a neighborly interest. In the very busy days of vacation time, you would like to read where your friends have gone for a week, and they, in turn, would be pleased if your "folks" came here to enjoy a visit. Why not phone your news correspondent — Antrim 23 — to share your news, or better still, write a note to the Messenger Office, Hillsboro, N. H., before Wednesday of the week you wish the news to appear in print. Many towns have excellent pages of social items, no one is offended to read they gave a party or had a fine holiday excursion. Everyone complains of the paper's lack of social news, do you ever send in yours?

## TWO RECENT EPISODES OF INTEREST

In July, a New York photo studio hired a room at the Maplehurst Inn and after house to house canvassing the area, took photographs of many children in the community. After a delay, of some weeks, the proofs were shown to the parents, and additional money paid for other pictures as wanted. Letters have been received recently, by the Antrim clients, regretfully announcing that the man sent here with the proofs had never returned to the studio with the money or proofs! This studio intends to fill their contracts in spite of this dishonest act. It seems too bad that these incidents happen for it will harm future honest agents in other fields, as well as photography.

Public sentiment here has been aroused against several local boys who used selfish tactics in keeping the float, at the Gregg Lake public swimming spot, out too deep for the use of the 80 or more youngsters taking swimming lessons there. These Red Cross Swimming Lessons, 3 times weekly, are for a few hours, and the float has been used during the periods of instruction. Recently a few boys have unchained it, and monopolized the float, refusing to bring it in even when urged by the instructors. Public property is for the general use, and for benefit of all but it is not to be misused. The very worth while course of swimming lessons has another month to go, it would be a generous gesture for others to allow this project its free use of the float for a few hours 3 days weekly as there are many other hours when it is not in use.

## UNCLE EDWARD DUNBAR

The Centre folks I knew during my childhood were the salt of the earth. I sensed it then and know it now. But looking back over the years, I can now appreciate them more and better understand their idiosyncracies. Uncle Edward Dunbar was our nearest neighbor on the road living with his good wife, Naomi, my Grandmie Gay's sister. He was a cooper by trade and had his own little shop across the street from the house where he made his buckets and butter boxes and other wooden utensils. I can see him now in his blue, well patched, overalls and frock and old straw hat, smoking his corn cob pipe while driving his two cows up the hills to the pasture bars. He toed out at an alarming angle, giving him a sort of swaying gait. We children used to vie with each other in trying to follow his tracks in the snow and nearly twisted ourselves into double knots. We used to like to meet him for he looked so benign with his white beard cut like the poet, Whittier's, he always smiled and his blue eyes twinkled. He liked children and young people. Uncle Edward was impulsive like the Biblical Peter. He was easily provoked and could swear like a pirate, but as easily filled with a contrite spirit best known to himself. He worked on the farms by the day for my father. They often disagreed. Uncle Edward would shoulder his hoe or rake and march off home, but was back on time next day.

Uncle Edward was choister in the Methodist church for 40 years or more. At first he used a pitch-pipe and "lined out" the hymns. While waiting for the service to begin, he often made remarks in a loud whisper, easily heard all over the quiet church and sometimes the young people in the choir giggled as we did the day George Ray's black dog entered the open door, majestically walked up the aisle and laid himself down in his master's pew. Uncle Edward whispered, "That dog knows more than most folks around him."

Uncle Edward's life seemed made up of small things and I used to wonder how he could earn enough money for a living. But he was well and happy and lived in his own home to a ripe old age, and his life is a happy memory to us all. (Continued on Page 3)

## New Minister in Antrim Presbyterian Church

ANTRIM — Mr. Reese Y. Henderson was given a unanimous call by the pulpit supply committee to serve as minister of the First Presbyterian Church in Antrim, N. H. Mr. Henderson is a native of Tennessee. His birthplace is in Memphis, where he attended grade and High School. He graduated from Memphis High School in 1933, and for a number of years worked at the printing trade.

In 1939, feeling the call of God, he left his native home and journeyed to New York State, there he spent three years in Bible School. It was while he was in Bible School that he met and married a young lady from Pennsylvania.

When Bible School days were over Mr. and Mrs. Henderson moved to Boston. Mr. Henderson attended Gordon College of Theology and Missions, and from that institution received his Th. B. degree. While in Boston the Hendersons were twice blessed. Two boys were added to their family, John, age 4, and Clifford, age 2½.

At the present time Mr. Henderson has two years credit toward a B. D. degree. He will be attending classes this school year at Andover Newton Theological School, at Newton Centre, Mass.

These are busy days at the Presbyterian manse in Antrim. The Hendersons are working hard to transform a house into a home.

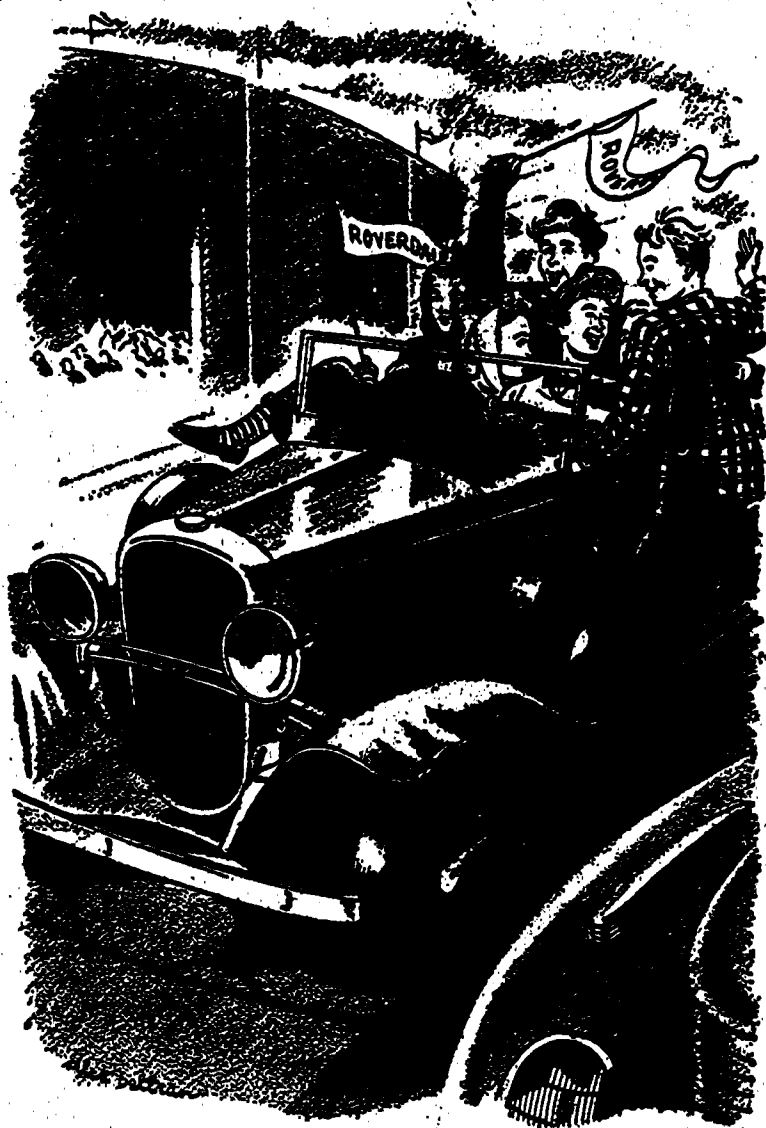

## PRESBYTERIAN CHURCH NOTES

The First Presbyterian Church of Antrim wishes to announce a Lawn Sale in the afternoon of Friday, August 15th, and at 6:00 P. M., that day a Church supper will be served. The public is cordially invited.

In the latter part of August there is to be a Sunday School picnic. This event will launch our Sunday School program for the fall and winter season. Our Sunday School, which has been inactive through the summer, will begin again on September 7th, with classes for all ages.

## Antrim Now Has Its Own Music Club

ANTRIM — Mr. Lester Hill, newly elected president of the Antrim Music Club, in an interview last evening, issued the following statement setting forth the purpose and ideals of the Antrim Music Club.

"In the past Antrim has been well known for its great interest in music and for its support of musical entertainments. It is the purpose of the Antrim Music Club to help maintain and further that interest and increase the usefulness of Antrim talent. The Antrim Music Club has been formed with a few specific rules in mind, to which, we as members of the club pledge ourselves. Listing these rules as they have been brought forward this is what we propose to do.

1. Maintain all our old enthusiasm and create new interest in all things musical in our town.
2. Promote good fellowship. (Wherever there is music of any kind, good fellowship prevails).
3. By becoming federated we become a part of the State program and pledge our support to all its branches.
4. Give our assistance to regional activities, such as Monadnock Chorus, Peterboro Band, etc.
5. Accept as a member any person interested in music whether or not they may be musical themselves. Such members will be received after they have acknowledged an interest in the club, and have made payment of one year's dues.
6. Support 100% any project that is adopted by the club. Projects are suggested by club members, and are adopted by a majority vote of those attending a regular meeting."

Antrim has long felt the need of a musical organization of this kind. We wish for Mr. Hill and the Music Club success in their every undertaking.

Mrs. Lewey Tibbals is entertaining several out-of-town guests, also her daughter and small son.

## Dr. Eleanor Campbell Gives Farm Properties To Church Group

DEERING — Dr. Eleanor A. Campbell of Deering and Scarsdale, N. Y., has given to the Board of Home Missions of the Congregational Christian conference her property in Francetown and the greater portion of her property in this town.

Agreement of the transfer was made last week and the deed was signed this week, it was said.

The new owners have made several changes in management and farm personnel. Rodney Gilbert, a former employee, is the new manager replacing Leonard Gray, for many years the farm manager.

The Francetown gift is known as the Gilson Tavern farm, while the Deering property accepted by the board includes Dr. Campbell's Valley View farm and herd of registered Guernsey cattle.

## KEEPS HOMESTEAD PROPERTY

The gift is an addition to the Elizabeth Millbank Ashford Memorial established by Dr. Campbell in 1945 in memory of her daughter. Dr. Campbell retained ownership of her homestead property here which she will continue to occupy as a summer resident.

Up to the present the chief function of the memorial has been the operation of the Deering Community center. In making the additional gift Dr. Campbell is widening the purpose of the Community center so that it will now become the Deering Community project. Operation of the farms and development of shore property on Deering reservoir will play an important part in the new setup.

Announcement of the gifts was made by Dr. Truman B. Douglass of New York City, executive vice president of the Board of Home Missions of the conference.

HILLSBORO — After a lapse of 9 years, occasioned by the hurricane and wartime restrictions on travel, the annual Forestry Field Day held at the Fox State Forest in Hillsboro is to be resumed on Saturday, August 9th. This meeting will mark the 25th anniversary of the establishment of the Fox State Forest, an area of 522 acres especially devoted to forest investigations and a demonstration of forest management.

Henry I. Baldwin, of Hillsboro, is the resident forester and in charge of arrangements for the Field Day. The forest has been managed with the objective of demonstrating how the many uses and benefits of forests can be integrated without detriment to the others. It is a state game refuge, acting as a breeding reservoir from which surplus game can restock the surrounding hunting grounds, and annual logging operations provide needed browse and openings for the production of game foods. Fishing is permitted on the reservation. Soil and water conservation are promoted by maintaining continuous vegetative cover on erodible slopes.

### HIKING TRAILS

Numerous hiking, riding and ski trails have recently been re-marked on the forest and are open to public use. A small camp ground with facilities for overnight camping, as well as several lean-to shelters for day picnicking are maintained. One of the objectives of management is to determine that there need be no conflict between recreational use of forests and practical forest management including stand improvement and timber harvesting operations. ## A Tribute to Our Children

## TO PUBLISH PICTURES OF LOCAL CHILDREN

Pictures of the children of this city and surrounding community are to be printed in this paper as a special tribute to our young citizens. Tomorrow the responsibility of guiding the destinies of the world will be placed upon their shoulders. All are invited and urged to participate in this featured event. Among our children are those destined to fame and fortune, so let's not omit any of them!

Every parent should cooperate to make this a colorful and inspiring exhibit. You can cut out and keep these pictures of every youngster in the community. They will always be treasured keepsakes and cherished memory records that could not be acquired in any other way.

You are all guests of ours, and all photographs will be taken free of charge.

We have made arrangements with the Wolts Studios, nationally known portrait photographers, to come and take the pictures right here in town. Proofs of all poses will be submitted to the parents, and sets of approved poses will be prepared, identified, written up, and printed in this paper.

The Studio will also take pictures of adults and family groups, and submit proofs without charge, but these pictures will not be published in the paper.

If photographs are wanted for yourself it will be necessary to arrange for them direct with the Studio when proofs are submitted for examination because they cannot be obtained through this paper.

LOWER VILLAGE — The annual luncheon of The Fortnightly Club was held last Thursday in the clubrooms at Lower Village. It was prepared and served by Mr. Edward W. Applegate, father of

Mrs. Frank Orser, the president. The menu was a very elaborate affair, with decorated salads, cold meat in a delightful form and a dainty meringue dessert, besides olives, pickles, muffins, iced tea, assorted nuts and mints.

The place cards were individual menus made by the president. The table was set for twelve members and two guests, adorned with flowers and purple ribbon, the club's colors. Luncheon Committee was Mrs. Frank Orser, Mrs. Irving E. Jones, Mrs. Edmund Murphy,

Mrs. David Murphy and Mrs. A. C. A. Perk.

There are two remaining charter members of the club, Mrs. Fred Gibson who was present and Mrs. Josephine Fuller, who has so miraculously recovered from a serious illness of the past year. A special table was set up for Mrs. Fuller in her home, where she entertained two guests at the same time that the club members were dining in the clubhouse.

A business meeting followed the luncheon and all yearly reports

were read. As a travel gift from The Fortnightly Club and The Ladies Aid, a leather notebook was presented to Mrs. A. C. A. Perk by the president.

Despite the heat a very friendly, jolly time was had by all.

Mrs. David French and Miss Fanny Hitchcock of West Medway, Mass., were week-end guests of Mrs. Irving Jones, at "Jonesmere." Mrs. Clarion Worthley of Arlington, Mass., is visiting Mrs. Fred Gibson.

Miss Charlotte Cutler and her cousin, Miss Janice Radford, are visiting in Lowell, Mass.

Joseph Hicks has returned to his home from the Margaret Pillsbury Hospital. He is improved at this time.

Lecturer: "Of course we all know what the inside of a corpuscle is like."

Chairman of Meeting: "Most of us do, but you better explain for the benefit of them as has never been inside one."

## Messenger to Feature Series of Photo Studies of Youngsters

**HILLSBORO** — The Hillsboro Messenger and associated papers today announces the forthcoming publication of a series of local children's pictures yet to be taken. Arrangements have been completed with the Woltz Studios of Des Moines, Iowa, a nationally known firm who specialize in children's photography for newspapers to take the pictures and furnish the engravings.

Two years ago the studio appeared in Hillsboro and took many pictures of youngsters who live in this area. This year family groups or elderly couples may have their pictures taken by the photographer if they wish.

Expert children's photographs for the studios, with all the necessary equipment for this specialized work, will be here Friday, August 22. The special studio will be set up in Fireman's Hall and will be open from 1 P. M. to 8

P. M. There is no charge to the parents and absolutely no obligation to this invitation. There is no age limit. It is bonafide in every sense of the word. Parents do not have to be subscribers, nor even readers of this newspaper. Neither are they obligated to purchase pictures after they are taken. Those who want some additional prints may obtain them by arrangement with the studio representative when they select the pose they want printed in the paper. It is entirely up to them!

You will be happy, afterwards, if you let your child or children participate, and very sorry if you don't. The kiddies will have fun and Mother and Dad will be very proud to see their pictures in print later. Many will clip them out and preserve them until junior grows up. The Messenger wants as many pictures as possible, so don't forget the days and date.

## Public Officials Join Publishers On Round-The-World Flight

**NEW YORK**—Global short cuts for air travel, developed during the war, are now being adapted to commercial use with Pan American World Airways leading the way. The Clipper America with public officials, company directors and 15 leading U.S. publishers aboard circled the globe, sea route on chart above, in 98 flying hours while covering 22,170 miles of airways. An elaborate series of entertainments and meetings planned by government officials of the countries visited made the elapsed time for the trip about 336 hours.

The publishers made the flight to secure on-the-scene reports from government officials. U.S. Correspondents on conditions in the countries visited. The globe-girdling route, recently certified by the Civil Aeronautics Board will begin regular round-the-world mail and passenger service the week following the flight. To close its one gap, the San Francisco to New York transcontinental hop, Pan American now awaits C.A.B. approval of its application for domestic routes.

## News Items From Bennington

Mrs. Maurice C. Newton  
Correspondent

The St. Patrick's Church Fair, which took place on August 1 and 2, drew a record crowd. They were entertained in various ways for there were many forms of amusement. The drawing, which took place shortly before mid-night Saturday night, resulted in the following: Grand prize of \$50 went to D. O. Dennis of Hancock; \$25 went to Mrs. Anna Kelly of Manchester; W. Roach of Hancock won the spring Lamb; the doll went to Ellen Finn, Sunset Lake, Greenfield; Ann Swain of Concord secured the Bunnie and the afghan was won by Mrs. W. B. Cormack, c/o W. F. Leonard of Antrim.

There were many items at the Beano table. One lady exclaimed with pleasure when she was able to walk off with a huge "teddy bear," for her grandchild; a gentleman smoking a pipe beamed when he secured a smoking stand. On Friday night you saw various people with blankets wrapped over their knees, (Friday night was cold), that they had won. One little lad about 10 years old said he wanted to win a chicken fryer for his sister—and strange as it seems he did! Many more things were available than can be mentioned here. The sport of kings "horses" were on a wheel, some won, some didn't. There were lots who enjoyed the supper provided at the cook tent. There is a goodly sum for the treasury. A good word should be said for those faithful people who worked so hard to make this affair a success.

## SPORTSMEN'S COLUMN

by GEORGE S. PROCTOR

NEW HAMPSHIRE CONSERVATION OFFICER  
Phone 104 Wilton, N. H.

This week we are looking for an English setter puppy. Where can we find one?

It sure does pay to spread printer's ink. Last week, I wanted to find a home for a nice black Cocker spaniel. Don't ask my wife how many telephone calls she answered for that dog. Well, it got a good home. Too bad I did not have a couple dozen of them.

Speaking of snake skins. Mrs. Francis and daughter, Mrs. Gannant of South Lyndeboro, send me a snake skin 74 inches long. The snake had just left it. I went up with my snake friend from Wilton, and we hunted for an hour, but did not find the skin-shedder. They also had several other snake skins, but not quite as long as the one they sent me.

John Keirman of North street, Milford, picked up a 12-pound snapping turtle right on his lawn one night last week.

Don't feel that I am an alarmist, but I would like to give you dog owners a tip. Keep your dogs at home. Don't let them run the streets. In several of the nearby towns they have a severe epidemic of distemper. This not confined to dogs, but effects cats, mink, skunks and rats. Don't bring your dogs to town, unless you leave them in your car.

Tommy Dawson of the home town brings in a very small bird which fell out of its nest. It could fly after a night's rest, and took off. Gone with the wind!

Frank Blood of Mont Vernon picked up a homing pigeon. The numbers on its leg band are not in my book. (A-U) and (I-F). Must be a private owner.

Todd's pheasant farm on the Brookline road out of Milford, has 500 beautiful ringneck chicks. He got them as day-old chicks.

LaPonsie, the Painter contractor, brings me in a huge chuck that has been growing fat in his vegetable garden.

Did you ever visit the trout rearing station at Richmond, N. H.? Just a short ways out of Keene and Supt. Harold Dickinson has a fine layout there. New ice cooling plant and he has thousands of trout that are nearly legal size. The other day I dropped in to see Dick and he was showing a man how to find water with a forked witchazel stick. It worked fine in the hands of the Supt.

Last week we, Speck Rockwell of Bristol and I, planted in the ponds of my district, 150,000 pout fry. They came from Errol and were a lively bunch. Speck told me that in

July 1948 they would be large enough to catch. My grandson, Bob helped me to plant them.

If you want to see a Dog Show any day of the week just drop in on Louis Ingraham of Brookline. He has dogs and more dogs but he seems to run to cocker spaniels. I dropped in on him one day last week and I got an eye full. He had between 40 and 50 cockers, all ages, all sizes and colors and all prices. If you want a cocker you know where to go. What a show.

A nice horned owl from the Richmond Rearing station is now in one of my yards. He is a bad actor, Dick caught him by one toe. They bother the hatchery men a lot.

Did you ever hear of a peacock shedding over 40 tall feathers in one day. Well mine did one day last week. Just now he is about shed out. Fly fishermen like these feathers.

It's with sadness that we report the passing of Judge Taft of Greenville. Judge Taft was a good friend of mine and did me many favors in the past. He was a great lover of a horse and had a stable full of real ones. We will greatly miss the Judge.

Some time ago, I had an SOS that a mallard duck had been hit by a car on Route 31. I got the duck and placed her in my hospital and the next day she got out. I didn't see her for a week when she appeared on my pond. She had been making her home with two drakes on the pond. One day last week she appeared with nine babies.

The firm of Sheldon and Frye seem to have a monopoly on the eel trade as the past week they have taken a large number on the Souhegan river and the Souhegan Mills pond. Pete and Jim say they are great eating. Jim brings in a 4-foot water snake which my owls enjoyed.

Have you seen No. 1, Vol. 1, of the new sportsmen's magazine printed in N. H., for N. H. Sportsmen? It's called the N. H. Sportsman and the first issue was in June. In it is a fine article by Director Carpenter on Plans for the Future. This article alone is worth the price of the magazine. Printed in Manchester.

If you want to get a big thrill you want to read the Derry One Arm Bandit article in the last Sunday News, a Sunday newspaper printed in Manchester. I am well acquainted with Chester Davis who lost his camera and got a sock in the jaw for taking pictures of unlawful gambling outfits. Also in the same paper is a fine article by Di-

signs of the Mange and distemper. Both are in this section. Rush your dog or cat to the "Vet" at the first signs.

The Mont Vernon Club have added \$5 to the \$20 bounty by the State for that big black pussy known as the black panther. Other clubs are thinking of getting on in this bounty business.

A cat may have nine lives but some of them will be cut short if some of the men in the Whiting Mill get a pot shot at them catching the young mallards in the Souhegan river. Several mink have been shot near the Abbott Machine Shops the past few weeks catching young ducks.

Had a letter from a fellow the other day. He has a lot of tinfoil but he don't want to send it to me for he is peeved at me. (I pinched his uncle five years ago). He wants to know where to send it. Well, just send it to Shriners' Hospital, Springfield, Mass., or to Dr. Bullfinch of Manchester. When I get a ton I send for the Doctor and he does the rest.

The reason I collect tinfoil is this. A dozen years ago I attended a Sportsman's Show at Hartford, Conn. I was there a week. In this show the Shriners had a wonderful exhibit. There was a boy born very badly deformed; he was then 14 years of age. The Shriners took him at two years. The boy was there in person and I had a nice talk with him. That sold me on collecting tinfoil. Here was a boy cured and walking as well as any one and never cost him or his parents a cent. This tinfoil is ground up, melted and made into all sorts of useful things which are sold, the proceeds used to defray expenses of service. There are Shriners' Hospitals all over the USA and Canada. A most worthy cause.

Have you found a pheasant nest while haying? "Get in touch with your nearest Conservation Officer to salvage the eggs if the hen is killed. If she is unharmed she may go back to the nest if not destroyed. Checked a case last week, Deer damage. The check showed no deer tracks but porcupine tracks galore. People are too free to blame the deer when other things are to blame.

Another party lost a number of chickens by a mink. The Dept. does not pay damages done by furbearing animals, but you have a right to protect your property against any four or two-legged animal or bird—even those that wear

### Area World Premiere At Capitol Theatre

**HILLSBORO** — Hillsboro has been chosen as one of the first spots in the country to show "THE LONG NIGHT," its first week of release. The picture will be shown at the Capitol Theatre, Wednesday and Thursday, August 13th and 14th.

Sensational drama combining action, romance and suspense has been achieved in "The Long Night," headlined with Henry Fonda, Barbara Bel Geddes, Vincent Price and Ann Dvorak, the story of a poignant love affair between two young people complicated by the machinations of a colorful adventurer. Doubt, fear and conflict between the principals leads to a killing and an exciting police siege of the culprit, with most of the townspeople on the side of the hero in the belief that his act was justified.

Whenever you employ electricity, you use the best, most efficient, most modern method known to man.

Whenever you use electricity exclusively for the big time-and-energy consuming jobs like Refrigeration, Cooking, Water Heating, Laundering, etc., you employ the best method at its cheapest! It's wise to use electricity for any job... wiser to use it for more jobs... and wisest to use it exclusively for ALL the jobs.

**GO ALL-ELECTRIC:** You can rely on electricity to do each job better. When you use it exclusively for all the jobs, it costs less per job than any other method. Yet electricity does them ALL better, faster, safer, cleaner, more efficiently.

Never have we heard so many reports as came in last week about people seeing deer both old and young. One man told me he saw a deer run through his yard and something chasing it. On second look it was her two fawns chasing her. No dogs that time.

I have a few tarred paper pieces if you are bothered with deer. Also some strong smelling liquid.

OLD MR. BOSTON SAYS:

## Rocking Chair is Mellow

As Keg-Rocked Whiskeys of Old!

Back in the sixties, New England skippers carried many a keg of whiskey on their long voyages—because a deeper, smoother flavor resulted from the rocking motion of the ocean waves.

Ashore, they'd rock legs of whiskey labeled beneath their rockers so that same smoothness—a smoothness that's recalled in Rocking Chair Whiskey!

Only by controlled agitation in my special blending process do I achieve Rocking Chair's mellow, best. For real flavor—and real smoothness—say Rocking Chair!
